today The text includes An abridged history and overview of environmentalism in the field of architecture A clear methodology for analyzing the included 29 cases which can also be adopted for further guidance in a variety of architectural design projects Assessments of 29 buildings 10 libraries 10 museums and 9 university buildings from around the world Analyzing Eco Architecture Beyond Performance is essential reading for students researchers and practitioners involved in the study and design of environmental architecture today **Building Performance Evaluation** Wolfgang F.E.

Preiser,Andrea E. Hardy,Ulrich Schramm,2017-08-30 The main aim of this book is to present an intriguing retrospective of Building Performance Evaluation BPE as it evolved from Post Occupancy Evaluation POE over the past 25 years On one hand this is done by updating original authors chapter content of Building Evaluation the first edition published in 1989 That in turn is augmented by an orientation toward current and future practice on the other including new authors who are engaged in ongoing cutting edge projects Therefore individual methodology oriented chapters covering the fundamental principles of POE and BPE go along with major thematic chapters topics of which like sustainability or integration of new technologies are addressed in a diversity of case studies from around the globe Research methodologies and framework of POEs continue to evolve POEs are one step on the larger scale of BPE in understanding how buildings function after they are occupied This resource helps a rchitects building owners and facility managers understand the implications and reactions to the facilities that they designed built and or commissioned By considering the whole process from conception to future uses of the building there can be a more holistic approach to the planning programming design construction occupancy and future adaptability of the structure This book is dedicated to first editor Wolfgang F E Preiser who passed away during the process of editing and reviewing chapters of this volume A Practical Guide to Post-Occupancy Evaluation and Researching

Building User Experience Nigel Oseland,2023-09-11 A Practical Guide to Post Occupancy Evaluation offers high level pragmatic guidance and case study examples on how to conduct a Post Occupancy Evaluation POE to determine whether a workplace project is successful and uncover the lessons learned for future projects For designers POEs provide essential predesign feedback informing the design brief to determine occupant requirements and help focus expenditure For those in charge of a building or buildings POE offers proactive building management and can also be used as part of the change management programme in larger projects informing the occupants of progress The practical guidance offered in this book will help the workplace industry understand if a design meets the requirements of an occupier and measure the success of and value offered by a workplace project This book will be of interest to professionals in the workplace industry responsible for delivering and evaluating capital projects as well as those studying interior design architecture surveying facilities management and building services engineering The Routledge Handbook of Architecture, Urban Space and Politics, Volume II Nikolina Bobic,Farzaneh Haghighi,2024-11-22 Architecture and the urban are connected to challenges around violence security race and ideology spectacle and data The first volume of this handbook extensively explored these

oppressive roles This second volume illustrates that escaping the corporatized and bureaucratized orders of power techno managerial and consumer oriented capitalist economic models is more urgent and necessary than ever before Herein lies the political role of architecture and urban space including the ways through which they can be transformed and alternative political realities constituted The volume explores the methods and spatial practices required to activate the political dimension and the possibility for alternative practices to operate in the existing oppressive systems while not being swallowed by these structures Fostering new political consciousness is explored in terms of the following themes Events and Dissidence Biopolitics Ethics and Desire Climate and Ecology Urban Commons and Social Participation Marginalities and Postcolonialism Volume II embraces engagement across disciplines and offers a wide range of projects and critical analyses across the so called Global North and South This multidisciplinary collection of 36 chapters provides the reader with an extensive resource of case studies and ways of thinking for architecture and urban space to become more emancipatory Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license

Influence and Resistance in Post-Independence Egyptian Architecture Marwa M. El-Ashmouni, Ashraf M. Salama, 2022-07-22 This book is an effort towards an in depth understanding of the architectural discourse in Egypt developed over more than eight decades It offers a distinctive theoretical interpretation of the forces shaping the kaleidoscopic shifts in Egyptian architecture through the analysis of the micro space of architectural representation of twentieth century Egyptian architecture Predicated on historical contextualization theoretical integration and global conceptualization Edward Said's analytical method of contrapuntal reading and the spatial discourse analysis posited by C Greig Crysler are lucidly assimilated to generate insights into various voices within the architectural discourse in Egypt The analysis and critique of two important professional magazines *al Imarah* 1939 1959 and *Alam al Bana* 1980 2000 which shaped the collective psyche of both the academic and professional communities in Egypt and the wider region coupled with the exploration of two other short lived magazines *M imaryah* 1982 1989 *Medina* 1998 2002 and other less influential professional magazines discloses the structure of attitude and reference or the exclusions and inclusions that defined the boundaries of the space of the discourse *Influence and Resistance in Post Independence Egyptian Architecture* paves the way to genuinely debate a yet to mature twenty first century's architectural discourse in Egypt This book is a key resource for architects architectural historians and critical theorists and will appeal to academics and to both graduate and advanced undergraduate students in architectural history and theory and Middle East and Global South studies

