A Guide to the UNCITRAL Arbitration Rules Clyde Croft, Christopher Kee, Jeff Waincymer, 2013-04-25 The first version of the UNCITRAL Arbitration Rules was endorsed by the General Assembly of the United Nations in December 1976 Now considered one of UNCITRAL's greatest successes the rules have had an extraordinary impact on international arbitration as both instruments in their own right and as guides for others The Iran US Claims Tribunal for example employs a barely modified version of the rules for all claims and many multilateral and bilateral foreign investment treaties adopt the UNCITRAL Rules as an arbitral procedure The Rules are so pervasive and the consequences of the new version potentially so significant that they cannot be ignored This commentary on the Rules brings the official documents together in one volume and includes the insights and experiences of the Working Group that are not included in the official reports **Concise**

History of the Language Sciences E.F.K. Koerner, R.E. Asher, 2014-06-28 This book presents in a single volume a comprehensive history of the language sciences from ancient times through to the twentieth century While there has been a concentration on those traditions that have the greatest international relevance a particular effort has been made to go beyond traditional Eurocentric accounts and to cover a broad geographical spread For the twentieth century a section has been devoted to the various trends schools and theoretical framework developed in Europe North America and Australasia over the past seventy years There has also been a concentration on those approaches in linguistic theory which can be expected to have some direct relevance to work being done at the beginning of the twenty first century or those of which a knowledge is needed for the full understanding of the history of linguistic sciences through the last half of this century The last section of this book reviews the applications of some of these findings Based on the foundation provided by the award winning Encyclopedia of Language and Linguistics this volume provides an excellent focal point of reference for anyone interested in the history of the language sciences *Integrating Information and Communication Technologies in English*

for Specific Purposes Rosa Muñoz-Luna, Lidia Taillefer, 2017-11-07 This book fills the need for a text that integrates Information and Communication Technologies ICTs into English for Specific Purposes ESP It offers insights on current methodological principles in ESP in both academic and professional contexts drawing on authentic teaching and learning situations and analyses best practice guidelines Part I begins with ESP pedagogical principles and technological practice in order to focus on its two main branches English for Academic Purposes which includes linguistic skills and students needs and English for Occupational Purposes specifically looking at Business Medical and Translators courses This book is a great resource for ESP researchers educators and students because it provides case studies of how ICTs can be used in English for multiple purposes Authors present their experiences of integrating tools into their instructions with each chapter contributing unique pedagogical implications *Library Literature* H.W.
