researchers **Paradigm Shift in International Economic Law Rule-Making** Julien Chaisse, Henry Gao, Chang-fa Lo, 2017-11-13 The TPP was negotiated among 12 economically diverse countries including some most highly developed and rich countries i.e. the United States Japan Australia Canada New Zealand and Singapore some newly industrialized countries i.e. Mexico and Malaysia and some less developed countries i.e. Peru Chile and Vietnam A new paradigm created in this context is that countries with vastly different economic developments can actually agree on a set of very high standards to regulate their economic activities to liberalize their trade and to protect intellectual property and foreign investment The contents of the TPP also reflect its status of being a new paradigm as the 21st Century Trade Agreement and being a pioneer in rule making in many key regulatory areas These include not only the improved and enhanced rules on traditional issues already covered by the WTO such as goods services and IP rights but also the carefully designed rules in areas that have never been addressed in the WTO or comprehensively covered in other FTAs such as state owned enterprises electronic commerce and labor and environmental issues Although the United States has withdrawn from the TPP the remaining countries are still putting efforts into establishing a TPP without the United States or a TPP with China Economically speaking the current 11 parties account for about 20 % of the global economy If such agreement is put into force there will be significant implications for the region for the multilateral system and even for other FTAs The book addresses the potential of the TPP to change the ways trade and investments are conducted and argues for its potential to be the start of an international trade economic law revolution The book elaborates the relationship between the TPP and other existing trade agreements such as the WTO and other FTAs and explains how the TPP is to deal with traditional and new issues Taken together the authors argue that the implications of the TPP go beyond its current membership It is hoped that the book will make an important contribution to the field of international economic law Proceedings of the Regional Conference on Science, Technology and Social Sciences (RCSTSS 2016) Mohd Yusri Mohamad Noor, Badli Esham Ahmad, Mohd Rozaidi Ismail, Hasnizawati Hashim, Mohd Amlil Abdullah Baharum, 2018-07-20 This book features papers addressing a broad range of topics including psychology religious studies natural heritage accounting business communication education and sustainable development It serves as a platform for disseminating research findings by academicians of local regional and global prominence and acts as a catalyst to inspire positive innovations in the development of the region It is also a significant point of reference for academicians and students This collection of selected social sciences papers is based on the theme Soaring Towards Research Excellence presented at the Regional Conference of Sciences Technology and Social Sciences RCSTSS 2016 organised bi annually by Universiti Teknologi MARA Cawangan Pahang Malaysia **The Projects** Howard A. Husock explains how we got here detailing the tragic rise and fall of public housing and the pitfalls of other subsidy

programs He takes us inside a progressive movement led by a group of New York City philanthropists politicians and business magnates who first championed public housing as a solution to urban blight From First Lady Eleanor Roosevelt to the controversial city planner Robert Moses many well known historical figures made a convincing case for affordable housing in America Despite the movement s lofty ideals the creation of the Projects led to the destruction of low income communities across the country From the Hill District in Pittsburgh to Black Bottom in Detroit predominantly Black neighborhoods were judged only by the quality of their housing Husock looks beyond these neighborhoods physical conditions to their uncounted riches from local artists like August Wilson to vital community institutions As he shares residents stories he honors what they crafted through their own plans rather than those of city planners Husock traces the history of public housing to contemporary debates on the government s role in the housing market Through interviews with residents he reveals how public housing transformed the lives of Americans and the physical faces of cities and towns He ultimately critiques repair and reform efforts making policy recommendations that address the core failings of public housing for the people it was once designed to help Mapping out a better path for policy makers he lays a new foundation for upward mobility in America

The Report: Thailand 2016 Oxford Business Group,2016-04-15 According to the UN Conference on Trade and Development Thailand has been among eight priority destinations for foreign investment since 2012 Factors weighing on growth in 2016 will include an ongoing economic slowdown weakening global demand for Thai exports and growing levels of consumer debt The government s investment promotion agenda while perhaps more complicated than in previous years also addresses the dual challenge of labour shortages and the middle income trap through promotion of both labour intensive and high tech industries while potential membership in two major trade blocs could see regional and international exports soar in the coming years Although the near term forecast is dampened by global volatility weakening demand and the impact of China s slowdown trade in Thailand will remain on an upwards trajectory in 2016 and investment though unlikely to meet government targets is nonetheless expected to bounce back from a challenging 2015
