Evaluation of the Oregon Medicaid Proposal, 1992 **BIM for Facility Managers** IFMA, 2013-04-03 A practical look at extending the value of Building Information Modeling BIM into facility management from the world's largest international association for professional facility managers Building owners and facility managers are discovering that Building Information Modeling BIM models of buildings are deep reservoirs of information that can provide valuable spatial and mechanical details on every aspect of a property When used appropriately this data can improve performance and save time effort and money in running and maintaining the building during its life cycle It can also provide information for future modifications For instance a BIM could reveal everything from the manufacturer of a light fixture to its energy usage to maintenance instructions BIM for Facility Managers explains how BIM can be linked to facility management FM systems to achieve very significant life cycle advantages It presents guidelines for using BIM in FM that have been developed by public and private owners such as the GSA There is an extensive discussion of the legal and contractual issues involved in BIM FM integration It describes how COBie can be used to name capture and communicate FM related data to downstream systems There is also extensive discussion of commercial software tools that can be used to facilitate this integration This book features six in depth case studies that illustrate how BIM has been successfully integrated with facility management in real life projects at Texas A M Health Science Center USC School of Cinematic Arts MathWork's new campus Xavier University State of Wisconsin Facilities University of Chicago Library renovation BIM for Facility Managers is an indispensable resource for facility managers building owners and developers alike

Advances in Dependability Engineering of Complex Systems Wojciech Zamojski, Jacek Mazurkiewicz, Jarosław Sugier, Tomasz Walkowiak, Janusz Kacprzyk, 2017-05-29 This book gathers the proceedings of the 2017 DepCoS RELCOMEX an annual conference series that has been organized by the Department of Computer Engineering at the Faculty of Electronics Wrocław University of Science and Technology since 2006 Its mission is to continue the heritage of the other two cycles of events the RELCOMEX conferences 1977-89 and Microcomputer Schools 1985-95 so this year we can celebrate the 40th anniversary of its origins In contrast to those preceding series which were focused on conventional reliability analysis the goal of DepCoS is to promote a more comprehensive approach to system performability which is now commonly called dependability This innovative research area provides answers to the latest challenges in reliability evaluation for contemporary complex systems Its novelty is based on a multi disciplinary approach to system theory technology and maintenance of systems operating in real environments Dependability analyses concentrate on the efficient completion of tasks services and jobs by a system considered as a combination of technical information and human assets in contrast to classical reliability which is generally limited to the analysis of technical resources and associated components and structures The selection of papers for this volume illustrates the diversity of topics that need to be considered from mathematical models and design methodologies through software

engineering and data security issues to practical engineering problems in technical systems In addition this edition of the conference hosted the 7th CrISS DESSERT Workshop which was devoted to the analysis and assurance of safety and cyber security in critical infrastructure and computer systems **Hematopoietic Stem Cell Protocols** Kevin D.

Bunting,2008-01-31 This revised edition provides up to date protocols developed in the HSC field A team of leading researchers supply this volume with in depth readily reproducible methods for effective characterization of HSC and their developmental potential The book provides detailed flow cytometry protocols for thorough analysis of enriched HSC populations and offers a variety of transplantation approaches to measure HSC function in vivo This is a much needed technical resource in the critically important field of stem cell investigation Excel HSC Physics Neville G. Perspectives on Essential Health Benefits Institute of Medicine,Board on Health Care Services,Committee on Defining and Revising an Essential Health Benefits Package for Qualified Health Plans,2012-02-10 The Patient Protection and Affordable Care Act herein known as the Affordable Care Act ACA was signed into law on March 23 2010 Several provisions of the law went into effect in 2010 including requirements to cover children up to age 26 and to prohibit insurance companies from denying coverage based on preexisting conditions for children Other provisions will go into effect during 2014 including the requirement for all individuals to purchase health insurance In 2014 insurance purchasers will be allowed but not obliged to buy their coverage through newly established health insurance exchanges HIEs marketplaces designed to make it easier for customers to comparison shop among plans and for low and moderate income individuals to obtain public subsidies to purchase private health insurance The exchanges will offer a choice of private health plans and all plans must include a standard core set of covered benefits called essential health benefits EHBs The Department of Health and Human Services requested that the Institute of Medicine IOM recommend criteria and methods for determining and updating the EHBs In response the IOM convened two workshops in 2011 where experts from federal and state government as well as employers insurers providers consumers and health care researchers were asked to identify current methods for determining medical necessity and share decision making approaches to determining which benefits would be covered and other benefit design practices Essential Health Benefits summarizes the presentations in this workshop The committee s recommendations will be released in a subsequent report *Evaluation of the Oregon Medicaid Proposal* United States. Congress. Office of Technology Assessment,1992 As part of an eventual statewide set of health insurance reform measures the State of Oregon has proposed implementing a demonstration program with Federal cofunding that would change the State s existing Medicaid program in three fundamental ways It would 1 expand coverage to include all persons with incomes up to 100 percent of the Federal poverty level 2 enroll all covered persons in some form of managed care such as with a health maintenance organization or a gatekeeperprimary care physician and 3 determine acute and primary health care benefits according to a ranked list of services with actual benefits dependent on the level of program funding Foreword p III
