United States. Department of the Interior,1924 *The Shaping of Environmentalism in America* Victor B.

Scheffer,2013-01-15 Victor Scheffer writes of a social revolution Environmentalism began as a revelation that the resources supporting life are limited and that men and women can if they act wisely and soon reduce their material demands and their numbers before limits are reached and the richness of human existence is diminished forever The revelation grew into a revolution driven by a morality of life or death for the human race Environmentalism is not a word deeply rooted in the American vernacular It was seldom used before the appearance of Rachel Carson s *Silent Spring* in 1962 although warnings about the environment had been sounded earlier It has roots in conservation the preservation and careful use of natural resources and in ecology the study of the relationships between these roots It describes areas of major concern to environmentalists in the sixties and seventies ranging from wasted croplands and forests through endangered species to birth control It reports progress on three fronts educational legal and political Richly anecdotal the book is an informal history of a generation of aroused citizens who began to see their outdoor surroundings and indeed all of Planet Earth in a new light The formative years of the movement 1960 to 1980 are central to the narrative By 1980 environmentalism as a social science a field of political management a philosophy and to many a religion was firmly in place The movement met with notable setbacks during the Reagan years however and Scheffer concludes his narrative with an epilogue highlighting environmental events from 1981 to 1989 Although veterans of the movement will find much in the book familiar territory they will welcome the broad coverage of crises decisions and laws that set the stage for environmental victories As a new generation joins the environmental movement the book will help them understand the moral impetus that gave birth to environmentalism and the public awareness and concern for change that grew with the movement *Collier's* ,1916
