The Kaiser's Merchant Ships in World War I William Lowell Putnam, 2001-07-01 Germany's merchant marine fleet the second largest in the world prior to 1914 played an unintended but decisive role in that nation's defeat in World War I There were those ships that went to war for the Kaiser on the high seas those that stayed at home or otherwise played no significant part and those that were commandeered mostly in 1917 and by the United States and used against Germany This is a well illustrated history both practical and romantic of the association each ship may have had with famous people and events of the war and of the fates of the ships that comprised that fleet How God Did It, Not Why William Lowell Putnam III, 2014-07-01 This entire literary endeavor to separate Biblical literalism from observable reality was prompted by the fact that one supposedly erudite scholar managed to propound on American National Public Radio with a presumably straight face the fact that the Colorado River's Grand Canyon a notable feature of the high plateau of Northern Arizona was formed in one brief but eventful period of runoff when all the waters accumulated on Earth by the Great Flood associated with the Biblical patriarch Noah drained back into the ocean through this one channel thus carving the canyon At least this scholar paid some obeisance to the process of erosion though he may well be subject to review in his concepts of timing or geography For anyone who cares to take the time and look closely can determine given the observable rate of down cutting and the total volume of material removed that the ongoing carving of the canyon must have begun some thousands of millennia before the alleged globally catastrophic flood Moreover if as we are told Noah's flood did cover the whole face of Earth even therefore the highest of mountains it would mean a worldwide oceanic depth of another five or more miles and thus require an off planet storage facility for all that water **Superstar Birds** Louise Spilsbury, 2014-07-15 All birds lay eggs have feathers and are warm blooded But even though they have these characteristics in common birds are incredibly diverse in appearance behaviors and unique abilities Giant wingspans dizzying flying altitudes and many more amazing facts are packed into this richly illustrated edition that brings the wonder of the skies to land bound readers *The Education of an Alpinist* William Lowell Putnam, 1997-01-01 My objective in setting forth this series of mostly autobiographical vignettes was not to inspire a rash of juvenile delinquency but to have something on paper before the age of involuntary repetition set in I don't feel I owe much to Sir Walter Scott for cribbing the subtitle he surely cannot have been the first grandfather to assemble stories for the benefit of a few young people of his acquaintance Nevertheless it's a good one and I'm grateful Having been blessed with better than average opportunities throughout most of my years I have made friends and enjoyed experiences particularly in mountaineering that are the stuff of romance But being myself and not George Henty or Jack London I have compiled the bulk of what seems to be the most educational of them in an order that makes sense to me geographical not chronological Had I thought further ahead at the outset of these adventures in alpinism I might have kept a fuller diary and certainly made better use of a camera But in the beginning I was often too busy with life to think about this kind of future need and a few of

the reminiscences that follow are drawn largely from memory However the great majority of them can be verified by contemporary records in various mountaineering journals of North America and by several friends who helped make some of these memories as pleasant as they are I offer them no thanks on this page for their names and kindnesses are documented in the text following and though not every reference carries reverence or gratitude in its words they certainly exist in my heart

The Worst Weather on Earth William Lowell Putnam,1991-06-01 There may be worse weather from time to time at some forbidding place on Planet Earth but it has yet to be reliably recorded So begins The Worst Weather on Earth A History of the Mount Washington Observatory Mount Washington at 6 288 feet above sea level is one of the highest elevations in the eastern United States and is subject to some of the fiercest weather patterns in the world Situated close to major centers of population it has been an accessible objective for travellers The curious the intrepid the scientific Mount Washington has attracted them all In this age of satellites and advanced instrumentation the intricacies of weather observation are now taken for granted However not so long ago weather was a blank on the scientific map of understanding The Worst Weather on Earth chronicles the social and scientific milieu of those who have recorded the weather on the mountain for over one hundred years Included are chapters such as Radio on the Rockpile which covers the pioneering days of radio broadcasting from the Summit and Rime and Reason which presents a fascinating discussion of rime and the problems of icing that were researched extensively on the Summit The Worst Weather on Earth is rendered more immediate by the liberal use of contemporary accounts excerpts from letters reports and the log notes of the Summit observers abound giving the flavor and the excitement of over a century of scientific observation and discovery

