Concepts of Medicine and Biology Course Description This is the suggested course sequence that allows one core area of science to be studied per semester You can change the sequence of the semesters per the needs or interests of your student materials for each semester are independent of one another to allow flexibility Semester 1 Medicine From surgery to vaccines man has made great strides in the field of medicine Quality of life has improved dramatically in the last few decades alone and the future is bright But students must not forget that God provided humans with minds and resources to bring about these advances A biblical perspective of healing and the use of medicine provides the best foundation for treating diseases and injury In Exploring the History of Medicine author John Hudson Tiner reveals the spectacular discoveries that started with men and women who used their abilities to better mankind and give glory to God The fascinating history of medicine comes alive in this book providing students with a healthy dose of facts mini biographies and vintage illustrations Semester 2 Biology The field of biology focuses on living things from the smallest microscopic protozoa to the largest mammal In this book you will read and explore the life of plants insects spiders and other arachnids life in water reptiles birds and mammals highlighting God s amazing creation You will learn about biological classification how seeds spread around the world long term storage of energy how biologists learned how the stomach digested food the plant that gave George de Mestral the idea of Velcro and so much more For most of history biologists used the visible appearance of plants or animals to classify them They grouped plants or animals with similar looking features into families Starting in the 1990 s biologists have extracted DNA and RNA from cells as a guide to how plants or animals should be grouped Like visual structures these reveal the underlying design of creation Exploring the World of Biology is a fascinating look at life from the

smallest proteins and spores to the complex life systems of humans and animals

Narratives in the Making Mary Beattie, 2003-01-01 At Corktown Community High School in Toronto importance is placed on the education of the whole person An alternative secondary school it emphasizes the development of self knowledge and responsiveness to others creative and critical thought and connectedness through the self the school community and society Narratives in the Making is based on a research project carried out at the school as part of a large scale national research study The Exemplary Schools Project Corktown a pseudonym was selected as a participant in this study because of its unusually high rate of student retention student engagement achievement and success Using narrative accounts of classroom and school practices profiles of teachers and students and language that is accessible to both practitioners and academics Mary Beattie provides insights and explanations of the meaning of success as it is understood by Corktown teachers students parents alumni and school administrators She shows how the whole person concept is incorporated into the school environment and why relationships are at the heart of teaching and learning

Designing Educational Project and Program Evaluations David A. Payne, 2012-12-06 Drawing upon experiences at state and local level project evaluation and based on current research in the professional literature Payne presents a practical systematic and flexible approach to educational evaluations Evaluators at all levels state local and classroom will find ideas useful in conducting managing and using evaluations Special user targets identified are state department of education personnel and local school system administrative personnel The volume can be used by those doing evaluation projects in the field or as a text for graduate courses at an introductory level The book begins with an overview of the generic evaluation process Chapter Two is devoted to the criteria for judging the effectiveness of evaluation practice Chapter Three addresses the all important topic of evaluation goals and objectives Chapters Four Five and Six basically are concerned with the approach framework or design of an evaluation study Chapter Four contains a discussion of four major philosophical frameworks or metaphors and the implications of these frameworks for conducting an evaluation Chapters Five and Six describe predominantly quantitative and qualitative designs respectively Design implementation and operational issues related to instrumentation Chapter Seven management and decision making Chapter Eight and reporting and utilization of results Chapter Nine are next addressed The final chapter of the book Chapter Ten considers the evaluation of educational products and materials

Empirically Engaged Evolutionary Ethics Johan De Smedt, Helen De Cruz, 2021-05-04 A growing body of evidence from the sciences suggests that our moral beliefs have an evolutionary basis To explain how human morality evolved some philosophers have called for the study of morality to be naturalized i e to explain it in terms of natural causes by looking at its historical and biological origins

The present literature has focused on the link between evolution and moral realism if our moral beliefs enhance fitness does this mean they track moral truths In spite of the growing empirical evidence these discussions tend to remain high level the mere fact that morality has evolved is often deemed enough to decide questions in normative and meta ethics This volume starts from the assumption that the details about the evolution of morality do make a difference and asks how It presents original essays by authors from various disciplines including philosophy anthropology developmental psychology and primatology who write in conversation with neuroscience sociology and cognitive psychology *Annual Catalogue of the Mt. Holyoke Seminary and College* Mount Holyoke College,1944

The Top Books of the Year Biology Semester A Plato The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the fascinating narratives that have charmed audiences this year. The Must-Read : Colleen Hoover "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Biology Semester A Plato : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Biology Semester A Plato : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
