Employment Operational Programme and the National Recovery and Resilience Plan which highlight the reform and investment priorities at a national level At the same time 2021 is a good time to analyze the level of implementation for the objectives and measures included in the National Strategy for Tertiary Education 2015 2020 the Europe 2020 Strategy and the Bologna Process action lines in the 2010 2020 timeframe Therefore the present moment may be an important time to assess the impact of strategic documents and actions in the last decade and possibly to draft a new National Education Law better adapted to current realities starting from the recent initiative by the President of Romania the Educated Romania strategic vision which was also politically assumed by the Romanian Government
