A Political Philosophy Arguments For Conservatism:

A Political Philosophy Roger Scruton, 2006-01-01 Presents a defence of social order beginning from philosophical first principles which aims to be a systematic answer to liberal egalitarianism and also a defence of the Western social religious cultural and political inheritance This book also demonstrates that this inheritance is a reflection of the deepest truths about human nature

A Political Philosophy Roger Scruton, 2019-04-23 Roger Scruton's classic work on conservatism reissued for a new political moment Over the past twenty years Roger Scruton has been developing a conservative view of human beings society and culture In the book his arguments are recommendations with the aim of convincing the reader that rumors of the death of Western civilization are greatly exaggerated Much of our present self doubt argues Scruton is brought about by the Darwinian theory of evolution Darwin encourages us to see human emotion as a reproductive strategy This is a perspective which Scruton attacks vehemently especially in its modern proponents Desmond Morris and Richard Dawkins This the author believes undermines the belief in freedom and the moral imperatives that stem from it

Art and Politics in Roger Scruton's Conservative Philosophy Ferenc Hörcher, 2022-12-12 This book covers the field of and points to the intersections between politics art and philosophy Its hero the late Sir Roger Scruton had a longstanding interest in all fields acquiring professional knowledge in both the practice and theory of politics art and philosophy The claim of the book is therefore that contrary to a superficial prejudice it is possible to address the philosophical issues of art and politics in the same oeuvre as the example of this Cambridge educated analytical philosopher proves Accordingly the book has a bold thesis on the general theoretical level mapping the connections between politics art and philosophy However it also has a pioneering commitment on the level of the particular offering the first full length study into the philosophical legacy of Roger Scruton probably the most important British conservative philosopher of the late 20th and the first decades of the 21st century It also allows reader to look into the philosopher's fascination with Central European art and culture Finally it also provides a daring analysis of the late Scruton's metaphysical inspirations connecting the arts and especially music with religion and the bonds of love

A Political Philosophy of Conservatism Ferenc Hörcher, 2020-01-23 Bringing prudence back into the centre of political philosophical discussion this book assesses how far the Aristotelian notion can be of use in thinking about politics today Antique medieval and early modern discussions on practical wisdom are reconstructed and recontextualised to show not only how our understanding of the virtue of prudence has changed over time but why it should be revived Starting with basic Aristotelian principles such as the relevance of cooperation and politics in human life the significance of the virtues and character formation for political actors and the personal and communal resources of right action in politics Ferenc Hörcher offers an evolutionary history of the concept of prudence Moving on to incorporate the developments of the Roman and the Christian traditions a contemporary conservative republican political philosophy is built up Special attention is given to the relevance of local customs and traditions as well as participation compromise and

