Adobe Flash CS3, 2008 **Multimodality across Communicative Settings, Discourse Domains and Genres** Veronica Bonsignori, Belinda Crawford

Camiciottoli, 2017-01-06 This volume focuses on multimodality in various communicative settings with special attention to how non verbal elements reinforce and add meaning to verbal expressions The first part of the book explores issues related to the use of multimodal resources in educational interactions and English language classroom teaching also involving learners with disabilities The second part on the other hand investigates multimodality as a key component of communication that takes place in different specialized domains and genres The book reflects a variety of methodological approaches that are grounded in both quantitative and qualitative techniques These include multimodal discourse analysis multimodal transcription and multimodal annotation software capable of representing the interplay of different semiotic modes such as speech intonation direction of gaze facial expressions gestures and spatial positioning of interlocutors The research collected here highlights the increasingly important role of multimodality in communication across different genres and communicative contexts and offers new perspectives on how to exploit multimodal resources to enhance the learning of English for both general and specific purposes

Anatomical Forms Whitney Sperrazza, 2025-06-10 Demonstrates how early modern women writers such as Margaret Cavendish and Hester Pulter wielded poetics as a tool for scientific work Anatomical Forms excavates the shared material practices of women s poetic work and anatomical study in early modern England Asserting that poetry is a dimensional technology Whitney Sperrazza demonstrates how women writers wielded poetics as a tool for scientific work in order to explore and challenge rapid developments in anatomy and physiology In the sixteenth and seventeenth centuries anatomists were actively exploring the best ways to represent bodies in texts to translate the work of the dissection room into the pages of books When we recognize Renaissance anatomy as fundamentally a book making project Sperrazza insists we find a complex and expansive history of anatomy in the pages of women s poetry

Women poets have long been absent from histories of literature and science but by shifting our focus from content to form Sperrazza reveals complex engagements with questions on corpse preservation dissection obstetrics and gynecology and skin theory in the poetry of Margaret Cavendish Aemilia Lanyer Mary Wroth Mary Sidney Herbert and Hester Pulter Through close formal analysis and original research on early modern anatomy treatises Anatomical Forms weaves together critical conversations in poetics book history the history of science and women s writing Sperrazza challenges her readers to imagine science differently to understand that science might not always look like we expect it to look and in the process brings into focus a feminist history of poetic form centered on material practice
