Political Philosophy from an Intercultural Perspective Bianca Boteva-Richter, Sarhan Dhouib, James Garrison, 2021-06-27 The objective of the following collected volume is to encourage a critical reflection on the relationship between power and non power in our contemporary world and proceeding from various philosophical traditions to investigate the multifaceted aspects of this relationship The authors respective investigations proceed from an intercultural perspective and fall predominantly in the domain of political theory and philosophy This volume takes an intercultural political perspective which means on the one hand involving non European philosophies in a global debate about power relations and their effects in the world and on the other hand confronting local traditions of thought with a global inquiry in order to enter into a philosophical political dialogue with these traditions An intercultural approach of this type to political philosophy seeks not only to join others in reflecting upon global problems but also to decenter of our understanding of the world drawing attention to new ways of thinking Insofar as the authors of the planned volume deal with concrete philosophical political problems unfolding in various regions of the world they seek to shed light on burning issues like migration human rights violations dictatorship and language global poverty power asymmetries experiences of injustice with the further goal of offering a particularly intercultural analysis of these problems along with approaches to resolving them To date there is no book that collects various essays from different countries and perspectives and poses political philosophical problems from an intercultural point of view

Jus Post Bellum and Transitional Justice Larry May, Elizabeth Edenberg, 2013-10-07 This collection of essays brings together jus post bellum and transitional justice theorists to explore the legal and moral questions that arise at the end of war and in the transition to less oppressive regimes Transitional justice and jus post bellum share in common many concepts that will be explored in this volume In both transitional justice and jus post bellum retribution is crucial In some contexts criminal trials will need to be held and in others truth commissions and other hybrid trials will be considered more appropriate means for securing some form of retribution But there is a difference between how jus post bellum is conceptualized where the key is securing peace and transitional justice where the key is often greater democratization This collection of essays highlights

both the overlap and the differences between these emerging bodies of scholarship and incipient law **The Conceptual Foundations of Transitional Justice** Colleen Murphy, 2017-04-19 This accessible book analyses transitional justice and discusses how it differs from retributive corrective and distributive justice **The Oxford Handbook of Moral Psychology** Manuel Vargas, John Doris, 2022 The Oxford Handbook of Moral Psychology is a comprehensive multidisciplinary state of the art overview of moral psychology The 50 chapters written by leading figures in both philosophy and psychology cover many of the most important topics in the field and form the definitive survey of contemporary moral psychology **How to End a War** Graham Parsons, Mark Wilson, 2023-03-09 How and when should we end a war What place should the pathways to a war's end have in war planning and decision making This volume treats the topic of ending war as part and parcel of how wars begin and how they are fought a unique complex problem worthy of its own conversation New essays by leading thinkers and practitioners in the fields of philosophical ethics international relations and military law reflect on the problem and show that it is imperative that we address not only the resolution of war but how and if a war as waged can accommodate a future peace The essays collectively solidify the topic and underline its centrality to the future of military ethics strategy and war

publicly showcase self serving versions of the past at key ceremonies and events Japan South Korea and China all focus on what happened to their own citizens with little regard for foreign others Saito goes on to explore the emergence of a cosmopolitan form of commemoration taking humanity rather than nationality as its primary frame of reference an approach increasingly used by a transnational network of advocacy NGOs victims of Japan s past wrongdoings historians and educators When cosmopolitan commemoration is practiced as a collective endeavor by both perpetrators and victims Saito argues a resolution of the history problem and eventual reconciliation will finally become possible The History Problem examines a vast corpus of historical material in both English and Japanese offering provocative findings that challenge orthodox explanations Written in clear and accessible prose this uniquely interdisciplinary book will appeal to sociologists political scientists and historians researching collective memory nationalism and cosmopolitanism and international relations and to anyone interested in the commemoration of historical wrongs