moderation in political activity The book demonstrates that Aristotelian notions should be used to describe the actions and speeches of people active in politics without losing sight of the normative dimension In doing so it presents an original argument which is both different from mainstream contemporary political philosophy and beneficial to our understanding of the role of practical reason in politics The Political Thought of the Conservative Party since 1945 K. Hickson,2005-04-01 The Conservative Party is usually seen as being non ideological This book is the first comprehensive treatment of the political thought of the Conservative Party examining the major elements of Conservative thinking since 1945 cross cutting thematic issues and commentaries from leading politicians and journalists The book is essential for anyone interested in the history and future of the Party *The History of European Conservative Thought* Francesco Giubilei,2019-06-11 Modern conservatism was born in the crisis of the French Revolution that sought to overturn Christianity monarchy tradition and a trust in experience rather than reason In the name of reason and progress the French Revolution led to the guillotine the dictatorship of Napoleon Bonaparte and a decade of continental war Today Western Civilization is again in crisis with an ever widening progressive campaign against religion tradition and ordered liberty Francesco Giubilei s cogent reassessment of some of conservatism s greatest thinkers could not be timelier Within these pages English speaking readers will come across some familiar names Burke Disraeli Chesterton and Scruton Americans get their own chapter too including penetrating examinations of John Adams Richard Weaver Henry Regnery Robert Nisbet Russell Kirk William F Buckley Jr and Barry Goldwater But perhaps most interesting is Giubilei s coverage of the continental European tradition largely Catholic monarchical traditionalist and anti Jacobin anti Communist and anti Fascist Giubilei offers insightful intellectual portraits of statesmen and philosophers like Count Klemens von Metternich the man who restored Europe after the Napoleonic Wars Eric Voegelin the German political philosopher who made his career in America and traced recurrent strains of leftism to an early Christian heresy Joseph de Maistre the leading French counterrevolutionary philosopher George Santayana a Spaniard who became an American philosopher and conservative pragmatist Jose Ortega y Gasset who warned of the revolt of the masses and a wide variety of Italian thinkers whose conservatism was forged against a Fascist ideology that presented itself as a force for stability and respect for the past but that was fundamentally modernist and opposed to conservatism Unique and written by one of Italy s youngest and brightest conservative thinkers Francesco Giubilei s History of European Conservative Thought is sure to enlighten and inform **Arguing About Political Philosophy** Matt Zwolinski,Mario I. Juarez-Garcia,2025-07-31 This third edition of Arguing About Political Philosophy is the most complete up to date and interdisciplinary anthology of its kind Its selections cover classic philosophical sources such as those from Thomas Hobbes and John Rawls important works in political economy from thinkers like Adam Smith Friedrich Hayek and Karl Marx and the writing of cutting edge contemporary theorists like Debra Satz Jason Brennan and Ta Nehisi Coates The third edition has been substantially revised to make it more suitable for a growing number of courses in philosophy politics and economics

PPE New topics and new readings help to explore the intersection of these three disciplines at a theoretical level and how they help us to think about challenging practical problems like regulating sweatshop labor reconciling immigration policy with social justice and thinking about the virtues and limits of democracy In addition to offering sections on foundational concepts political economy and contemporary debates in political philosophy the third edition contains a brand new section on political ideologies with a new introduction and accessible readings setting out the main features of liberalism socialism conservatism and libertarianism The updated Instructor and Student Resource website www.routledge.com/cw/zwolinski offers valuable resources for instructors and students alike including sample quizzes exams and writing assignments extensive study questions for each reading and an online version of the What's Your Political Philosophy self assessment Key Updates to the Third Edition Includes more interdisciplinary readings from economists and political scientists Contains readings that make the volume a better fit for new programs in philosophy politics and economics PPE Offers a better representation of diverse ideological perspectives Provides new coverage of emerging topics like reparations for past injustice sweatshop labor immigration policy effective altruism and the value of democracy Updates the important parts on the book's website sample quizzes exams and writing assignments extensive study questions for each reading and an online version of the What's Your Political Philosophy self assessment

Intellectual Conservatism Ferenc Hörcher, Daniel Pitt, 2025-09-29 This book examines the history of intellectual conservatism from its late 18th century founding father Edmund Burke to its last great representative the late Sir Roger Scruton Focusing on British intellectual conservatism and investigating this under researched area of political thought through multiple contributions and disciplines the editors aim is to provide an account of the supportive or critical intellectual work behind conservative politics in the 19th and 20th century with a long term view on the modern conservative movement It is an up to date account of some of the major theoretical issues of conservatism that utilises case studies to provide pictures of particular conservative intellectuals explain key concepts and reconstruct major schools and defining debates within conservatism There is a particular focus on the role of Christianity the British common law tradition and on the connection between culture and politics Intellectual Conservatism From Burke to Scruton is valuable for university students studying history political science PPE or the social sciences as well as those interested in the contemporary debates in Western politics on the future of Europe and the US

