*The Origin and Growth of Geography as a discipline at South Africa Universities* Gustav Visser, Ronnie Donaldson, Cecil Seethal, 2016-09-20     Handbook of Open Universities Around the World Sanjaya Mishra, Santosh Panda, 2025-06-27

The Handbook of Open Universities Around the World is the first collection to provide a comprehensive and critical overview of open universities internationally. Over 80 open universities have been established across five continents to provide a distance orientated class inclusive and high quality education for learners left behind by existing formal systems for higher and continuing education and lifelong learning. This mission has been continually reshaped by major developments in open education learning technologies and online social networking as well as by the evolution of specific concerns such as the massification of education, employability, financial trends, artificial intelligence and development agendas on the regional, national and global levels. This landmark volume analyzes and reflects on the planning, organization, management, pedagogic, skilling and employability and accreditation dimensions of 47 open universities in relation to their national and institutional contexts, the internationalization of education and the integration of advanced learning technologies. Featuring contributions by internationally recognized scholars, practitioners and educational administrators, this authoritative resource provides insights into the business model, finances, operations, instructional systems, enrollment patterns, learner supports, quality assurance, professional development and more of today's open universities. Through historical trajectories, institutional profiles, case studies, lessons learned and best practices, this book provides rich analytical perspectives on the status and challenges of single mode distance learning universities as an educational phenomenon while unpacking the premise of openness itself. This Handbook is primarily written for planners, managers, administrators, instructional designers and teaching faculty at single mode distance teaching universities who are seeking to sustain their institutions in a period of rapid change, government policymakers, training organizations, technology providers and education think tanks who are in need of authentic and research based information on technology enabled learning modeled by open universities around the world and graduate students, teaching faculty and scholars who are affiliated with online and distance education learning design and technology, higher education planning and management, adult education and lifelong learning and education policy and future studies. Chapter 54 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license. **Beyond Imagination** Zamanzima Mazibuko, 2018-12-28. Nanotechnology is sweeping the world. This science of very small particles which includes genetic modification and the reconfiguring of the arrangement of atoms presents possibilities beyond imagination. It also has huge implications for all South Africans especially at home. How exactly is this new technology playing out in South Africa? In countries like India, nanotechnology is being supported as a source of income and innovation. It

has the potential to improve both the human condition and a countrys productivity and competitiveness Is South Africa doing what it should and could to foster nanotechnology and biotechnology and to advance bioeconomies within the country And what does the new technology mean for us as consumers How many of us know that this technology is already being employed in substances like suntan cream and lipstick with potential health implications for users The application of nanotechnology poses risks as well as huge benefits so we need to be particularly vigilant of the ethics and dangers of it This book provokes discussion around these important topics and relays eyeopening information to those of us who thought all of this was sci fi **ICEL 2018 13th International Conference on e-Learning** Professor Eunice Ivala,2018-07-05

**Intersections in Language Planning and Policy** Jean Fornasiero,Sarah M. A. Reed,Rob Amery,Eric Bouvet,Kayoko Enomoto,Hui Ling Xu,2020-09-28 This volume encompasses the range of issues encountered by language scholars who teach and research in departments of languages and cultures within the higher education system predominantly in Australia but touching other universities worldwide Related studies on language planning methodology or pedagogy have focused on one or more of these same issues but rarely on their totality Intersections as a metaphor running discreetly through the essays in this volume connects them all to a lived reality The field of languages and cultures as it is practised and reflected upon in Australian universities is essentially an interdisciplinary and interconnecting space one in which linguistic and disciplinary diversities meet and join forces rather than collide or disperse along different pathways The international and local studies featured here focus on language planning new pedagogies and language reclamation and link to meeting points and commonalities They show that language scholars are increasingly finding themselves on common ground as they tackle issues of policy and practice affecting their field whether within their institutions within the tertiary system or within the framework of government policy **Implementing Campus Greening Initiatives** Walter Leal Filho,Nandhivarman Muthu,Golda Edwin,Mihaela Sima,2015-01-21 Firmly rooted in the theory and practice of sustainable development this book offers a comprehensive resource on sustainability focusing on both industrialized and developing nations Implementing Campus Greening Initiatives Approaches Methods and Perspectives is an attempt to promote and disseminate the work being done in this field by universities around the world The need to integrate the principles and concepts of green campuses and sustainability into the core of students educational experiences from high school to college or university has now been broadly recognized By doing so we can ensure that the students of today and tomorrow will acquire the knowledge skills attitudes and values needed to create a more sustainable economy and social environment *2014 International Conference on Advanced Education and Management (ICAEM2014)* ,2014-02-13 The ICAEM2014 aims to bring together researchers educators and students from around the world in both industry and academia for sharing the state of art research results and applications for exploring new areas of research and development and for discussing emerging issues on education and management fields We received a total of 312 submissions from various parts of the world The Technical Program Committee

worked very hard to have all papers reviewed before the review deadline The final technical program consists of 92 papers There are one keynote speech and 2 invited sessions The proceedings were published by DEStech Publications Inc and will be submitted to Ei Compendex databases for indexing We would like to mention that due to the limitation of the conference venue capacity we are not able to include many fine papers in the technical program Our apology goes to those authors