Spatial Design Education Ashraf M. Salama, 2016-03-09 Design education in architecture and allied disciplines is the cornerstone of design professions that contribute to shaping the built environment of the future In this book design education is dealt with as a paradigm whose evolutionary processes underpinning theories contents methods tools are questioned and critically examined It features a comprehensive discussion on design education with a focus on the design studio as the

backbone of that education and the main forum for creative exploration and interaction and for knowledge acquisition assimilation and reproduction Through international and regional surveys the striking qualities of design pedagogy contemporary professional challenges and the associated sociocultural and environmental needs are identified Building on twenty five years of research and explorations into design pedagogy in architecture and urban design this book authoritatively offers a critical analysis of a continuously evolving profession its associated societal processes and the way in which design education reacts to their demands Matters that pertain to traditional pedagogy its characteristics and the reactions developed against it in the form of pioneering alternative studio teaching practices Advances in design approaches and methods are debated including critical inquiry empirical making process based learning and Community Design Design Build and Live Project Studios Innovative teaching practices in lecture based and introductory design courses are identified and characterized including inquiry based active and experiential learning These investigations are all interwoven to elucidate a comprehensive understanding of contemporary design education in architecture and allied disciplines A wide spectrum of teaching approaches and methods is utilized to reveal a theory of a trans critical pedagogy that is conceptualized to shape a futuristic thinking about design teaching Lessons learned from techniques and mechanisms for accommodation adaptation and implementation of a trans critical pedagogy in education are conceived to invigorate a new student centered evidence based design culture sheltered in a wide variety of learning settings in architecture and beyond

Sustainable Practices in Higher Education Thomas Walker, Khaled Tarabieh, Sherif Goubran, Gabrielle Machnik-Kekesi, 2023-06-14 This edited collection presents reviews and critically analyzes sustainable practices and long term oriented decision making in Higher Education Institutions HEIs Campus closures and the quick transition to hybrid or e learning as a result of the COVID 19 pandemic caused HEI stakeholders including students faculty and staff to swiftly adopt new ways of learning teaching and administering that were unfathomable only months before This radical and challenging shift left many in academia with a sense that there is tremendous potential for HEIs to take the lead both from an educational and practical standpoint in fostering on and off campus sustainability and combatting

climate change In this book the editors and their contributors systematically highlight current challenges that are slowing or derailing HEIs finance related initiatives and practices geared toward sustainability The case studies collected in this book provide a holistic overview of the ways in which financial and other long term decisions can lead to more sustainable practices in higher education *Industries of Architecture* Katie Lloyd Thomas,Tilo Amhoff,Nick Beech,2015-11-06 At a time when the technologies and techniques of producing the built environment are undergoing significant change this book makes central architecture s relationship to industry Contributors turn to historical and theoretical questions as well as to key contemporary developments taking a humanities approach to the Industries of Architecture that will be of interest to practitioners and industry professionals as much as to academic researchers teachers and students How has modern architecture responded to mass production How do we understand the necessarily social nature of production in the architectural office and on the building site And how is architecture entwined within wider fields of production and reproduction finance capital the spaces of regulation and management techniques What are the particular effects of techniques and technologies and above all their inter relations on those who labour in architecture the buildings they produce and the discursive frameworks we mobilise to understand them *Adaptive Architecture* Wolfgang F. E. Preiser,Andrea E. Hardy,Jacob J. Wilhelm,2017-09-01 The constant in architecture s evolution is change Adaptive Architecture explores structures or environments that accommodate multiple functions at the same time sequentially or at periodically recurring events It demonstrates how changing technological economic ecological and social conditions have altered the playing field for architecture from the design of single purpose structures to the design of interacting systems of synergistically interdependent distributed buildings Including contributors from the US UK Japan Australia Germany and South Africa the essays are woven into a five part framework which provides a broad and unique treatment of this important and timely issue **Neo-liberalism and the Architecture of the Post Professional Era** Hossein Sadri,2018-04-27 This book discusses the effects of Neo Liberal policies on the transformations of architectural and urban practices and education in the transition from the era of professionalism to post professionalism Building on previous literature in the field of contemporary theory of architecture it provides the necessary resources for the study of contemporary architecture and urban politics urban sociology local administration and urban geography Further it develops a political and critical perspective on contemporary practices of architecture and urbanism their implementation legal background political effects and social results The book will interest readers from a wide range of academic disciplines from political science to architecture and from urban studies to sociology **Design and Technological Applications in Sustainable Architecture** Stephen Siu Yu Lau,Junjie Li,Shimeng Hao,Shuai Lu,2021-10-19 This volume discusses the climate responsiveness of sustainable architecture design and technology in China Japan Singapore and South Korea in recent years addressing concepts and applications in urban planning building design and structural performance evaluation The four

sections of the text cover the theory and implementation of sustainable architecture within various geographic boundaries and contexts offering an interdisciplinary assessment of the challenges faced in urban areas at different climate zones The main topics covered are 1 urban ecological restoration under the influence of climate environment 2 health and human considerations of building and environment 3 prototype optimization of sustainable building and 4 feedback of building performance and design evaluation The book is intended to be a contribution to the growing body of knowledge on sustainable architecture for applicable use by practitioners city planners field researchers and building operators in building design construction usage operation and maintenance

