Courses Offered At Jkuat 2015:

Assessment of RUFORUM member universities in Kenya Mose, Lawrence, Gao, Lang, Beintema, Nienke M., 2018-11-29 Credible quantitative and qualitative information on existing capacities in agricultural higher education agencies in Africa are important for decisionmakers at national regional and international levels Decisionmakers require data and indicators for strategic planning policy formulation setting priorities and benchmarks measuring progress toward benchmarks and identifying capacity gaps Decisionmakers need a better understanding of the specifics of existing staffing and student capacities in the higher education sector as well as in the wider agricultural innovation systems in Africa south of the Sahara Access to such information will result in better policies addressing capacity issues in agricultural higher education research extension and other areas The existence of such information however remains extremely limited

Handbook of Phytonutrients in Indigenous Fruits and Vegetables Dharini Sivakumar, Yasmina Sultanbawa, Michael Netzel, 2022-10-31 The effects of inadequate diets on the population include malnutrition non communicable diseases and obesity Hidden hunger also known as micronutrient deficiencies leads to various health related disorders and diseases Indigenous plants in the form of indigenous fruits and leafy vegetables are gaining interest as a source of nutrients and bioactive phytochemicals satisfying both food demand and health needs Moreover with the impact of climate change and the importance of sustainability of food systems it is essential that we investigate new forgotten and alternative crops that can thrive in harsh conditions require low fertilizer input and are easily harvestable This is an essential resource for academic researchers and industry professionals in the fields of horticulture agriculture crop science human health and nutrition

Measuring Impacts and Enabling Investments in Energy-Smart Agrifood Chains Food and Agriculture Organization of the United Nations, 2019-07-12 This publication i illustrates how costs and benefits of energy interventions including their impacts along the agrifood value chain can be measured at country level ii applies the analysis to 11 country case studies iii identifies barriers possible solutions business models and success factors for the adoption of energy technologies and iv draws general recommendations for investors and decision makers This report summarizes the analysis and main findings stemming from the FAO project Investing in Energy Sustainable Technologies for the Agrifood Sector INVESTA FAO has been working together with GIZ and partners of the international initiative Powering Agriculture An Energy Grand Challenge for Development PAEGC since 2014 PAEGC also partnered by the German Federal Ministry for Economic Cooperation and Development BMZ supports the development and deployment of clean energy innovations that increase agriculture productivity and stimulate low carbon economic growth in the agriculture sector of developing countries to help end extreme poverty and extreme hunger **Dare to Invent the Future** Clapperton Chakanetsa Mavhunga, 2023-11-21 A rallying manifesto for the innovative problem solving we need to build a better more verdant and sustainable planetary existence Academics are letting Africa down With all that we know what do we have to show for it

Whose lives have been changed for the better by it What have we done for and with our communities lately In this provocative book the first in a trilogy Clapperton Chakanetsa Mavhunga argues that our critical thinkers must become actual thinker doers Taking its title from one of Thomas Sankara s most inspirational speeches Dare to Invent the Future looks for moments in Africa s story where precedents of critical thought and knowledge in service of problem solving are evident to inspire readers to dare to invent such a knowledge system Mavhunga revisits insights from Edward Wilmot Blyden Booker T Washington Aim C saire Frantz Fanon Am Icar Cabral Julius Nyerere and Thomas Sankara to illustrate how the academic disciplines have been and could be deployed in the service of and through problem solving building on what people are doing and know At its core he writes knowledge in the service of and through problem solving derives from reading the past for new questions doing due diligence in the present and contriving an anticipatory approach toward the future Questioning the fundamental premises of Western and white knowledge production especially regarding science and technology Mavhunga proposes in this book refreshingly new approaches to thinking doing that stem from African realities in the hopes of inspiring a generation that will run toward not away from problems to solve them **Economic Survey** ,2016 *Agricultural, Biosystems, and Biological Engineering Education* Umezuruike Linus Opara,2024-09-30 Agricultural engineering developed as an engineering discipline underpinned by physics applies scientific principles knowledge and technological innovations in the agricultural and food industries During the last century there was exponential growth in engineering developments which has improved human wellbeing and radically changed how humans interact with each other and our planet Among these Agricultural Mechanization is ranked among the top 10 in a list of 20 Top Engineering Achievements of the last century that have had the greatest impact on the quality of life While many success stories abound the problems of low appeal among students identity crises and limited job opportunities in many climes continue to trouble the discipline s future in many parts of the world Yet agriculture and agricultural engineering remain fundamental to assuring food and nutrition security for a growing global population Agricultural Biosystems and Biological Engineering Education provides the first comprehensive global review and synthesis of different agricultural biosystems and biological engineering education approaches including a detailed exposition of current practices from different regions Key Features Describes novel approaches to curriculum design and reform Outlines current and emerging epistemology and pedagogies in ABBE education Provides a framework to grow agricultural engineering in Africa and other developing regions Highlights the role of ABBE education in the context of the SDGs Presented in 3 parts and containing 42 chapters this book covers the historical evolution of agricultural engineering education and discusses the emergence of biological and biosystems engineering education It will appeal to engineers and other professionals education planners and administrators and policy makers in agriculture and other biological industries Chapters 4 11 19 32 and 41 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **Islamic Wealth**

