Stauffer, 2021-02-05 In most college and university libraries materials published before 1800 have been moved into special

collections while the post 1923 books remain in general circulation But books published between these dates are vulnerable to deaccessioning as libraries increasingly reconfigure access to public domain texts via digital repositories such as Google Books Even libraries with strong commitments to their print collections are clearing out the duplicates assuming that circulating copies of any given nineteenth century edition are essentially identical to one another When you look closely however you see that they are not Many nineteenth century books were donated by alumni or their families decades ago and many of them bear traces left behind by the people who first owned and used them In *Book Traces* Andrew M Stauffer adopts what he calls guided serendipity as a tactic in pursuit of two goals first to read nineteenth century poetry through the clues and objects earlier readers left in their books and second to defend the value of keeping the physical volumes on the shelves Finding in such books of poetry the inscriptions annotations and insertions made by their original owners and using them as exemplary case studies Stauffer shows how the physical historical book enables a modern reader to encounter poetry through the eyes of someone for whom it was personal

Establishing Predominance of English for Specific Purposes within Adult English Language Teaching Nijolė

Burkšaitienė, Nadežda Stojković, 2019-01-22 English for Specific Purposes ESP has accumulated substantial tradition in practice research and theory. It is a common approach in English Language Teaching (ELT) among adults today, starting with high schools, then in academia, pre- and in-service training, and life-long learning programs. The role of ESP in each of these is to facilitate work in today's inevitably international business and scientific environment. It provides language training based on the precise simulation of communicative situations found in the surroundings for which learners are preparing, including, for example, domain-specific vocabulary, syntactic and morphological structures, text and speech content structuring, stylistics, intercultural competence. At present, when English is present either as a foreign or second language learning, General English (GE) is to a large degree accomplished before learners start needing English for their jobs. In this way, ESP does not complete GE but builds upon the foundations laid by it in learners' prior education. ESP is a channel of communication for the contemporary academia and economics. However, even so, these are still early days for ESP as it does not yet have a recognised place within academia. Only very recently have we begun to witness the occasional but encouraging emergence of ESP academic courses and departments. This book thus explores practice and research conducted and under way in this field of ELT in order to assist its recognition as an autonomous academic discipline.

A Manual of English Phonetics and Phonology Peter Burleigh, Paul Skandera, 2016-01-18 This is a fully integrated course book aimed at university students of English in the German-speaking region. It presents a staged and clearly developed introduction to the theory of pronunciation combined with a wealth of transcription exercises and an accompanying CD. The book requires no prior knowledge of linguistics. From the outset it explains key concepts in easy-to-understand language, highlights key terms in the text for easy review, and gives translations of many of the terms into German. Additionally, a glossary provides students with a handy quick reference. The transcription exercises guide students from exploratory tasks to basic transcription to the more demanding transcription of natural dialogue, and all exercises are supplied with annotated solutions. The book is carefully divided into lessons and exercises which can be managed in 12 two-hour classes, leaving enough time for review and examination in a university term of 14 weeks or more, a well-structured and easy-to-follow introduction to the basics of the theory of pronunciation accompanied by a carefully designed set of practical exercises and a step-by-step transcription course. African American English and the Achievement Gap Holly Craig, 2016-02-19 Many African American children make use of African American English (AAE) in their everyday lives and face academic barriers when introduced to Standard American English (SAE) in the classroom. Research has shown that students who can adapt and use SAE for academic purposes demonstrate significantly better test scores than their less adaptable peers. Accordingly, AAE use and its confirmed inverse relationship to reading achievement have been implicated in the Black-White Test Score Gap, thus becoming the focus of intense research and practical interest. This volume discusses dialectal code-switching from AAE to SAE and stresses the benefits and importance of African American students becoming bi-dialectal. It

provides background theory and science supporting the most promising educational approach to date Contrastive Analysis a set of longstanding methods drawn from Second Language research and used effectively with students ranging from kindergarten through college It offers a deeper knowledge of AAE use by students the critical features of Contrastive Analysis and detailed information about successful applications which teachers can apply in their own pedagogy

Roman and Medieval Exeter and their Hinterlands Stephen Rippon, Neil Holbrook, 2021-03-23 This first volume presenting research carried out through the Exeter A Place in Time project provides a synthesis of the development of Exeter within its local regional national and international hinterlands Exeter began life in c AD 55 as one of the most important legionary bases within early Roman Britain and for two brief periods in the early and late 60s AD Exeter was a critical centre of Roman power within the new province When the legion moved to Wales the fortress was converted into the civitas capital for the Dumnonii Its development as a town was however relatively slow reflecting the gradual pace at which the region as a whole adapted to being part of the Roman world The only evidence we have for occupation within Exeter between the 5th and 8th centuries is for a church in what was later to become the Cathedral Close In the late 9th century however Exeter became a defended burh and this was followed by the revival of urban life Exeter's wealth was in part derived from its central role in the south west's tin industry and by the late 10th century Exeter was the fifth most productive mint in England Exeter's importance continued to grow as it became an episcopal and royal centre and excavations within Exeter have revealed important material culture assemblages that reflect its role as an international port **The book of household management** Mrs. Beeton (Isabella Mary), 1888 Genocidal Violence Frank Jacob, Kim Sebastian Todzi, 2023-11-06 This volume offers an introduction about theoretical concepts forms and the impact of genocidal violence It thereby intends to serve as a source of texts that can be used in a variety of introductory courses on genocide and the violence that occurs during genocidal events in particular It will consequently also offer a survey on debates and recent research about the history sociology and psychology of violence **The Ballad of the Lone Medievalist** Kisha G. Tracy, John P. Sexton, 2018 Working medievalists are often the only scholar of the Middle Ages in a department a university or a hundred mile radius While working to build a body of focused scholarly work the lone medievalist is expected to be a generalist in the classroom and a contributing member of a campus community that rarely offers disciplinary community in return As a result overtasked and single medievalists often find it challenging to advocate for their work and field As other responsibilities and expectations crowd in we come to feel disconnected from the projects and subjects that sustain our intellectual passion An insidious isolation even from one another creeps in and soon even attending a conference of fellow medievalists can become

a lonely experience Surrounded by scholars with greater institutional support lower teaching loads or more robust research agendas we may feel alienated from our work the work to which we ve dedicated our careers The Lone Medievalist the collaborative community and the book is intended as an antidote to the problem of professional isolation It is offered in the spirit of common weal that marks the ideals if not always the realities of so many of the communities we study agricultural professional national notional and of course monastic The Ballad of the Lone Medievalist isn t only about scholarship or teaching or institutional life or the pursuit of new learning it s about all of them The essays in this volume address all aspects of the professional and intellectual life of medievalists Though many of us acknowledge and address the challenges in being Lone Medievalists these essays are not intended as voces clamantium they are offered to provide strategies camaraderie and an occasional bit of inspiration They are a call to action a sharing of hard won wisdom and a helping hand and above all a reminder that we are not alone
