Read the passage and answer the questions that follow :

What is education? What is the purpose of education? Let's have a look into the matter. Education is the process by which our mind develops through formal learning at an institution like a school, college or university. It is mental and intellectual training which provides opportunities of growth and helps meet challenges and overcome obstacles to progress. Again, the purpose of education is to enlighten the individuals and to develop their capacity to the limit. It is also the business of education to train individuals to make the right choices to go ahead. It ennobles our mind and refines our sensibility. It also broadens our outlook and helps us become aware of our rights and responsibilities.

According to Newman, "Education gives a man a clear conscious view of his own opinions and judgments, a truth in developing them, and eloquence in expressing them and a force in using them." Therefore, it is often compared to light which removes the darkness of ignorance and helps us distinguish between right and wrong. Ex-president Julius Nyerere of Tanzania way back in 1974 said at an international conference that the primary purpose of education was the liberation of man from the restrictions of habits and attitudes which limit his humanity. He further said that education should promote humanity and universal brotherhood and that it could be used as a catalyst for a change for the better. How right he was! What do you think? Isn't it right even today?

2×3=6

- (i) What is the function of education?
- (ii) Why is education compared to light?
- (iii) What did Julius Nyerere say about the purpose of education?
