Landscapes and Identities Chris Gosden, Anwen Cooper, Chris Green, Miranda Creswell, Victoria Donnelly, Tyler Franconi, Laura Morley, Zena Kamash, Daniel Stansbie, Sarah Mallet, Letty ten Harkel, 2021 Based on The English Landscapes and Identities project this volume synthesises major available data sources of English archaeology to provide the first comprehensive account of the English landscape over a 2500 year period as well as a celebration of centuries of archaeological work that has transformed our understanding of England's past *Globalization and the Decolonial Option* Walter D. Mignolo, Arturo Escobar, 2013-10-18 This is the first book in English profiling the work of a research collective that evolved around the notion of coloniality understood as the hidden agenda and the darker side of modernity and whose members are based in South America and the United States The project called for an understanding of modernity not from modernity itself but from its darker side coloniality and proposes the de colonization of knowledge as an epistemological restitution with political and ethical implications Epistemic decolonization or de coloniality becomes the horizon to imagine and act toward global futures in which the notion of a political enemy is replaced by intercultural communication and towards an other rationality that puts life first and that places institutions at its service rather than the other way around The volume is profoundly inter and trans disciplinary with authors writing from many intellectual transdisciplinary and institutional spaces This book was published as a special issue of Cultural Studies *Motus Dei* Warrick Farah, 2021-10-26 Discover Your Place in the Movement of God An incredible breakthrough in missions history is taking place as disciples of Jesus make more disciples of Jesus around the globe particularly among the least reached But what exactly are these church planting or disciple making movements Where are they occurring and what are their unifying features How are they manifesting in diverse populations And can you or your organization be instrumental in catalyzing more movements Motus Dei Latin for movement of God seeks to answer these questions and more Warrick Farah has expertly synthesized an extensive conversation between mission practitioners scholars and seasoned movement leaders from around the world The resulting in depth analysis of movements provides a multi disciplinary academic investigation of an emerging movements missiology highlighting the importance of theology social sciences ethnology and anthropology communications theory leadership theory and statistical analysis Motus Dei locates the current Church Planting Movement CPM phenomenon within modern history while tracing its roots back to the first century and articulates a missiological description of the dynamics of Disciple Making Movements DMMs in Asia Africa and diaspora contexts in the Global North Offering over thirty firsthand accounts of indigenous churches planting churches among the nations Motus Dei provides a seedbed for growing movements in diverse contexts There are lessons to be learned here by anyone seeking to participate in the movement of God *Journal of the House of Representatives of the United States* United States. consciousness some complex social and political agendas hidden in narratorial writings It demonstrates how an arts based qualitative research method narrative inquiry can be fused with a scientific based quantitative method DMIS IDI and compliment support and or correct each other It also demonstrates how writing as a method of inquiry can be a viable way for researchers to learn about themselves and their research as well as features standards for evaluating creatively and analytically constructed text Further the author s examination of the aesthetics of inner readiness and in betweenness will be very helpful to people doing this kind of self reflexive fieldwork The reader will also appreciate this author s recognition of the importance of combining qualitative and quantitative methodologies something not many writers can do with great success Also this book will be a real contribution to sojourners and others traveling or living abroad The work is very smart and is beautifully and clearly written The labyrinth quote at the beginning of her work is very fitting and certainly promises to illustrate those words

Queer Readings of the Centurion at Capernaum Christopher B. Zeichmann,2022-10-28 The first ever monograph on the history of queer biblical interpretation of a controversial biblical passage Since the 1950s homoerotic readings of the pericope in which Jesus heals a Roman centurion s slave have been built upon three of the account s features the specific Greek word pais which can refer to youth slave or the junior partner in a sexual relationship between two men Luke s characterization of the young man as dear entimos to the centurion and commonplace homoeroticism in the Roman army Rather than affirming or denying the historical reality of a sexual relationship between the centurion and the young man Christopher B Zeichmann instead traces the shifting patterns of queer readings of the text and the influences of the sexual political and theological discourses of late twentieth and early twenty first century Europe the United States and Australia Readers will see how distinct political contexts have led interpreters to find very different meanings about the sexual subtexts of this story

Picturing Black New Orleans Arthé A. Anthony,2023-03-07 This book illuminates the fascinating story and visual legacy of Florestine Perrault Collins who documented African American life in New Orleans between 1920 and 1949

Visions: The 'other way round' of Love and Death Günter von Hummel,2021-10-28 If for love hate and for death life are opposites then in the other way round of love and death the opposites cancel each other out For this the simple only mirroring consciousness must be distinguished from the deeper awareness which can only be experienced securely in a self analytical practice an alytical psychocatharsis The author also shows by means of contrasts in other areas that a new view indeed a kind of vi sion can expand conventional psychoanalysis by means of such a practice It contains not only analytical but also medi tative aspects and can thus be learned by everyone himself as also described in the book

Ebony ,2005-08 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine

Popularizing the Past Nick Witham,2023-07-26 Popularizing the Past tells the stories of five postwar historians who changed the way ordinary Americans thought about their nation s history What s the matter with history For decades critics of the discipline have

argued that the historical profession is dominated by scholars unable or perhaps even unwilling to write for the public In *Popularizing the Past* Nick Witham challenges this interpretation by telling the stories of five historians Richard Hofstadter Daniel Boorstin John Hope Franklin Howard Zinn and Gerda Lerner who in the decades after World War II published widely read books of national history Witham compellingly argues that we should understand historians efforts to engage with the reading public as a vital part of their postwar identity and mission He shows how the lives and writings of these five authors were fundamentally shaped by their desire to write histories that captivated both scholars and the elusive general reader He also reveals how these authors efforts could not have succeeded without a publishing industry and a reading public hungry to engage with the cutting edge ideas then emerging from American universities As Witham s book makes clear before we can properly understand the heated controversies about American history so prominent in today s political culture we must first understand the postwar effort to popularize the past

Dark Continents Ranjana Khanna,2003-04-22 Argues that the psychoanalytic self was constituted through the specifically national colonial encounters of the late 19th and early 20th centuries and that therefore somewhat paradoxically perhaps psychoanalysis is crucial for understanding postcolonialism
