

READ THE PASSAGE Read the passage carefully. Look for clues to meanings of words you do not understand.

The First Ocean Crossings in the Air

Between 1935 and 1941, an airline named Pan Am offered travelers a flying experience like no other. Instead of flying in narrow, crowded airplanes that you see at airports today, travelers back then boarded voluminous “flying boats” that were more like hotels than airplanes. For those who could afford it, a Pan Am flight across the Atlantic Ocean or the Pacific Ocean was its own unforgettable journey.

Covering New Ground

Pan Am’s transcontinental airplanes were named Clippers after sailing ships of the 1800s. Clippers were some of the most advanced aircraft built at that time and the first to cross oceans. Two obstacles had previously prevented long-distance air travel: limited fuel capacity and lack of places to land for refueling. A Clipper, designed to land on both land and water, could “hop” across the ocean, filling up its fuel tanks at major islands. Clipper pilots had navigation skills similar to those of ship captains, and the crew was trained for landing and moving in water. It took just under a week to cross the Pacific, still much faster than three weeks by ship.

Flying Luxury Liners

Unlike planes today, which have many rows of small, cramped seats, Clippers were designed for comfort. The largest Clipper held a maximum of 36 overnight passengers who slept in berths. There were also passenger dressing rooms, lounges with couches, and dining halls where men in black coats and white gloves served meals prepared by famous chefs. A typical 1939 menu featured fruit cocktail, cream of tomato soup, chicken in wine sauce, scalloped potatoes, and pie. All of this comfort and service did not come cheap, however. A typical ticket in 1939 cost around \$700, which is over \$12,000 in today’s dollars.

STRATEGY PRACTICE List one or two words you found confusing and describe how you figured out their meanings.

SKILL PRACTICE Read the item. Write your response.

1. What is this text mostly about?

2. What made the Clipper able to cross the ocean long before other airliners?

3. Why did the Clipper have so many fewer passengers than today’s transatlantic flights?
