a dispassionate strategic examination of the Vietnam conflict that challenges the conventional wisdom that South Vietnam could not survive as an independent non communist entity over the long term regardless of how the United States conducted its military political effort in Indochina *Mao's China and the Cold War* Jian Chen, 2010-03-15 This comprehensive study of

China s Cold War experience reveals the crucial role Beijing played in shaping the orientation of the global Cold War and the confrontation between the United States and the Soviet Union The success of China s Communist revolution in 1949 set the stage Chen says The Korean War the Taiwan Strait crises and the Vietnam War all of which involved China as a central actor

Menétrey-Monchau, 2017-02-10 When the Vietnam War ended with the North Vietnamese capture of Saigon on April 30 1975 27 months after a cease fire had been signed in Paris the differences between the United States and Vietnam were far from being resolved Mutual bitterness regarding the war remained Newly unified Vietnam wanted normalization of relations and

the subsequent economic reconstruction aid promised in the Paris Peace Accords Understandably wary of such diplomatic relations the United States requested information regarding soldiers listed as missing in action and assistance with the repatriation of military remains A series of misconceptions and misunderstandings as well as changes from a regional to a

global U S foreign policy left both countries bereft of an easy solution This book describes the negotiations during the late Ford and early Carter administrations 1975 1979 and discusses the repercussions the diplomatic stalemate had on the domestic and international politics of the United States and Vietnam emphasizing the conflicting priorities and political goals

of both countries at home and abroad This previously neglected period in United States Vietnam relations deals with issues

such as Hanoi's constant exultation over the victory American denial of responsibility the division between the presidents public declarations and congressional policies and both sides use of the MIA issue Based primarily on recently declassified documents and former U S official Douglas Pike's uncensored collection the work also makes use of media press sources from America Vietnam Britain France and China Interviews with Vietnamese immigrants and former U S politicians provide insight unavailable in written histories Appendices contain the February 1973 correspondence between President Nixon and the Prime Minister of the Democratic Republic of Vietnam six diplomatic notes from 1976 and a January 30 1979 letter from President Carter to Chinese Vice Premier Deng Xiaoping China Is Not Our Enemy Tai P. Ng, 2021-11-29 In a time where the USA seems frantic to maintain their world domination by funding a crusade for democracy it is easy to paint China as an enemy that needs to be kept in check But is world domination the right goal What about world peace and harmony for all people The greatest challenges facing humanity now are global in nature crossing countries and cultures The world doesn't need another religious or ideological battle such as democracy vs communism It needs all the citizens of our world but in particular our world leaders and advisors to truly lead in building empathy and mutual trust promoting cooperation over competition for the benefit of all humanity As such a greater understanding of China is no longer optional in our global village It is necessary if we want to tackle global challenges such as the COVID 19 pandemic or face critical world issues such as climate change world peace and collaborative governance As China returns to its original path and reinstates itself as one of the key world leaders it demands to be treated with respect and as an equal China is not our enemy Their Confucian roots are strongly grounded in building harmonious human relationships and we in the West must build our empathy and knowledge so we can see more shades of grey in this complicated world We all share this planet and its future destiny together and confrontational Western thinking will only lead to war This macroscopic view of Chinese civilization and cultural development will help Western educated readers better interpret world events through a broader and deeper understanding of Chinese ways of thinking and behaving China's historical trajectory and trends Current developments and the context behind and around them The authors suggest that we need to view the Chinese way as complementary instead of focusing on the differences We should spend our energy and resources improving our world instead of minimizing others to maintain superiority Each of us can change the world for the better Let's replace us versus them thinking with more we and more trust as mutual understanding and tolerance will enable all of us as humans on Earth to live in greater harmony with each other and with ourselves **Vietnam: The Necessary War** Michael Lind, 2002-07-16 Offering a controversial perspective on America's most painful war the author proposes that Vietnam should have been fought but with different tactics Air University Library Index to Military Periodicals , 1999 **Rice Paddy Recon** Andrew R. Finlayson, 2014-11-19 A young U S Marine officer recounts his experiences of the Vietnam War over a nineteen month period He graphically describes what it was like to perform three distinct combat missions long range ground reconnaissance in the Annamite Mountains of I Corps

infantry operations in the rice paddies and mountains of Quang Nam Province and special police operations for the CIA in Tay Ninh Province Using Marine Corps official unit histories CIA documents and his weekly letters home the author relies almost exclusively on primary sources in providing an accurate and honest account of combat at the small unit level Of particular interest is his description of his assignment to the CIA as a Provincial Reconnaissance Unit PRU advisor in Tay Ninh Province where he participated in several secret missions as part of the controversial Phoenix Program The name and contribution of the CIA s most valuable spy during the war the famous Tay Ninh Source is revealed

Politics and the General in Supreme Command Richard Adams, 2024-11-25

This book argues for reform of the convention that when politicians decide on a course of action the general in supreme command obeys without question The entire spread out chain of command is unified in the general who offers the only connection between the military and politics Offering the sole connection between the military and politics only the general can turn political directions into military command and capacitate war Thus the general has unique opportunity to resist unconscionable direction to launch an unjust war or to conduct or expand war unjustly This book argues for reform so the general has the right in law to refuse direction which is lawful but awful The legal capacity to refuse would mean the general would be expected to act responsibly not merely as the unresisting pawn of politics Such reform creating legal opportunity for the supreme command to refuse lawful but unconscionable directives might avert unjust war This book will be of much interest to students of the ethics of war civil military relations and international relations

