A. Pearce,Charles Gordon Smith,1990 Covers over 500 cities providing detailed and reliable information on temperature humidity comfort index climate changes rainfall wind chill index geography Cover *Mariners Weather Log* ,1986 November issue includes abridged index to yearly volume The effect of weather on stock returns: A comparison between emerging and developed markets Irina Prodan,2013-06-01 One renowned and frequently researched anomaly over the last two decades is the weather effect more precisely the impact of weather on stock market returns The extensive literature on the weather effect fails to converge towards a unique systematic and robust relationship between the weather and the stock market Therefore the aim of this paper is to explain the contradictory results in the literature by testing whether stock prices are affected by the weather in a significantly different manner depending on the level of market development and explaining how this difference behaves over time In order to test for this city by city pooled and binary regressions are employed using data of 10 developed and 10 emerging countries over the period 1996 2011 by using two different means of seasonal adjustment **Mediterranean Weather Handbook for Sailors** Roberto Ritossa,2014-09-10 Mediterranean Weather Handbook for Sailors is an indispensable reference providing a general understanding of the various phenomena concurring to determine weather in the Mediterranean as well as useful forecasting aids It is written for sailors not meteorologists theory is kept to a minimum while every effort is made to provide clear interpretative tools that are helpful in understanding actual weather and forecasting Roberto Ritossa is a meteorology expert and this handbook is a result of many years research on Mediterranean weather patterns This second edition includes details of new and changed websites that offer meteorological services Throughout the graphics have been improved and for some sections additional illustrations have been added Roberto Ritossa has produced an excellent weather text book for those who choose to sail in the Mediterranean Although it claims to be written for sailors not meteorologists there is more than enough essential theory to satisfy the keenest of amateur meteorologists I would certainly buy a copy if I were to ever plan to return to the Mediterranean as a sailor IG Cruising This little book contains a
