

The illustration depicts two House Martins (Hirundo daurica) perched on a light brown, textured branch. The bird in the upper left is shown in profile, facing left, with its head slightly turned. The bird in the lower right is also in profile, facing right. Both birds have a distinctive reddish-brown cap, a black throat and breast, and a black forehead. Their bodies are a warm, light brown color. The wings and tail are a darker greyish-brown, with prominent white and yellow markings on the wing coverts and tail feathers. Several clusters of small, bright red berries are attached to thin, leafless branches around the birds. The background is a plain, light cream color.
