The Formative Assessment Action Plan Nancy Frey,Douglas Fisher,2011-05-01 Join Nancy Frey and Douglas Fisher as they outline a clear cut realistic and rewarding approach to formative assessment They explain how four discrete steps work in tandem to create a seamless comprehensive formative assessment system one that has no beginning and no end This ongoing approach enhances an active give and take relationship between teachers and students to promote learning Where am I going Step 1 Feed up ensures that students understand the purpose of an assignment task or lesson including how they will be assessed Where am I now Step 2 Checking for understanding guides instruction and helps determine if students are making progress toward their goals How am I doing Step 3 Feedback provides students with valuable and constructive information about their successes and needs Where am I going next Step 4 Feed forward builds on the feedback from step 3 and uses performance data to facilitate student achievement Dozens of real life scenarios demonstrate how to apply these steps in your classroom always focusing on the presence or absence of student learning to guide the action By enabling teachers and students alike to see more clearly what they need to do for learning to be successful this approach builds students competence confidence and understanding No matter what grade level you teach The Formative Assessment Action Plan will help you make better use of assessment data so you can more quickly adjust instruction to keep every student on the path to success Reading and Responding Denise Ryan,2014-01-01 Introduce students to literary texts to help them
