A Question Of Madness:

A question of madness Žores A. Medvedev, Roj A. Medvedev, 1971 *A Question of Madness* , **A Question of Madness** Zhores A. Medvedev, Roy Aleksandrovich Medvedev, 1971 *A Question of Madness* Žores Aleksandrovič Medvedev (Historiker, Biologe), Roj Aleksandrovič Medvedev (Historiker, Politiker), 1971 Foucault and Derrida Roy Boyne, 2013-11-05 The writings of Michel Foucault and Jacques Derrida pose a serious challenge to the old established but now seriously compromised forms of thought In this compelling book Roy Boyne explains the very significant advances for which they have been responsible their general importance for the human sciences and the forms of hope that they offer for an age often characterized by scepticism cynicism and reaction The focus of the book is the dispute between Foucault and Derrida on the nature of reason madness and otherness The range of issues covered includes the birth of the prison problems of textual interpretation the nature of the self and contemporary movements such as socialism feminism and anti racialism Roy Boyne argues that whilst the two thinkers chose very different paths they were in fact rather surprisingly to converge upon the common ground of power and ethics Despite the evident honesty importance and adventurousness of the work of Foucault and Derrida many also find it difficult and opaque Roy Boyne has performed a major service for students of their writings in this compelling and accessible book To Nietzsche: Dionysus, I Love You! Ariadne Claudia Crawford, 1995-01-01 This book explores the possibility that Friedrich Nietzsche simulated his madness as a form of voluntary death and thus that his madness functioned as the symbolic culmination of his philosophy The book weaves together scholarly mytho poetic literary critical biographical and dramatic genres not only to explore specifics of Nietzsche s madness but to question the reason madness opposition in nineteenth and twentieth century thinking A rational and scholarly study of this period of Nietzsche s breakdown presented through his writings letters and poetry in combination with relevant historical documents and other critics writings is simultaneously disrupted and questioned by several non traditional discourses or voices that break in on it Thus Ariadne s voice frames and unframes the research context and plays alongside it Ariadne s voice is poetic revelatory rhapsodic and prophetic sounding much like Nietzsche s own voice during his breakdown Ariadne s discourse attempts to seduce through a non rational mytho poetic love story which culminates in the wedding of Dionysus and Ariadne Other non rational discourses critically developed and based upon the work of Nietzsche Jean Baudrillard and Gilles Deleuze are given voice and work together with Ariadne to counter the usual interpretations of Nietzsche s madness and of what mad discourse is These discourses are given the names catastrophe phantasm and seduction The experiment of the book is not only to offer an entirely different perspective on Nietzsche s madness but to offer and perform new and challenging forms of affirmative discourse Writing and Difference Jacques Derrida, 2021-01-27 First published in 1967 *Writing and Difference* a collection of Jacques Derrida s essays written between 1959 and 1966 has become a landmark of contemporary French thought In it we find Derrida at work on his systematic deconstruction of

Western metaphysics The book's first half which includes the celebrated essay on Descartes and Foucault shows the development of Derrida's method of deconstruction In these essays Derrida demonstrates the traditional nature of some purportedly nontraditional currents of modern thought one of his main targets being the way in which structuralism unwittingly repeats metaphysical concepts in its use of linguistic models The second half of the book contains some of Derrida's most compelling analyses of why and how metaphysical thinking must exclude writing from its conception of language finally showing metaphysics to be constituted by this exclusion These essays on Artaud Freud Bataille Hegel and Lévi Strauss have served as introductions to Derrida's notions of writing and difference the untranslatable formulation of a nonmetaphysical concept that does not exclude writing for almost a generation of students of literature philosophy and psychoanalysis Writing and Difference reveals the unacknowledged program that makes thought itself possible In analyzing the contradictions inherent in this program Derrida goes on to develop new ways of thinking reading and writing new ways based on the most complete and rigorous understanding of the old ways Scholars and students from all disciplines will find Writing and Difference an excellent introduction to perhaps the most challenging of contemporary French thinkers challenging because Derrida questions thought as we know it Franco Basaglia's Revolution Carlo Guareschi, Valeria Bizzari, 2025-02-18 This book explores the importance of the work of Franco Basaglia a pioneer in the democratic psychiatry movement Using a multidisciplinary approach combining philosophy and psychology this volume seeks to illuminate the past and create a clearer picture of Basaglia's impact in conceptualizing modern psychiatric care It reviews the contemporary status of care and offers new insights for a critical evaluation of care that takes the psychiatric revolution to a new level Highlights Basaglia's diagnostic and clinical practice Employs a multidisciplinary approach Joins phenomenology and critical theory **Modern Critical Thought** Drew Milne, 2008-04-15 This anthology presents a series of texts in which major twentieth century thinkers engage in dialogue with their predecessors Presents a series of texts in which major twentieth century thinkers engage in dialogue with their predecessors Offers an innovative way into understanding modern critical thought Spans the period from Marx to the present day A conversation of ideas emerges between one generation and the next Editorial material defines key terms and maps out contested terrain Each piece is prefaced by contextualising notes and suggestions for further reading **A New Companion to The Gothic** David Punter, 2015-09-08 The thoroughly expanded and updated New Companion to the Gothic provides a series of stimulating insights into Gothic writing its history and genealogy The addition of 12 new essays and a section on Global Gothic reflects the direction Gothic criticism has taken over the last decade Many of the original essays have been revised to reflect current debates Offers comprehensive coverage of criticism of the Gothic and of the various theoretical approaches it has inspired and spawned Features important and original essays by leading scholars in the field The editor is widely recognized as the founder of modern criticism of the Gothic Feminism and the Postmodern Impulse Magali Cornier Michael, 1996-07-03 Analyzes the intersections between feminist