Architectural Excellence in Islamic Societies Ashraf M. Salama, Marwa M. El-Ashmouni, 2020-07-15 This book discusses architectural excellence in Islamic societies drawing on textual and visual materials from the Aga Khan Documentation Center at MIT developed over more than three decades At the core of the discussion are the efforts processes and outcomes of the Aga Khan Award for Architecture AKAA The AKAA recognises excellence in architectural and urban interventions within cities and settlements in the Islamic world which are continuously challenged by dramatic changes in economies societies political systems decision making and environmental requirements Architectural Excellence in Islamic Societies responds to the recurring question about the need for architectural awards arguing that they are critical to validating the achievements of professional architects while making their contributions more widely acknowledged by the public Through analysis and critique of over sixty awarded and shortlisted projects from over thirty five countries this book provides an expansive look at the history of the AKAA through a series of narratives on the enduring values of architecture architectural and urban conservation built environment sustainability and architectural pluralism and multiple modernities Architectural Excellence in Islamic Societies will appeal to professionals and academics researchers and upper level students in architectural history and theory and built environment related fields

Experiencing Architecture in the Nineteenth Century Edward Gillin, H. Horatio Joyce, 2020-04-30 Bringing together fourteen original essays this collection opens up new perspectives on the architectural history of the nineteenth century by examining the buildings of the period through the lens of experience With a focus on the experience of the ordinary building user rather than simply on the intentions of the designer the book shows that new and important insights can be brought to our understanding of Victorian architecture The chapters present a range of ideas and new research some examining individual building case studies from grand hotels and clubhouses in New York to the parliament buildings of Westminster and others exploring conceptual questions about the nature of architectural experience whether sensory or otherwise Yet they share the premise that the idea of the experience of architecture took on a new and particular significance with the rise of industrial modernity and they examine what contemporary people both architects and non architects understood by this idea The insights in this volume extend beyond the study of Victorian architecture Together they suggest how experience might be used as a framework to produce a more convincingly historical account of the

artefacts of architectural history *Inclusive Design* Jordana L. Maisel, Edward Steinfeld, Megan Basnak, Korydon Smith, M. Beth Tauke, 2017-10-12 As part of the PocketArchitecture Series this volume focuses on inclusive design and its allied fields ergonomics accessibility and participatory design This book aims for the direct application of inclusive design concepts and technical information into architectural and interior design practices construction facilities management and property development A central goal is to illustrate the aesthetic experiential qualitative and economic consequences of design decisions and methods The book is intended to be a first source reference at the desk or in the field for design professionals contractors and builders developers and building owners **Planning Knowledge and Research** Thomas W. Sanchez, 2017-12-22

The field of urban planning is far reaching in breadth and depth This is due to the complex nature of cities regions and development processes The knowledge domain of planning includes social economic technological environmental and political systems that continue to evolve and expand rapidly Understanding these systems is an interdisciplinary endeavor at the scale of several academic fields The wide range of topics considered by planning educators and practitioners are often based on varying definitions of planning and modes of planning practice This unique book discusses various elements and contributions to urban planning research to show that seemingly disparate topics do in fact intersect and together contribute to ways of understanding urban planning The objective is not to discuss how to do research but rather to explore the context of urban planning scholarship with implications for the planning academy and planning practice This edited volume includes chapters contributed by a diverse range of planning scholars who consider the corpus of planning scholarship both historically and critically in their area of expertise It is essential reading for students of planning research and planning theory from around the world **Rebuilding the Houses of Parliament** Henrik Schoenefeldt, 2020-12-30

Rebuilding the Houses of Parliament explores the history of the UK Houses of Parliament in Westminster from an environmental design perspective and the role David Boswell Reid played in the development of the original ventilation and climate control system in parliament This book retraces and critically examines the evolution of the environmental principles underlying the design of the Houses of Parliament engaging with fundamental questions about air quality energy efficiency and thermal comfort This yields insights into the historic methods of environmental design that were characterised by physical experimentation and post occupancy evaluation Rebuilding the Houses of Parliament examines the history of the buildings operation studying the practical reality of its performance in use and offers the opportunity to reflect on current challenges faced by architects and engineers adapting to the realities of climate change This book is an ideal read for academics politicians and practitioners with an interest in architectural history and heritage theory engineering and conservation Contemporary Urban Landscapes of the Middle East Mohammad Gharipour, 2016-03-17

The Middle East is well known for its historic gardens that have developed over more than two millenniums The role of urban landscape projects in Middle Eastern cities has grown in prominence with a gradual shift in emphasis from gardens for the

private sphere to an increasingly public function The contemporary landscape projects either designed as public plazas or public parks have played a significant role in transferring the modern Middle Eastern cities to a new era and also in transforming to a newly shaped social culture in which the public has a voice This book considers what ties these projects to their historical context and what regional and local elements and concepts have been used in their design