Torquemada Revisited William Lowell Putnam,2006-06-13 This book traces the origin of the forces and personalities that brought about the Spanish Inquisition and its impact on the larger world It dwells extensively on the causes and principal figures of the Protestant Reformation and explains how those attitudes came to influence the evolution of modern American politics and bigotry A careful reading of this narrative explains how political and religious leaders often being somewhat interchangeable have been able to devise enemies that can be used to convince sufficient of the populace to elect or retain in high office those who portray themselves as opposed to such enemies ignoring in so doing the sage advice of Benjamin Franklin that those who would sacrifice essential liberties for a little temporary security deserve neither liberty nor security

A Tale of Two Passes William L. Putnam,2008-04-01 A Tale of Two Passes An Inquiry into Certain Alpine Literature Light Technology Publishing s newest title is devoted to treasuring the history of Mont Cenis and the Great Saint Bernard passages Both of these passes were prominently and frequently used by the Romans in establishing and maintaining their empire It is surmised that Hannibal and his troops found elephant friendly passages through the Mont Cenis corridor

Both passes were adorned with hospices shelters near their crest and both now have been by passed by modern tunnels Despite these similarities their historic prominence derives from distinctly different events and factors *Green Cognac* William Lowell Putnam,1991-01-01 An Impetuous College Undergraduate A Nation at War A New Unit Seeking Experienced Mountaineers Men of Good Physique Who Have Lived and Worked in the Mountains Three letters of recommendation later in early 1943 William Lowell Putnam joined what was to become the 10th Mountain Division the first and only mountain warfare unit of the U S Army Green Cognac The Education of a Mountain Fighter is a superb account of the mountain and ski troops as seen from Putnam s often wry perspective What transpired during the brief eventful years of war is the story of Green Cognac as told by one who was well acquainted with the mountains and mountaineering before he became a mountain fighter Putnam applied this knowledge while serving in the infantry regiments of the 10th Mountain Division The elite Mountain Troops were sent to break the German Gothic Line in the Apennine Mountains of Italy Brilliantly led they fought their way northward with magnificent dash seizing control of ten mountain crests Their determined drive broke the German resistance and brought on the first large scale enemy surrender of World War II Much celebrated and studied after the war for their striking success and spirit in the field the Mountain Trrops presented an awe inspiring picture of camaraderie and courage From the bold ski tropper concept first suggested in 1940 to the final days of demobilization at the end of 1945 this is their story **The Guiding Spirit** William Lowell Putnam,Andrew J. Kauffman,1986-01-01 The first professional mountain guides to be employed in North America were all Italians Guiseppe Petigax and Lorenzo Croux of Courmeyer Antonio Maguinaz and Andrea Pellissier of Valtournanche and Erminio Botta of Beilla all in the retinue of Luigi Amadeo of Savoia Duke of the Abruzzi whose successful expedition to Mount Saint Elias in 1896 became an Alaskan and mountaineering legend The next summer Professor H B Dixon followed his example and engaged Peter Sarbach to accompany him on several weeks of climbing in the Canadian Alps It was the obvious success of this particular act which prompted the Vaux brothers distinguished amateur scientists of Philadelphia to suggest again in 1898 that the Canadian Pacific Railway should engage some Swiss guides to be available for their patrons in the mountain regions the company was seeking to exploit This is the story of those men who prided themselves not merely on being guides but on being Swiss guides These men carved out a unique niche in the loyalties they both earned and gave Their words often indicated conflict hardship and unhappiness but their actions were those of persons engaged in a rewarding vocation who had found an emotional satisfaction in life that few of us are privileged to enjoy Here then is the story of the CPR s Swiss guides as written by Andrew J Kauffman and William L Putnam Over many years of mountaineering adventures in Canada they interviewed Edward Feuz Jr Uncle Ed and researched the archives for the facts and stories of which this book is composed This is a story of mountain adventure in a newly awakening country western Canada a story which will be hard to put down once begun **WWE Legends - Superstar Billy Graham** Billy Graham,2010-05-11 I m the man of the hour Superstar Billy Graham told his audiences the man with the