The Conservative Party and the Creation of the Welfare State Eric Caines, 2022-09-13 This book explores the origins of the post war Welfare State in the UK the creation of which is almost universally considered to an extent which is regarded here as being tantamount to a myth as being solely a Labour Party creation The book examines the various contributions to the development of welfarism across the first half of the twentieth century and in particular those of Winston Churchill Neville Chamberlain and William Beveridge It assesses the effects of two World Wars the daunting economic challenges of the 1920s and 1930s the stimuli to post war reconstruction the 1945 Labour government's implementation of the wartime Coalition

Government's post Beveridge conclusions and the Conservative Party's attitude after 1945 to Labour's legislative programme. The book invites the reader to accept that taking developments over the half century as a whole the greater share of the credit for the creation of a welfare state belongs to the Conservative Party. *American Conservatism* Sanford V. Levinson, Joel Parker, Melissa S. Williams, 2016-05-17 About half of the essays date back to panels of the American Society for Political and Legal Philosophy that were held in January of 2007 at the annual meeting of the American Association of Law Schools the remainder were delivered at a conference held at the University of Texas Law in September 2012 Preface

The Political Right and Equality Matthew McManus, 2023-07-21 McManus presents an intellectual history of the conservative and reactionary tradition stretching from Aristotle and Filmer to Alexander Dugin and Patrick Deneen. Providing a comprehensive critical genealogy of the intellectual political right, McManus traces its core to a nostalgia for the hierarchical cosmos of antiquarian and scholastic thinking. The yearning for a shared vision of the universe where each part of reality has its place maps onto the conservative admiration for orderly political and social stratification. It stamps even the more moderate forms of liberal conservatism which emerged in the aftermath of the revolutionary 18th century as the political right struggled to accept and later master first the politics of liberal capitalism and later universal suffrage. In its most radical forms this nostalgia for an orderly and hierarchical existence can harden into a resentment at the perceived shallowness of liberal modernity. McManus argues for those who support the project of modernity to commit themselves to better understanding the depth of the political right's critiques, many of which expose uncomfortable but solvable problems with the quest for equality and freedom. A critical guide to the history of conservative and reactionary thought for students and scholars of political science and political history. While there are a lot of competing explanations for the contemporary rise of right wing forces, Matt McManus' new book suggests that it is hostility to equality that actually unites the right. Zeroing in on key intellectuals and writers, McManus in a sharply written text offers a compelling explanation for the disproportionate intensity of right wing grievance politics. *Virtue and the Promise of Conservatism* Bruce Frohnen, 1993 In *Virtue and the Promise of Conservatism* Bruce Frohnen attempts to rescue the essence of conservative virtue from rationalists and materialists of whatever political colour. He argues that we have lost and must attempt to regain the conservative good life and the outlook which made it possible. The tools needed to do that, according to Frohnen, are humility and political action aimed at combating the centralising and materialistic structures and beliefs interfering with the formation and retention of family, church and neighbourhood. **The Meanings of Michael Oakeshott's Conservatism** Corey Abel, 2017-03-06 This collection of recent scholarship on the thought of Michael Oakeshott includes essays by both distinguished and established authors as well as a fresh crop of younger talent. Together they address the meanings of Oakeshott's conservatism through the lenses of his ideas on religion, history and tradition and explore his relationships to philosophers ranging from Hume to Ryle, Cavell and others. The collection assigns no single or final meaning to Oakeshott's conservatism but finds in him a

number of possibilities for thinking fruitfully about what conservatism might mean when it is no longer considered as a doctrine but as a habit or a turn of mind

