Sorenson, 2011-06

Contemporary approaches to comparative studies of the Middle East increasingly recognize how globalization and regional mass communication have blurred differences across countries. Populations travel across national borders and compare narratives about political change, economic futures, and the role of the outside world in shaping their lives. Organized by five principal themes of a regional overview: politics, political economy, social contexts, and the international dimensions of Middle East issues, *Interpreting the Middle East* provides a vibrant introduction to the Middle East that is compatible with this regionalist perspective. Invited authorities contribute insightful and accessible original discussions of headline fresh issues, including the aftermath of the Iraq war, Iran's regional ambitions, developments in the Israeli-Palestinian conflict, and the global politics of Middle East oil, as well as the Islamic awakening, conflict in the Western Sahara, civil-military relations, economic development, political change, and gender understandings. Section introductions by the editor integrate the contributions, and a glossary, biographical list of key persons, and chronology of significant events provide helpful guidance for readers.

***The People Want*** Gilbert Achcar, 2013-09-03 The sponsoring of the Muslim Brotherhood by the Emirate of Qatar and its influential satellite channel Al Jazeera contributed to shaping the prelude to the uprising. But the explosion's deep roots, asserts Achcar, mean that what happened until now is but the beginning of a revolutionary process likely to extend for many more years to come. The author identifies the actors and dynamics of the revolutionary process, the role of various social and political movements, the emergence of young actors making intensive use of new information and communication technologies, and the nature of power elites and existing state apparatuses that determine different conditions for regime overthrow in each case. Drawing a balance sheet of the uprising in the countries that have been most affected by it until now: i.e. Tunisia, Egypt, Yemen, Bahrain, Libya, and Syria, Achcar sheds special light on the nature and role of the movements that use Islam as a political banner.

***From Conflict to Cooperation*** CSIS Advisory Committee on U.S. Policy in the Arab World, Laura Schiller, Edward Gabriel, Jon B. Alterman, 2005-03-15

practices as well as language attitudes in Egypt and Morocco are far more receptive to vernacular forms than has been assumed. The individual chapters cover a wide variety of media from books and magazines to blogs and Tweets. A central theme running through the contributions is the social and political function of doing informality in a changing public sphere steadily more permeated by written Arabic in a number of media. Dynamism in Islamic Activism, 2006. Though the media frequently cover tensions surrounding radical Muslim communities within Western countries, coverage and understanding of similar tensions within Muslim nations themselves are far more limited. This study of the Netherlands Scientific Council for Government Policy analyzes developments in Islamic beliefs, political activism, society and law in twelve Islamic countries since the 1970s.