power Too sweet to be sour Despite years of devastating health issues a long history of drug abuse led to a liver transplant in 2002 the man regarded as one of the most influential professional wrestlers of the past thirty years still flaunts the same optimism that made his interviews as compelling as his matches In *Tangled Ropes* his autobiography Graham remembers his victories and his setbacks on both the wrestling and the evangelism circuits in vibrant detail At his core Graham is still Wayne Coleman the artistic curious boy who escaped the wrath of his disabled father in post war Phoenix through painting sports and bodybuilding When his photo appeared in a bodybuilding magazine the young man caught the attention of a family in Texas who began praying for his soul Soon Wayne found religion at a revival meeting then mortified his parents as he left home to bend steel rip phone books in half and preach the Gospel on the back roads of America Because of his natural athleticism Wayne held a series of jobs from bouncer to boxer from repo man to football player However it was under the training of the Mentor of Mayhem Stu Hart that the wrestler was revealed Then the fading headliner Dr Jerry Graham bleached Wayne s hair blond and transformed him into an in ring brother Still reverent of men of faith Coleman became Billy Graham after the preacher Graham completed the package with his golden tan and enormous pythons a succession of color coordinated outfits and jive talking a persona imitated by countless wrestlers including Hulk Hogan and Jesse The Body Ventura The Superstar s greatest wrestling achievement came in 1977 when he took the World Wide Wrestling Federation Championship from Bruno Sammartino He held the prize for nearly a year the first wrestling villain to do so But after he lost the title to wholesome Bob Backlund Graham fell into a deep depression He disappeared from the business squandering his money and losing himself in a haze of drugs In *Tangled Ropes* co written with Keith Elliot Greenberg Superstar Billy Graham tells a story that transcends his life in the wrestling profession offering candor nostalgia inspiration and humor Graham s narrative is supplemented by anecdotes from personalities like Vince McMahon Jesse Ventura Ivan Koloff Ric Flair Dusty Rhodes and California governor Arnold Schwarzenegger

A Century of American Alpinism William Lowell Putnam, Charles Ernest Fay, Allen Herbert Bent, Howard Palmer, James Monroe Thorington, Andrew John Kauffman, 2002-01-01 Charles Ernest Fay 1846 1931 the Mr American Mountaineering of his day was chairman of the meeting that led to the foundation of the Appalachian Mountain Club in 1876 Thereafter he served several terms as that club s president and was the editor of its Journal APPALACHIA for 40 years In 1902 he was elected as the first president of The American Alpine Club and reelected for a second three year term In 1917 he was elected president once more thus becoming not only the Club s first president but also its longest serving During all this period he was Professor of Modern Languages at Tufts College in Medford Massachusetts where he shared offices with the junior editor albeit with a hiatus of 18 years between their respective occupancies Allen Herbert Bent 1867 1926 a native of Boston Massachusetts started his life of scholarly research into alpinism by dropping out of college anything but a promising beginning Soon however he began the serious study of the history of mountaineering ultimately writing extensively on this topic He became the first person elected to The American Alpine Club during its days of exclusivity under the or the equivalent clause of membership prerequisites for he was never a serious alpinist always contenting himself with the study of its literature Howard Palmer 1883 1944 a lawyer by training

