

## Welcome Speech

### Euro-CASE Annual Conference 2010. Value Creation through Innovation. European Best Practice Case Studies

#### Speaker:

- Reinhard Hüttl, President acatech – German Academy of Science and Engineering; Deutsches GeoForschungsZentrum GFZ

Dear Excellencies, distinguished guests, dear colleagues, ladies and gentlemen,

It is a true pleasure for me to welcome you to the third Euro-CASE Annual Conference, this time in Berlin. I am very grateful to you, Professor Martin Schuumanns, President of the EIT, for taking time off from your busy schedule to attend this important conference. I also wish to thank Mrs. Professor Treschow-Torrel, chair of Euro-CASE for agreeing to preside over this event.

It is also an honour for us to welcome representatives from our partner academies as well as experts from science, business and politics to the conference today. And I would like to greet the representatives from the Federal Government and the European Union.

I am especially honoured to welcome you here to the Berlin-Brandenburg Academy of Sciences – the birthplace of acatech. In this regional scientific academy, one of seven – now eight in Germany, a bottom-up process was started in early 1997 to establish a national scientific academy in the Federal Republic of Germany.

And it is no wonder indeed that this process started here: the BBAW originated from the "Preussischen" Academy of Sciences initiated by Leibniz in the year 1700 under the paradigm: "Theoria cum praxi". And in this academy an engineer becomes an ordinary member: von Siemens.

Ten years later, in 2007, the Federal and then 16 State Governments of Germany decided to commonly fund acatech as an official institution and, thus, on the 1st of January 2008 acatech became the first national academy of science and engineering of a unified Germany under the patronage of our Bundespräsident.

Now, in 2010, we are proud to host the Euro-CASE Annual Conference for the first time.

In my opinion the time is now right to reflect on a number of questions. Today, Europe is at the crossroads of its future: Did we choose the right instruments in the crisis? Have our recovery programmes had the intended effects? How can we secure lasting and sustainable growth? How do we produce long-term value creation?
