New York Times Saturday Book Review Supplement, 1968 **Focus On: 100 Most Popular Deaths from Pneumonia** Wikipedia contributors, Smoke-Filled Rooms W. Kip Viscusi, 2010-02-15 The 1998 out of court settlements of litigation by the states against the cigarette industry totaled 243 billion making it the largest payoff ever in our civil justice system Two key questions drove the lawsuits and the attendant settlement Do smokers understand the risks of smoking And does smoking impose net financial costs on the states With *Smoke Filled Rooms* W Kip Viscusi provides unexpected answers to these questions drawing on an impressive range of data on several topics central to the smoking policy debate Based on surveys of smokers in the United States and Spain for instance he demonstrates that smokers actually overestimate the dangers of smoking indicating that they are well aware of the risks involved in their choice to smoke And while smoking does

increase medical costs to the states Viscusi finds that these costs are more than financially balanced by the premature mortality of smokers which reduces their demands on state pension and health programs so that on average smoking either pays for itself or generates revenues for the states Viscusi's eye opening assessment of the tobacco lawsuits also includes policy recommendations that could frame these debates in a more productive way such as his suggestion that the FDA should develop a rating system for cigarettes and other tobacco products based on their relative safety thus providing an incentive for tobacco manufacturers to compete among themselves to produce safer cigarettes Viscusi's hard look at the facts of smoking and its costs runs against conventional thinking But it is also necessary for an informed and realistic debate about the legal financial and social consequences of the tobacco lawsuits People making 50 000 or more pay 08 percent of their income in cigarette taxes but people with incomes of less than 10 000 pay 1 62 percent twenty times as much The maintenance crew at the Capitol will bear more of the sin tax levied on cigarettes than will members of Congress who voted to boost it Cigarettes are not a financial drain to the U S In fact they are self financing as a consequence of smokers premature mortality The general public estimates that 47 out of 100 smokers will die from lung cancer because they smoke Smokers believe that 40 out of 100 will die of the disease Scientists estimate the actual number of 100 smokers who will die from lung cancer to be between 7 and 13 The New York Times Magazine, 1974 **A Time to Embrace** William Stacy Johnson, 2012-06-30 In **A Time to Embrace** William Stacy Johnson brilliantly analyzes the religious legal and political debates about gay marriage civil unions and committed gay couples This new edition includes updates that reflect the many changes in laws pertaining to civil unions same sex marriage since 2006 Freaking Out Joshua Woods, 2012-01-01 After 9 11 research on the perceived threat of terrorism moved in several directions Some scholars examined the social construction of terrorism scrutinizing the political rhetoric and media coverage associated with the threat Other researchers investigated the public's elevated worries about terrorism and their effect on public opinion while still other analysts elucidated the post 9 11 changes in U S foreign and domestic policies In **Freaking Out A Decade of Living with Terrorism** Joshua Woods unites these areas of research interweaving the sociology and psychology of terrorism to create a broader and more compelling explanation of how the attacks on 9 11 have changed American society Offering a concise review of the shifting policy arena in the post 9 11 era Woods chronicles not only major U S government actions such as the wars in Afghanistan and Iraq but also less visible changes such as shifts in immigration policy and the use and abuse of Homeland Security funding by state and local governments Investigating the public's response to terrorism Woods examines the link between media coverage of terrorism and public perceptions of the threat demonstrating how some news coverage elevates people's worries more than others The events of 9 11 influenced the thoughts feelings and behaviors of public officials members of the press and ordinary people The reactions of these groups are deeply interrelated but the study of them has remained isolated and compartmentalized across several academic disciplines until now Demonstrating the virtue of multidisciplinary synthesis this

book advances the growing field of terrorism studies in new directions **Strange Bird** Michele K. Troy, 2017-04-04 The first book about the Albatross Press a Penguin precursor that entered into an uneasy relationship with the Nazi regime to keep Anglo American literature alive under fascism The Albatross Press was from its beginnings in 1932 a strange bird a cultural outsider to the Third Reich but an economic insider It was funded by British Jewish interests Its director was rumored to work for British intelligence A precursor to Penguin it distributed both middlebrow fiction and works by edgier modernist authors such as D H Lawrence Virginia Woolf James Joyce and Ernest Hemingway to eager continental readers Yet Albatross printed and sold its paperbacks in English from the heart of Hitler s Reich In her original and skillfully researched history Michele K Troy reveals how the Nazi regime tolerated Albatross for both economic and propaganda gains and how Albatross exploited its insider position to keep Anglo American books alive under fascism In so doing Troy exposes the contradictions in Nazi censorship while offering an engaging detective story a history a nuanced analysis of men and motives and a cautionary tale **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971**
