Hoz-Torres,Antonio Jesús Aguilar Aguilera,2024-06-19 This book presents contributions on teaching innovation in university  
architecture and building engineering studies The authors explain how the construction sector demands that future  
architects and building engineers have the knowledge and skills that allow them to meet the decarbonization objectives  
established by international organizations and that this causes the level of knowledge to be higher The contributors further  
discuss new technologies and the internationalization of studies presenting new challenges university studies must face This  
heterogeneity is represented in the chapters that make up this book developed by researchers from different countries The  
book is divided into three blocks i Active learning methodologies ii Innovative methodologies applied to learning process and  
iii Traditional vs Advanced Techniques The chapters of the book represent an advance in the current knowledge of teaching  
innovation techniques in university architecture and building engineering studies      *Prentice Hall's Accounting Faculty*