politics and postmodern aesthetics as demonstrated in recent Anglo American fiction

Law and the Utopian Imagination Austin Sarat, Lawrence Douglas, Martha Merrill Umphrey, 2014-05-21 *Law and the Utopian Imagination* seeks to explore and resuscitate the notion of utopianism within current legal discourse The idea of utopia has fascinated the imaginations of important thinkers for ages And yet who writes seriously on the idea of utopia today The mid-century critique appears to have carried the day and a belief in the very possibility of utopian achievements appears to have flagged in the face of a world marked by political instability social upheaval and dreary market realities Instead of mapping out the contours of a familiar terrain this book seeks to explore the possibilities of a productive engagement between the utopian and the legal imagination The book asks is it possible to re-imagine or revitalize the concept of utopia such that it can survive the terms of the mid-century liberal critique Alternatively is it possible to re-imagine the concept of

utopia and the theory of liberal legality so as to dissolve the apparent antagonism between the two In charting possible answers to these questions the present volume hopes to revive interest in a vital topic of inquiry too long neglected by both social thinkers and legal scholars Liminal Postmodernisms, 1994 New Millennial Sexstyles Carol Siegel, 2000 New Millennial Sexstyles questions the twin feminist orthodoxies that the 1960s sexual revolution failed women and that the sexual attitudes most prominent in current youth cultures are deplorably regressive Comparing the American sexscape she inhabits to the vision of contemporary culture produced by feminist theorists Carol Siegel considers whether the sexual revolution may have succeeded but in ways not recognized by current academic studies of gender and sexuality In discouraging undomesticated heterosexuality academic feminism ignores the connection between mainstream opposition to all unrestrained sexual expression and the growth of new forms of homophobia in our times At the same time the youth subcultures challenges to these views of sexuality and gender have been dismissed as insignificant or misunderstood as sexist In this book they receive more respectful attention Siegel draws on her own experience as a college student to create a personal history of academic feminism s early sympathy with bourgeois values She looks at the development of American sex advice literature and at the reception of such transgressive popular films as *Basic Instinct* *Thelma and Louise* and *Natural Born Killers* to demonstrate that the most profoundly capitalist feminist theories have always been the most culturally authoritative A more encouraging vision emerges in the book s second half where a record of conversations about sex and gender with young people and of their responses to products designed for their consumption takes the reader through some of today s most radical youth cultures and suggests new directions for gender studies Rhetoric in an Antifoundational World Professor Michael F Bernard-Donals, Michael F. Bernard-Donals, Richard R. Glejzer, 1998-01-01 In this brilliant collection literary scholars philosophers and teachers inquire into the connections between antifoundational philosophy and the rhetorical tradition What happens to literary studies and theory when traditional philosophical foundations are disavowed What happens to the study of teaching and writing when antifoundationalism is accepted What strategies for human understanding are possible when the weaknesses of antifoundationalism are identified This volume offers answers in classic essays by such thinkers as Richard Rorty Terry Eagleton and Stanley Fish and in many new essays never published before The contributors to this book explore the nexus of antifoundationalism and rhetoric critique that nexus and suggest a number of pedagogical and theoretical alternatives The editors place these statements into a context that is both critical and evaluative and they provide for voices that dissent from the antifoundational perspective and that connect specific practical pedagogies to the broader philosophical statements For those with an interest in rhetoric philosophy comparative literature or the teaching of composition this book sets forth a wealth of thought provoking ideas I have nothing but praise for this work a masterful treatment of the question What positive intellectual projects are possible within a world that radically questions the existence of philosophical foundations Steven Mailloux University of California Irvine
