*Arabic Grammar in Its Formative Age* Rafael Talmôn, 1997 This volume establishes the importance of the large grammatical material found in the earliest Arabic dictionary a unique contemporary of Sibawayhi's Kitāb late 8th century Aspects of the early Arabic grammatical tradition and the medieval adab literature depicting exemplary heroes of the past are involved in this study of authenticity of the source and its attribution **Arabic Grammar in its Formative Age** Talmon, 2017-07-03 This volume deals with the numerous grammatical passages included in the voluminous Kitāb al Ayn the earliest Arabic dictionary 8th century This material is isolated and classified according to its various grammatical categories and then analyzed taking due account of the current knowledge of the state of Arabic grammar in its early stage of development The much disputed attribution of Kitāb al Ayn to Ḥalīl b. Aḥmad is reconsidered from the vantage point of this grammatical material This reconsideration involves a critical study of the vast medieval literature about Ḥalīl's personality and the question of attribution of this early Arabic dictionary In addition to the author's analysis the volume includes an appendix with citations of the original grammatical passages of this dictionary with useful indices **The Foundations of Arabic Linguistics IV**, 2019-03-14 This volume contains sixteen contributions from the fourth conference on the Foundations of Arabic linguistics Genova 2016 all having to do with the development of linguistic theory in the Arabic grammatical tradition starting from Sibawayhi's Kitāb end of the 8th century C E and its continuing evolution in later grammarians up till the 14th century C E The scope of this volume includes the links between grammar and other disciplines such as lexicography and logic and the reception of Arabic grammar in the Persian and Malay linguistic tradition **Kitāb Sibawayhi: Syntax and Pragmatics** Amal Marogy, 2017-07-03 This book presents a comprehensive portrait of the Kitāb Sibawayhi It offers new insights into its historical and linguistic arguments and underlines their strong correlation The decisive historical argument highlights Ḥalīl's role not only as the centre of pre Islamic Arabic culture but also as the matrix within which early Arab linguistics grew and developed The Kitāb's value as a communicative grammar forms the crux of the linguistic argument The complementarity of syntax and pragmatics is established as a condition sine qua non for Sibawayhi's analysis of language The benefits of a complementary approach are reflected in the analysis of nominal sentences and related notions of ibtidā' and definiteness The pragmatic principle of identifiability is uncovered as the ultimate determiner of word order **The Foundations of Arab Linguistics V**, 2022-06-13 This volume contains a selection of papers presented at the Fifth Conference on the Foundations of Arab Linguistics FAL V Cambridge 2018 The first part of the book deals with Sibawayhi's Kitāb the oldest known treatise of Arabic grammar after providing insights on some of its specific terminology these chapters evaluate its place as a source within the long term tradition of grammatical studies The second part of the book focuses on parallel developments in the Arabic grammatical theory both in the classical and postclassical periods up to the 15th century Some contributions also address the relationship between grammar and other disciplines notably philosophy and Qur'anic

Points of Contact Nick Posegay, 2021-12-14 In the first few centuries of Islam Middle Eastern Christians Muslims and Jews alike all faced the challenges of preserving their holy texts in the midst of a changing religious landscape This situation led Syriac Arabic and Hebrew scholars to develop new fields of linguistic science in order to better analyse the languages of the Bible and the Qur'an Part of this work dealt with the issue of vocalisation in Semitic scripts which lacked the letters required to precisely record all the vowels in their languages Semitic scribes thus developed systems of written vocalisation points to better record vowel sounds first in Syriac then soon after in Arabic and Hebrew These new points opened a new field of linguistic analysis enabling medieval grammarians to more easily examine vowel phonology and explore the relationships between phonetics and orthography Many aspects of this new field of vocalisation crossed the boundaries between religious communities first with the spread of relative vocalisation systems prior to the eighth century and later with the terminology created to name the discrete vowels of absolute vocalisation systems This book investigates the theories behind Semitic vocalisation and vowel phonology in the early medieval Middle East tracing their evolution to identify points of intellectual contact between Syriac Arabic and Hebrew linguists before the twelfth century

*Arabic Grammars of Turkic* Robert Ermers, 2017-07-03 This volume consists of two parts The first is a detailed study of grammars of Turkic written by Arab grammarians 11th-17th century AD covering internal structure phonetics morphonology and syntax It contains numerous quotations from both little cited edited texts and unknown manuscripts The analyses contribute to the study of the application of linguistic models to foreign languages and the Arabic model in particular The second part is an English translation of Kitāb al-Idrāk li-lisān al-Atrak a grammar of Mamlūk Qipčaq Turkic written by the renowned 14th century grammarian Abū ʿayyūn al-Andalusī The translation gives an excellent insight in Arabic linguistic reasoning applied to Turkic

*Grammarians and Grammatical Theory in the Medieval Arabic Tradition* Ramzi Baalbaki, 2023-09-12 Professor Baalbaki deals here with the Arabic grammatical tradition and the analytical methods of the medieval Arab grammarians The essays included open new perspectives on the most authoritative work on Arabic grammar

Sibawayhi's tome or Kitab on the relation between grammatical study and other areas of linguistic enquiry such as Qur'anic readings and stylistics and on the techniques which the grammarians employed to explain and rationalize usage and to incorporate within their system the vast body of dialectal material which the corpus comprises. The author has sought to highlight the central position which Arabic grammar enjoys within the wider Arab culture and in so doing has examined several aspects of a legacy which has been revered over a millennium and which forms to this very day the backbone of the teaching of grammar in the Arab world. *Encyclopedia of Language and Linguistics*, 2005-11-24