Taxation and Financing Public Health Lyla Latif, 2023-11-25 Islamic Wealth Taxation and Financing Public Health is an eye opening and thought provoking book that boldly explores new possibilities for funding public health initiatives in countries where Islam isn't the predominant religion. In this case Kenya serves as the focal point. Written by a Pan African Muslim woman, this book is a must read for anyone curious about innovative ways to improve public health without overburdening taxpayers. The author delves into the concept of zakat, an Islamic wealth tax, and investigates how it could be used as a source of revenue to boost public health in non Islamic states like Kenya. By shedding light on the inner workings of the Kenyan legal system, the book highlights the importance of understanding local power dynamics, cultural and religious beliefs, and political structures when examining legal issues. It's a fascinating look at how different legal frameworks can come together to tackle complex challenges, which brings together insights from human rights law, Islamic law, and constitutional law, showcasing the potential for interdisciplinary collaboration in solving real world problems. One of the reasons this book is so timely and important is its alignment with global development goals such as the United Nations Sustainable Development Goals (SDGs), the African Union Agenda 2063, and National Development Plans. These initiatives all emphasise the need for countries to find new local funding sources without overtaxing their citizens. Exploring zakat as a potential solution in Kenya is particularly interesting given the country's influence in East Africa and the potential impact of such a development in the region.

The Status of Student Involvement in University Governance in Kenya Mulinge, Munyae M., Arasa, Josephine N., 2017-05-05 This book examines the concept of the democratization of governance in universities in Kenya, with particular emphasis on students' involvement in governance processes and decision making. Data were collected from members of the student community utilizing a structured self-administered questionnaire and from purposively selected key informants and focus group discussions drawn from Kenyatta University representing the public sector and the United States International University representing the private sector. The guiding argument for the study was that shared governance, one of the principles of good governance, is critical in enabling the universities to deliver their visions and the missions effectively. The results revealed that while in principle Kenyan universities have embraced democratic governance in which all stakeholders, including students, have a role to play, in practice they continue to violate the core principles of good governance, particularly shared governance. Specifically, students who are major stakeholders in university education are largely excluded from significant structures of governance, thereby limiting their influence and participation. Although their representation is mainly provided via student self-governance organs, unions, associations, and/or councils, their effectiveness is undermined considerably by the lack of trust and confidence of the student body and the unending manipulation by top university administrators and external political actors. Student active involvement in decision making is mainly confined to lower levels such as the school faculty and departmental programme. The authors call for a paradigm shift in the involvement of students in the governance of universities in ways that discourage the current culture of tokenism and

political correctness that characterizes public and private universities in Kenya

Thin Film Coatings Fredrick Madaraka Mwema, Tien-Chien Jen, Lin Zhu, 2022-06-19 Thin Film Coatings Properties Deposition and Applications discusses the holistic subject of conventional and emerging thin film technologies without bias to a specific technology based on the existing literature It covers properties and delves into the various methods of thin film deposition including the most recent techniques and a direction for future developments It also discusses the cutting edge applications of thin film coatings such as self healing and smart coatings biomedical hybrid and scalable thin films Finally the concept of Industry 4 0 in thin film coating technology is examined This book Explores a wide range and is not specific to material and method of deposition Demonstrates the application of thin film coatings in nearly all sectors such as energy and anti microbial applications Details the preparation and properties of hybrid and scalable ultra thin materials for advanced applications Provides detailed bibliometric analyses on applications of thin film coatings Discusses Industry 4 0 and 3D printing in thin film technology With its broad coverage this comprehensive reference will appeal to a wide audience of materials scientists and engineers and others studying and developing advanced thin film technologies

Polymer-Silica Based Composites in Sustainable Construction Harrison Shagwira, Fredrick Madaraka Mwema, Thomas Ochuku Mbuya, 2021-12-26 This book presents the application of Polymer Silica Based Composites in the Construction Industry providing the fundamental framework and knowledge needed for the sustainable and efficient use of these composites as building and structural materials It also includes characterization of prepared materials to ascertain mechanical chemical and physical properties and analyses results obtained using similar methods Topics such as life cycle analysis of plastics application of plastics in construction and elimination of plastic wastes are also discussed The book also provides information on the outlook and competitiveness of emerging composites materials Covers theory preparation and characterizations of polymer silica based composites for green construction Discusses technology reliability manufacturing cost and environmental impact Reviews the classification application and processing of polymer silica composites Gives a deeper analysis on the various tests carried out on polymer silica composite Highlights role of such composites in the Industry 4 0 and emerging technologies This book is aimed at graduate students and researchers in civil engineering built environment construction materials and materials science

