The intentions to protect the rights of prisoners, as well as to create equal conditions for them, maybe interpreted in many different ways. Sexual abuse is not always a typical feature of incarceration, and leaders always can create the facilities with safety and protection being offered. There is a thought that the creation of the Prison Rape Elimination Act (PREA) has significantly improved the conditions under which prisoners can feel safe providing the possibility to report on assailants and reducing the number of unwanted sexual conflicts in jails. However, it is not correct to believe that this act is the only legal document to reduce and control unwanted sexual contact in jails and prisons in terms of which prisoners are provided with fail-safe incentives and protections that may encourage victims of sexual assaults to report on their assailants. The experience of Erin George proves that this federal act plays a certain role in jail life; however, such issues as power, respect, and desire can never be neglected in understanding jail relationships.

After reading the book *A Woman Doing Life: Notes from a Prison for Women* written by Erin George, many readers get a unique opportunity to understand that it is impossible to predict and control female life in prison. The peculiarities of the relationships which are developed between female prisoners differ considerably so that it is not easy to provide a clear description of what can happen in prison even if a solid basis of knowledge about criminology and law is obtained. For example, the PREA may be used as a step to control sexual relationships between prisoners, but it cannot be defined as a purely positive or negative approach that has a certain impact on the management of jail life. Rape has been considered as one of the most controversial issues in society during many centuries due to the inability to create one definite attitude to this act. On the one hand, there are numerous rape cultures where people create the environments full of sexual assault and violence and believe that it is normal to develop such relationships (Phipps, Ringrose, Renold, and Jackson 2017). On the other hand, rape, as well as other forms of sexual assault, is an abusive act that may change human lives considerably. In the modern world, people fail to understand if rape is a problem or a solution to their problems. However, the presence of special healing programs and the intentions to protect people against unwanted sexual relationships
