Basic Counseling Techniques Wayne Perry, 2008-01-21
Wayne Perry has been a therapist for more than thirty years, but he still hears the same thing from beginning counselors and therapists: "Yes, I know what the theory says, but what do I do with this particular client?" Drawing on his decades of experience training marriage and family therapists, professional counselors,

and pastoral counselors he answers that question in the updated edition of his landmark book *Basic Counseling Techniques*. He provides practical suggestions for setting up the therapy room using audiovisual recording equipment and conducting those first critical interviews. You'll learn how to apply nine different sets of clinical tools, select the appropriate tool for the appropriate clinical situation, and improve how you carry out the clinical thinking process. Each chapter concludes with a Living into the Lesson section that allows you to participate in experiential exercises to master what you've learned. While designed for counselors and therapists in the beginning of their careers, even veterans in the field will find value in this updated edition.

Diagnosis and Treatment Planning in Counseling Linda Seligman, 2011-06-27 Key features of the third edition: An overview of the changing face of counseling from emerging employment opportunities to core competencies for counselors and trainers. A broad range of qualitative and quantitative assessment tools with guidelines for their selection and interpretation. A thorough review of the current edition of the Diagnostic and Statistical Manual of Mental Disorders including strategies for multi-axial assessment. The DO A CLIENT MAP, a comprehensive structured approach to treatment planning. Expanded coverage of individual, family, and group interventions. An updated chapter on documentation, report writing, and record keeping with sample reports and forms. Brand new chapters on career and organizational development, counseling, and ethical standards for counselors. A predictions chapter identifying trends most likely to influence the future of the field. Case studies, models, and examples throughout.

Assessment in Counseling Richard S. Balkin, Gerald A. Juhnke, 2018 This book focuses on the application of the theoretical and measurement concepts of assessment in counseling. The authors use a conversational style of writing and emphasize the skills used in assessment.