Modern Political Ideologies Andrew Vincent, 2023-12-26

Dictionary of Conservative and Libertarian Thought (Routledge Revivals) Nigel Ashford, Stephen Davies, 2012-06-25 First published in 1991 this is a reissue of the path breaking Dictionary of Conservative and Libertarian Thought the first book to examine the ideals and arguments produced by the intellectual traditions of both conservatism and classical liberalism Covering the ideas of many such distinguished thinkers as Hayek Scruton Friedman and Buchanan the volume provides a valuable survey of the historical development of both schools of thought in all of the major western countries and their contributions to contemporary debates From American Conservatism to French Liberalism Invisible Hand to Organic Society from Scientism to Scepticism and Utopianism to Voluntarism this is a vital work whose reissue will be welcomed as much by the keen layperson as by students of political science the history of philosophy economics and public policy Echo Chamber Kathleen Hall Jamieson, Joseph N. Cappella, 2008-07-22 Kathleen Hall Jamieson and Joseph Cappella two of the nation's foremost experts on politics and media offers a searching analysis of the conservative media establishment from talk radio to Fox News to the editorial page of The Wall Street Journal Echo Chamber is the first serious account of how the conservative media arose what it consists of and how it operates Jamieson and Cappella find that Limbaugh Fox News and The Wall Street Journal opinion pages create a self protective enclave for conservatives shielding them from other information sources and promoting highly negative views toward conservatism's political opponents A thoughtful and incisive study Echo Chamber offers the most authoritative and insightful account of this revolutionary phenomenon and its indelible effect on the American political landscape **The Conservative Political Tradition in Britain and the United States**

Arthur Aughey, Greta Jones, William Terence Martin Riches, 1992 This book seeks to break new ground by providing an original framework within which to understand conservative politics and to compare what has always been thought to be opposite ideal types a British conservatism characterized by traditionalism and an American conservatism defined by its optimistic individualism **Conservatism and Grace** Sebastian Morello, 2023-02-10 This book offers a systematic and detailed examination of the conservative case for religion by establishment In doing so the author demonstrates that the conservative political tradition is rooted in an inescapably religious worldview and in turn shows what the future of conservatism might be The author begins the book by analysing the thought of prominent proponents of secular conservatism

chiefly examining the work of Roger Scruton The author develops a case to show that Scruton s arguments on the privatisation of religion are in tension with his basing of a conservative political settlement on transcendent bonds The author then examines alternatives to secular conservatism especially the chief religious and metaphysical commitments of early conservatives Edmund Burke and Joseph de Maistre Finally in seeking to establish a foundational argument for religion by establishment within the conservative tradition and more broadly to unify the diverse commitments and objections of conservatives the author develops a case that draws on Scruton s personalism as well as the thought of Martin Buber Andrew Pinsent and Robert Spaemann In the course of developing his foundational argument the author incorporates findings from experimental psychology and themes from contemporary theology The result is a convincing argument in favour of establishmentarian conservatism as well as the role of religious ideas in our self understanding as individuals and as a political community Conservatism and Grace will appeal to scholars and advanced students interested in political philosophy philosophy of religion theology and the history of conservatism Conservatism, Past and Present Tristan J.

Rogers,2025-01-31 In Conservatism Past and Present A Philosophical Introduction Tristan J Rogers argues that philosophical conservatism is a coherent and compelling set of historically rooted ideas about conserving and promoting the human good Part I Conservatism Past presents a history of conservative ideas exploring themes such as the search for wisdom the limits of philosophy reform in preference to revolution the relationship between authority and freedom and liberty as a living tradition Major figures include Aristotle Saint Thomas Aquinas Edmund Burke G W F Hegel and Roger Scruton Part II Conservatism Present applies philosophical conservatism to contemporary conservative politics focusing on issues such as nationalism populism the family education and responsibility Rogers shows that conservatism has been defined differently at different times as a loose set of connected ideas reacting against the French Revolution as a kind of disposition or instinct in favor of the status quo and more recently as any ideas opposed to the political left But he also allows a set of questions to guide his argument for conservatism s merits What is conservatism Is it a coherent and attractive philosophy What are conservatives for And how is today s conservatism related to its past In his answers Rogers paints a compelling and coherent picture of an aligned and attractive set of ideas

Unveiling the Power of Verbal Art: An Mental Sojourn through **A Political Philosophy Arguments For Conservatism**
