Centering Humanism in STEM Education Bryan Dewsbury, Susannah McGowan, Sheila S. Jaswal, Desiree Forsythe, 2024-09-24 Research demonstrates that STEM disciplines perpetuate a history of exclusion particularly for students with marginalized identities This poses problems particularly when science permeates every aspect of contemporary American life Institutions repeated failures to disrupt systemic oppression in STEM has led to a mostly white cisgender and male scientific workforce replete with implicit and or explicit biases Education holds one pathway to disrupt systemic linkages of STEM oppression from society to the classroom Maintaining views on science as inherently objective isolates it from the world in which it is performed STEM education must move beyond the transactional approaches to transformative environments manifesting respect for students social and educational

capital We must create a STEM environment in which students with marginalized identities feel respected listened to and valued We must assist students in understanding how their positionality privilege and power both historically and currently impacts their meaning making and understanding of STEM

That Crumpled Paper Was Due Last Week Ana Homayoun, 2010-01-05 At last the solution for getting disorganized boys back on track Missed assignments Lack of focus and enthusiasm Falling grades For too many boys and their frustrated parents these are the facts of life But they don't have to be Top academic counselor Ana Homayoun has helped turn even the most disorganized scattered and unfocused boys into successful young people who consistently meet their personal and academic challenges She does this by getting back to basics starting with a simple fact Most boys need to be taught how to get organized how to study and most important how to visualize embrace and meet their own goals With an accessible and no nonsense approach Homayoun shows how to Identify their son's disorganizational style Help him set academic and personal goals he cares about Design and establish the right tools of the trade Complete assignments without pulling all nighters Help him tune out social pressure and fend off anxiety Much more than a study guide this insightful user friendly book provides a roadmap for the success too many boys have trouble finding in school and in life

Trends in Teaching Experimentation in the Life Sciences Nancy J. Pelaez, Stephanie M. Gardner, Trevor R. Anderson, 2022-05-11 This book is a guide for educators on how to develop and evaluate evidence based strategies for teaching biological experimentation to thereby improve existing and develop new curricula It unveils the flawed assumptions made at the classroom department and institutional level about what students are learning and what help they might need to develop competence in biological experimentation Specific case studies illustrate a comprehensive list of key scientific competencies that unpack what it means to be a competent experimental life scientist It includes explicit evidence based guidelines for educators regarding the teaching learning and assessment of biological research competencies The book also provides practical teacher guides and exemplars of assignments and assessments It contains a complete analysis of the variety of tools developed thus far to assess learning in this domain This book contributes to the growth of public understanding of biological issues including scientific literacy and the crucial importance of evidence based decision making around public policy It will be beneficial to life science instructors biology education researchers and science administrators who aim to improve teaching in life science departments Chapters 6 12 14 and 22 are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com