The Political Economy of Educational Reforms and Capacity Development in Southeast Asia Yasushi Hirosato,Yuto Kitamura,2009-02-07 Yasushi Hirosato and Yuto Kitamura Developing countries including Southeast Asian countries face an enormous challenge in ensuring equitable access to quality education in the context of deepening globalization and increasing international competition They must simultaneously meet the goals of Education for All EFA at the basic education level and of developing a more sophisticated workforce required by the knowledge based economy at the post basic especially tertiary education level To meet this challenge developing countries need to reform renovate their education systems and service deliveries as an integral part of national development However most of them have not yet fully developed the individual institutional and system capacities in undertaking necessary education reforms especially under decentralization and privatization requiring new roles at various central and local or public and private levels of administration and stakeholders Provided that an ultimate vision of educational development and cooperation in the twenty first century would be to develop indigenous capacity in engineering education reforms this book analyzes the overall education reform context and capacity including the status of sector program support using the sector wide approach SWAp program based approach PBA in developing countries We also address how different stakeholders have been interacting in order to promote equitable access to quality education particularly from the perspectives of capacity development under the system of decentralization

Religion in Multicultural Education Farideh Salili,Rumjahn Hoosain,2006-05-01 The National Association for Multicultural Education in Washington D C listed a number of issues that the school curriculum should address with reference to multicultural education including racism sexism classism linguisticism ablism ageism

heterosexism and religious intolerance It is noteworthy that of all these issues religion is about the only one that throughout history people are willing to die for although whether what is at issue is really religion or other things such as territory is another matter It is also interesting that all the others have isms in their names but religious issues are characterized by intolerance Perhaps we should try to understand this intolerance and look at what steps might help to alleviate it However while intolerance might seem a simple thing understanding what is behind it and how it plays such a crucial role in religion requires what we refer to in the Introduction chapter as a multifaceted approach at multiple levels It is not enough just to try to dispel stereotypes of followers of other religions or to point out commonalities in world religions We should for example try to understand and appreciate how adherents of other religions try to answer questions regarding their adaptation to the contemporary environment It is through understanding how different religions coexist side by side at various levels that we truly come to learn about religion in multicultural education Progress in International Relations Theory Colin

Elman, Miriam Fendius Elman, 2003-08-29 All academic disciplines periodically appraise their effectiveness evaluating the progress of previous scholarship and judging which approaches are useful and which are not Although no field could survive if it did nothing but appraise its progress occasional appraisals are important and if done well can help advance the field This book investigates how international relations theorists can better equip themselves to determine the state of scholarly work in their field It takes as its starting point Imre Lakatos's influential theory of scientific change and in particular his methodology of scientific research programs MSRP It uses MSRP to organize its analysis of major research programs over the last several decades and uses MSRP's criteria for theoretical progress to evaluate these programs The contributors appraise the progress of institutional theory varieties of realist and liberal theory operational code analysis and other research programs in international relations Their analyses reveal the strengths and limits of Lakatosian criteria and the need for metatheoretical metrics for evaluating scientific progress Justice and Reconciliation in World Politics Catherine

Lu, 2017-11-07 This book examines how justice and reconciliation in world politics should be conceived in response to the injustice and alienation of modern colonialism Inside the Pentagon Papers John Prados, Margaret Pratt Porter, 2004 Inside the Pentagon Papers addresses legal and moral issues that resonate today as debates continue over government secrecy and democracy's requisite demand for truthfully informed citizens In the process it also shows how a closer study of this signal event can illuminate questions of government responsibility in any era When Daniel Ellsberg leaked a secret government study about the Vietnam War to the press in 1971 he set off a chain of events that culminated in one of the most important First Amendment decisions in American legal history That affair is now part of history but the story behind the case has much to tell us about government secrecy and the public's right to know Commissioned by Secretary of Defense Robert McNamara the Pentagon Papers were assembled by a team of analysts who investigated every aspect of the war Ellsberg a member of the team was horrified by the government's public lies about the war discrepancies with reality that were revealed by the

report's secret findings His leak of the report to the New York Times and Washington Post triggered the Nixon administration's heavy handed attempt to halt publication of their stories which in turn led to the book *McNamara at War* William Taubman, Philip Taubman, 2025-09-23 A revelatory portrait of Robert S McNamara informed by newly discovered diaries letters and interviews with those closest to him Robert S McNamara was widely considered to be one of the most brilliant men of his generation He was an invaluable ally of Presidents John F Kennedy and Lyndon B Johnson as U S secretary of defense and he had a deeply moving relationship with Jackie Kennedy But to the country McNamara was the leading advocate for American escalation in Vietnam He strongly advised Johnson to deploy hundreds of thousands of American ground troops just weeks before concluding that the war was unwinnable and for the next two and a half years McNamara failed to urge Johnson to cut his losses and withdraw McNamara at War examines McNamara's life of intense personal contradictions following his childhood his career as a young faculty member at Harvard Business School and his World War II service to his leadership of the Ford Motor Company and the World Bank Philip and William Taubman had access to materials previously unavailable to McNamara biographers including Jacqueline Kennedy's warm letters to McNamara during the Kennedy and Johnson administrations and beyond family correspondence dating back to McNamara's service in World War II and a secret diary maintained by McNamara's top Vietnam policy aide What emerges is the comprehensive story of the infamous former leader of the Pentagon riven by melancholy guilt zealous loyalty and a profound inability to admit his flawed thinking about Vietnam before it was too late McNamara at War is a portrait of a man at war with himself with a grave influence on the history of the United States and the world
