Borneman, 2007-02-26

When Princeton anthropologist John Borneman arrived in Syria s second largest city in 2004 as a visiting Fulbright professor he took up residence in what many consider a rogue state on the frontline of a clash of civilizations between the Orient and the West Hoping to understand intimate interactions of religious political and familial authority in this secular republic Borneman spent much time among different men observing and becoming part of their everyday lives *Syrian Episodes* is the striking result Recounting his experience of living and lecturing in Aleppo Syria s second largest city John Borneman offers deft first person stories of the longings and discontents expressed by Syrian sons and fathers as well as a prescient analysis of the precarious power held by the regime its relation to domestic authority and the conditions of its demise Combining literary imagination and anthropological insight the book s discrete narratives converge in an unforgettable portrait of contemporary culture in Aleppo We read of romantic seductions rumors of spying the play of light in rooms the bargaining of tourists in bazaars and an attack of wild dogs With unflinching honesty and frequent humor Borneman describes his encounters with students and teachers customers and merchants and women and families many of whom are as intrigued with the anthropologist as he is with them Refusing to patronize those he meets or to minimize his differences with them Borneman provokes his interlocutors teasing out unexpected confidences comic responses and mutual misunderstandings He engages the curiosity and desire of encounter and the possibility of ethical conduct that is willing to expose cultural differences Combining literary imagination and anthropological insight *Syrian Episodes* offers an unforgettable portrait of contemporary culture in Aleppo *Castles in the Sand* Michael Cameron Dempsey, 2014-03-13 Abu Dhabi an obscure Middle Eastern principality that happens to be the richest city in the world This book tells the story of Abu Dhabi s ambitions to transform itself from a sleepy sheikhdom into a thriving international metropolis and a hub of business and leisure It traces Abu Dhabi s boom years from 2009 to 2011 from the perspective of a Westerner working for the Urban Planning Council the government agency that planned and coordinated all of the massive development activity *Castles in the Sand* explores the

drastic changes in Abu Dhabi's built environment where entire islands are forested with skyscrapers and billions of dollars in infrastructure are spent on a whim while recounting the disorienting experience of an outsider encountering a society in which foreigners outnumber locals nine to one and modernity clashes head on with centuries of embedded tradition General readers will find a broad introduction to Abu Dhabi and architects and planners will gain a firsthand glimpse inside an unprecedented experiment in city building

Dubai: Behind an Urban Spectacle Yasser Elsheshtawy, 2010 This book explores Dubai's history from its beginnings as a small fishing village to its place on the world stage today using historical narratives travel descriptions novels and fictional accounts by local writers to bring colour to the history of the city's urban development With case studies and surveys the author explores the economic and political forces driving Dubai's urban growth its changing urbanity and its place within the global city network

Travel Literature and the Evolution of the Novel Percy G. Adams, 2014-07-15 Although much has been written about how the novel relates to the epic the drama or autobiography no one has clearly analyzed the complex connections between prose fiction as it evolved before 1800 and the literature of travel which by that date had a long and colorful history Percy Adams skilfully portrays the emergence of the novel in the fiction of the seventeenth and eighteenth centuries and traces in rich detail the history of travel literature from its beginnings to the time of James Cook contemporary of Richardson and Fielding And since the recit de voyage and the novel were then so international he deals throughout with all the literatures of Western Europe one of the book's chief themes being the close literary ties among European nations Equally important in the present study is its demonstration that just as early travel accounts were often a combination of reporting and fabrication so prose fiction is not a dichotomy to be divided into the adult novel on the one hand and the childish romance on the other but an ambivalence the marriage of realism and romanticism *Travel Literature and the Evolution of the Novel* not only shows the novel to be amorphous and changing it also proves impossible the task of defining the recit de voyage with its thousand forms and faces Often the two types of literature are almost indistinguishable even before Don Quixote Adams writes many travel accounts could have been advertised as having the endless fascination of a wonderfully observed novel This study by Percy Adams will both modify opinions about the novel and its history and provide an excellent introduction to the travel account a form of literature too little known to students of belles lettres

Historical Dictionary of Yemen Robert D. Burrowes, 2010 A small and extremely poor Islamic country Yemen is located on the edge of the Arab world in the southernmost corner of the Arabian Peninsula It was the product of the unification of the Yemen Arab Republic and the People's Democratic Republic of Yemen in May 1990 The location of the two Yemens on the world's busiest sea lane at the southern end of the Red Sea where Asia almost meets Africa gave them strategic significance from the start of the age of imperialism through the Cold War More vital today is the fact that Yemen shares a long border with oil rich Saudi Arabia and is a key to efforts both to spread and to end global revolutionary Islam and its use of terror The

second edition of the Historical Dictionary of Yemen has been thoroughly updated and greatly expanded Through its list of acronyms and abbreviations a chronology an introductory essay a bibliography and over 800 cross referenced dictionary entries greater attention has been given to foreign affairs economic institutions and policies social issues religion and politics

The Semantics of Form in Arabic in the Mirror of European Languages David Justice,1987-01-01 Justice s first aim in this volume is to demystify the Arabic language which is widely perceived as difficult to learn and has been characterised as ambiguous and confusingly polysemous The central concern of this three dimensional portrait of Classical Arabic is a version of the Sapir Whorf hypothesis that language is a determinant of other aspects of culture But rather than focusing on the possible influences of language on thought Justice is intersted in connections between language and language use or langue and parole Among the topics treated are the difficulty of Arabic morphosyntax and Whorfian semantics the role of duality in Arabic iconicity a population profile of vocabulary the syntactic cut of Arabic and the relation between causatives and verbs that ascribe qualities to an object This erudite and thought provoking volume will be of interest not only to Arabists but to linguistic anthropologists in general The New Yorker Harold Wallace Ross,Katharine Sergeant Angell White,1986