Building Innovation Capabilities for Sustainable Industrialisation Rasmus Lema, Margrethe Holm Andersen, Rebecca Hanlin, Charles Nzila, 2021-11-15 This book argues that renewable electrification in developing countries provides important opportunities for local economic development but new pathways are required for turning these opportunities into successful reality Building Innovation Capabilities for Sustainable Industrialisation offers a novel input into the debate on development of capabilities for sustainable industrialisation and delivers key insights for both researchers and policy makers when it comes to the question of how to increase the economic co benefits of renewables expansion The chapters in the book use a tailored analytical framework in their studies of renewable electrification efforts in Kenya and other countries in sub Saharan

Africa They draw on a mix of project sector and country level case studies to address questions such as What capabilities are developed through on going renewable electrification projects in developing economies How can the expansion of renewable electrification be supported in a way that also encourages sustainable economic development What role do international linkages South South and North South play and what role should they play in the greening of energy systems in developing economies The authors provide a new understanding of how green transformation and sustainable industrialisation can be combined highlighting the opportunities and constraints for local capability building and the scope for local policy action This book will be of great interest to students and scholars of development studies energy studies sustainability and sustainable development as well as practitioners and policy makers working in development organisations and national governments The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781003054665> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Capacity Building for Maritime Security Christian Bueger, Timothy Edmunds, Robert McCabe, 2020-10-09 This book studies recent attempts to restructure maritime security sectors through capacity building It innovates both theoretically and empirically It proposes a new framework for understanding maritime capacity building drawing on work in peacebuilding and security sector reform The framework is then applied across empirical case studies from the Western Indian Ocean WIO region written by scholars from the Global South The WIO region is a paradigmatic case to study maritime security and capacity building in action Countries in the region face the full gamut of maritime security challenges while their indigenous capacities to deal with these are often weak In consequence the region functions as an engine of innovation for maritime capacity building more widely The lessons and best practices from the region have importance consequences for addressing maritime security across the globe

The Pentecostal World Michael Wilkinson, Jörg Haustein, 2023-04-01 The Pentecostal World provides a comprehensive and critical introduction to one of the most vibrant and diverse expressions of contemporary Christianity Unlike many books on Pentecostalism this collection of essays from all continents does not attempt to synthesize and simplify the movement's inherent diversity and fragmented dispersion Instead the global flows of Pentecostalism are firmly grounded in local histories and expressions as well as the various modes of their worldwide reproduction The book thus argues for a new understanding of Pentecostal and Charismatic movements that accounts for the simultaneous processes of pluralization and homogenization in contemporary World Christianity Written by a distinguished team of international contributors across various disciplines the volume is comprised of six parts with each offering a critical perspective on classical themes in the study of Pentecostalism Led by a programmatic introduction the thirty six chapters within these parts explore a variety of themes history and historiography conversion spirit beliefs and exorcism prosperity politics gender relations sexual identities racism development migration pilgrimage interreligious relations media ecumenism and academic research The Pentecostal World is essential reading for students and researchers in anthropology history political science religious studies sociology and

theology The book will also be very useful for those in related fields such as culture studies black studies ethnic studies and gender studies

Doctoral education in context Jan Botha,Liezel Frick,Nompilo Tshuma,2025-09-29

Doctoral Education in Context Perspectives from Africa shares lived experiences and insights of doctoral supervisors from 16 different countries in Africa The book's originality lies also in the contributors profiles as practicing novice doctoral supervisors All of them graduated from the Training Course for Supervisors offered by the Centre for Research on Evaluation Science and Technology CREST at Stellenbosch University in South Africa with the support of the German Academic Exchange Service DAAD German Rectors Conference HRK through the DIES Programme The authors commitment to doctoral supervision in their particular context is shown in each chapter Many edited volumes bring together the voices of often established researchers in this book we hear first hand the voices of novice supervisors who are willing to learn and share their insights

and experiences in doctoral supervision This perspective makes the unique strength and originality of the book This book is for anyone involved in the research and practice of doctoral supervision in Africa and the global context Readers and doctoral supervisors outside Africa will learn much about the challenging world of doctoral supervision in Africa minds

Courses Offered At Jkuat 2015: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous engrossing novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover "It Ends with Us" This touching tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Courses Offered At Jkuat 2015 : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