inherited the management of his family's mattress manufacturing business in New London Connecticut. Starting in 1907 he compiled an enviable record of first ascents in the mountains of western Canada and in 1914 published the North American classic MOUNTAINEERING AND EXPLORATION IN THE SELKIRKS. He served as editor of the Club's first guidebook and several editions of its JOURNAL. He also furthered the organization as its secretary, a director and as its president. James Monroe Thorington 1894-1989 of Philadelphia was an ophthalmologist by profession following in the footsteps of his father. After the end of World War I Roy, as he was known to his intimates, spent most of his vacation time in the mountains of western Canada and served as editor of the Club's guidebooks to that region for several editions. A diligent student of alpine literature, he compiled a number of scholarly researches into the history of American alpinism, served many years as a director of the Club, one term as its president, then for 10 years as editor of the AMERICAN ALPINE JOURNAL, and gave the Club some of the most valuable items in its museum. In 2000 the UIAA gave its first award for research into the history of alpinism under the name of James Monroe Thorington. After graduating from Harvard in 1942, Andrew John Kauffman b. 1921, the son of two distinguished American literary figures, spent his entire working career in various diplomatic capacities. Between State Department assignments in Washington, Paris, Managua, and Calcutta, he spent weekends and holidays in the Alps and the mountains of Peru, Colombia, Alaska, Canada, and finally in the Karakoram where he demonstrated a high level of acromania by becoming one of the only two Americans to make the first ascent of an 8000 meter peak. He also served the Club as a counselor and as vice president and was elected to Honorary Membership. William Lowell Putnam b. 1924 has been an official of the Harvard Mountaineering Club, the Appalachian Mountain Club, then The American Alpine Club, and finally the International Association of Alpine Societies, UIAA, and has been honored by several other mountaineering societies. His major employment was in television broadcasting, but his heart remains in the mountains of western Canada. At this writing, he is the sole trustee of Lowell Observatory in Flagstaff, Arizona. While many have wished for the opportunity, people have not yet read his obituary.

How We Survived in UHF Television William Lowell Putnam, Kitty Broman Putnam, 2011-12-04

This personal narrative is co-authored by two of the best-known names in American UHF television broadcast management: Kathryn Kitty Broman Putnam and William Lowell Bill Putnam. During the first two decades of Ultra High Frequency UHF television, when the established VHF Very High Frequency stations dominated the TV marketplace, the Putnams built and operated three successful UHF outlets: WWLP TV in Springfield, Massachusetts; WKEF TV in Dayton, Ohio; and KSTU TV in Salt Lake City, Utah. Kitty and Bill recall how they labored for survival during the dozen lean years between 1952 and 1964 and the events along their way to leadership in the world of advertiser-supported analog television. Included are several original poems written by Bill and tantalizing recipes created for Kitty's long-running local cooking show.

The Challenges of Globalization Robert E.; Winters Baldwin, Presents Challenges of Globalization: the remarks by Joan E. Spero, the Under Secretary of State for Economic Business and Agricultural Affairs, at the World Economic Development Congress in

Washington DC on September 26 1996 Discusses the challenges of the increasing integration of the world economy *The Great Glacier and Its House* William Lowell Putnam,1982-06-01 Spanning forty years this book recreates the spirit of a golden age of exploration and travel when adventure seeking men and women made grand tours into an unknown wilderness and alpinists scientists photographers and tourists discovered for the first time the secrets of a great and varied land In the mighty Selkirk Mountains of Canada lies Rogers Pass which was the scene of three major events in the history of North America in 1884 it presented an enormous obstacle to the Canadian Pacific Railway in its drive to connect the new nation coast to coast it became the site of the first modern European style resort hotel in the mountains and it was the first locality to attract the attention of serious mountaineers from around the world Putnam blends these three events and weaves them into an accurate early history of the region He shares with us the heroic often tragic tale of the Canadian Pacific Railway He takes us into the magnificent surroundings of the Great Glacier and we see the modest Glacier House develop through the years into a world famous luxury hotel And as the Rogers Pass Glacier area becomes the focal point in the fledgling sport of alpinism in North America we join the earliest expeditions undertaken in the Selkirk Range The focus of the book however is on the people whose paths cross at Glacier House and the author lets them tell their own stories The personalities of the railroad executives and the hotel staff emerge from correspondence and reports As a basis of much of the book Putnam has included many firsthand accounts from the Glacier House register Known as The Scrapbook it contains the handwritten accounts of virtually every notable climber and mountain explorer of the early era Magnificent historical photographs many of them never before published exquisitely illustrate the book The forty year saga is vividly retold through these rare photographs of the scenes those early adventurers witnessed when they first visited the Great Glacier and its house
