### **SOCIO-EDUCATIONAL CONDITIONS OF SLUM CHILDRENS: A SOCIOLOGICAL STUDY IN GULBARGA**

**DISTRICT** Dr. Surendra. K, Dr. Sudarshan. N, 2017-01-12 Slum children studies present a picture of slum dwellers physical demographic economic and health conditions along with crowding conditions and distribution of residents according to place of origin and duration of residence. Piecemeal efforts to improve the condition of slums in the past have brought about some improvement in the lives of the slum dwellers. The living condition of slum dwellers is still far from satisfaction. The Routledge Encyclopedia of Research Methods in Applied Linguistics A. Mehdi Riazi, 2016-01-13 The Routledge Encyclopedia of Research Methods in Applied Linguistics provides accessible and concise explanations of key concepts and terms related to research methods in applied linguistics. Encompassing the three research paradigms of quantitative, qualitative and mixed methods, this volume is an essential reference for any student or researcher working in this area. This volume provides A-Z coverage of 570 key methodological terms from all areas of applied linguistics, detailed analysis of each entry that includes an explanation of the head word, visual illustrations, cross references to other terms and further references for readers, an index of core concepts for quick reference. Comprehensively covering research method terminology used across all strands of applied linguistics, this encyclopedia is a must-have reference for the applied linguistics community. Research Methodology: techniques & Trends, RESEARCH METHODOLOGY IN BEHAVIOURAL SCIENCES S. K. MANGAL, SHUBHRA MANGAL, 2013-08-22 The quality and productivity of a research work very much depends on the competency of the researchers. Such competency needs to be generated and nurtured properly among the researchers from the very beginning of their research career. This comprehensive book on research methodology discusses in detail how to carry out research studies in various disciplines of behavioural sciences in an organized manner. The book is meant for the postgraduate students of Education, M Ed, Sociology, Psychology and Management. In addition, it will also be useful to research scholars in learning the art of doing qualitative and quantitative research studies in behavioural sciences. **Key Features** Systematic and logical organization of the subject matter providing step by step description of the research methodology for conducting research studies. Extensively illustrated with working examples, diagrams and tables. A comprehensive description of the essential data collection tools employed in quantitative and qualitative research studies along with their proper construction, standardization and validation. Complete and workable description of the techniques and methods of data analysis used in quantitative and qualitative research studies. A complete chapter devoted to the use of computer technology for the execution of the quantitative and qualitative research studies. **Practices of Archaeological Stratigraphy** Edward C. Harris, 2014-06-28 Practices of Archaeological Stratigraphy brings together a number of examples which illustrate the development and use of the Harris Matrix in describing and interpreting archaeological sites. This matrix, the theory of which is described in two editions of the previous book by Harris Principles of Archaeological Stratigraphy, made possible for

the first time a simple diagrammatic representation of the stratigraphic sequence of a site no matter how complex The Harris Matrix by showing in one diagram all three linear dimensions plus time represents a quantum leap over the older methods which relied on sample sections only In this book 17 essays present a sample of new work demonstrating the strengths and uses of the Harris Matrix the first ever published collection of papers devoted solely to stratigraphy in archaeology The crucial relationships between the Harris methods open area excavation techniques the interpretation of interfaces and the use of single context plans and recording sheets is clarified by reference to specific sites These sites range from medieval Europe through Mayan civilizations to Colonial Williamsburg Virginia This book will be of great value to all those involved in excavating and recording archaeological sites and should help to ensure that the maximum amount of stratigraphic information can be gathered from future investigations Presents case studies which illuminate the Harris matrix method invented by Edward C Harris Senior editor is the inventor of this method and principle in the field Serves as a companion volume to Harris s Principles of Archaeological Stratigraphy *ARCHAEOLOGY - Volume I* Donald L. Hardesty, 2010-06-15 Archaeology is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias Archaeology is a road for traveling into the past that is independent of and complementary to documents and memory The archaeological record provides historical perspectives on variability and change in human life support systems with the potential for use in planning for future sustainable development The Theme is organized into four different topics which represent the main scientific areas of the theme Foundations of Archaeology The Archaeology of Life Support Systems World Cultural Heritage Preserving Archaeological Sites and Monuments which are then expanded into multiple subtopics each as a chapter The first topic deals with historical methodological and theoretical foundations of archaeology The second topic explores the archaeological record of human life support systems and includes chapters on foraging food production such as farming and nomadic lifestyles civilizations water management systems and sustainability World cultural heritage is the third topic Finally the fourth topic covers the preservation of cultural memorials such as archaeological sites landscapes and monuments These two volumes are aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers NGOs and GOs *Methods for Political Inquiry* Stella Z. Theodoulou, Rory O'Brien, 1999 This book presents a readily accessible systematic approach to politics and its principles around which political inquiry should be organized Readers are exposed to materials on the fundamental assumptions of political inquiry in addition to the specific devices necessary for gathering and collecting data about political phenomena Methods for Political Inquiry represents the only book currently available that covers the full range of both research methods and research techniques It incorporates both normative and empirical theory building as well as qualitative and quantitative research methods to emphasize why researchers might use one technique over another
