Argosy February 1968:

Bigfoot Joshua Blu Buhs, 2009-08-01 Last August two men in rural Georgia announced that they had killed Bigfoot. The claim drew instant feverish attention leading to more than 1 000 news stories worldwide despite the fact that nearly everyone knew it was a hoax. Though Bigfoot may not exist, there's no denying Bigfoot mania. With *Bigfoot*, Joshua Blu Buhs traces the wild and woolly story of America's favorite homegrown monster. He begins with nineteenth century accounts of wildmen roaming the forests of America, treks to the Himalayas to reckon with the Abominable Snowman, then takes us to northern California in 1958 when reports of a hairy hominid loping through remote woodlands marked Bigfoot's emergence as a modern marvel. Buhs delves deeply into the trove of lore and misinformation that has sprung up around Bigfoot in the ensuing half century. We meet charlatans, pseudo scientists and dedicated hunters of the beast and with Buhs as our guide, the focus is always less on evaluating their claims than on understanding why Bigfoot has inspired all this drama and devotion in the first place. What does our fascination with this monster say about our modern relationship to wilderness, individuality, class, consumerism and the media? Writing with a scientist's skepticism but an enthusiast's deep engagement, Buhs invests the story of Bigfoot with the detail and power of a novel, offering the definitive take on this elusive beast. **Encyclopedia of**

Cryptozoology Michael Newton, 2016-10-05 On every continent and in every nation, animals unrecognized by modern science are reported on a daily basis. People passionately pursue these creatures; the name given to their field of study is cryptozoology. Coined in the 1950s, the term literally means the science of hidden animals. When the International Society of Cryptozoology (ISC) was formed in 1982, the founders declared that the branch of science is also concerned with the possible existence of known animals in areas where they are not supposed to occur, either now or in the past, as well as the unknown persistence of presumed extinct animals to the present time or to the recent past. What makes an animal of interest to cryptozoology is that it is unexpected. This reference work presents a flesh and blood view of cryptozoology. Here 2 744 entries are listed, the majority of which describe one specific creature or type of creature. Other entries cover 742 places where unnamed cryptids are said to appear, profiles of 77 groups and 112 individuals who have contributed to the field, descriptions of objects and events important to the subject, and essays on cryptotourism and hoaxes. For example, Appendices offer a timeline of zoological discoveries, annotated lists of movies and television series with cryptozoological themes, a list of crypto-fiction titles, and a list of Internet websites devoted to cryptozoology. **Big Footage** Mike Quast, 2021-11-19 This book is a representation of every visual image I have been able to acquire that has been claimed as evidence of the sasquatch at one time or another. Many more filming cases are presented in written form only where the picture described was unavailable. Every last case involving filming that is personally known to me at this time is included here, though I'm sure there are still more that have eluded me.

Atlantis Rising Magazine - 127 January/February 2018 J. Douglas Kenyon, In this Issue NASA CONCEDES PLANET 9 PROBABLY REAL. The late Zecharia Sitchin is probably cheering these days. In October 2017

NASA publicly conceded that in all likelihood the Solar System has a ninth planet Sitchin's scenario of a planet Nibiru making periodic returns to Earth's neighborhood to tinker with human history may not quite fit with NASA's view of a massive body on a vast orbital path as yet untracked Yet still many of the elements Sitchin said he had decoded from ancient Sumerian cuneiform texts seem to be present in the now favored ninth planet theory

ARCHAEOLOGICAL SHOCKER FIRST AMERICANS WERE HERE OVER 130 THOUSAND YEARS AGO The idea that modern humans or even Neanderthals could have been present in America over twelve thousand years ago has long been controversial and discoveries which support that argument have been denied discredited or disregarded by conventional science Extraordinary new findings in California however are making the case that more than 130 thousand years ago someone used stone tools to break the bones of mastodons The intent it is speculated would have been to extract the nutritious bone marrow According to archaeologist Steven Holen as reported by the prestigious science website NewScientist.com the evidence is fairly conclusive

CANADIANS OVER 13 THOUSAND Score another point for mythology over science For thousands of years the indigenous Heiltsuk Nation of British Columbia has relayed an oral tradition from generation to generation that its ancestors escaped the harsh conditions of the Ice Age on a temperate island off the coast of Canada Now archaeologists once convinced that no humans were in North America before 12 000 years ago are facing powerful new evidence that the Heiltsuk may have been right all along

CYBORG EYES In the 1984 movie The Terminator a Cyborg a being with both organic and biomechatronic body parts from the future played by Arnold Swartzenegger searches for the mother of a yet to be born hero who will be a scourge to the robots who rule that world to come It was all science fiction of course but the memorable artificial eyes of the Terminator could turn out to be more fact than fiction

IS CHINA MAKING IMPOSSIBLE SPACE DRIVE In the race to develop the EM Drive China may have moved ahead of the U S The mysterious and some would say impossible space drive technology successfully tested recently by NASA has been converted by Chinese scientists into a working prototype That at least is the claim of the Chinese propaganda ministry

AMERICANS BELIEVE IN ADVANCED ANCIENT CIVILIZATION For anyone wondering how a magazine like Atlantis Rising could even exist the answer may be found in a new survey from Chapman University In an October 2017 poll on Paranormal Beliefs Chapman found that 55% of the public agree or strongly agree with the statement Ancient advanced civilizations such as Atlantis once existed

ANCIENT MYSTERIES ATLANTIS THE

RELIGIOUS Do We Know What the Natives Believed BY FRANK JOSEPH Atlantis Rising readers have learned much over the last twenty three years about the geological fate and checkered history of the sunken civilization from which our magazine derives its name But no less significant were less appreciated religious convictions that it is said characterized the lost kingdom because they not only survived its destruction but were carried by its survivors to the outside world where they influenced the belief systems of post deluge cultures even to the present day ANCIENT WISDOM EGYPTIAN MYSTERIES TURIN S GOLDEN RULE The Ancient Geometers Were Far Ahead of Their Time and of Ours BY THOMAS DIETRICH An obscure Egyptian artifact in the Egyptian museum of Turin Italy provides remarkable evidence that the builders of the Great Pyramid whoever they were possessed deep insight into the meaning of the Golden Rule PUBLISHER S LETTER BY J DOUGLAS KENYON RECLAIMING THE LOST SECRETS OF A GODDESS In Atlantis Rising 124 July August 2017 author Steven Sora made the point that the myth of Hercules was probably based on some real person who made his heroic mark before the dawn of recorded history as we know it Steve described a number of elements in the Hercules story that seem to imply it has a factual basis Homer s tale of Ulysses for example has been connected to the twelve labors of Hercules Both stories feature special links to the stars suggesting that in some forgotten civilization from before the end of the Ice Age Atlantis perhaps both heroes might have been the same person

Interrogating the Visual Culture of Trumpism Grant Hamming, Natalie E. Phillips, 2024-08-26 Bringing together scholars from art history visual studies and related disciplines this edited volume asks why Trumpism looks the way it does and what that look means for American and global society Grouped into six categories the essays in this volume tackle some of the most perplexing and urgent aspects of the Trumpist visual project Two of the most striking aspects of that project are its use of novel commodity forms including the iconic red baseball caps as well as its embrace of social media Trump s outlandish persona and striking physicality have lent themselves to caricature both from his critics and perhaps more surprisingly his supporters That physicality as well as his movement s hearkening back to a mostly imagined era of mid twentieth century prosperity has also brought gender and the body into sharp focus Perhaps second only to the aforementioned red hat is Trumpism s vigorous use of interventions into public space including traditional campaign signs as well as flags and other ad hoc visual and architectural materials Finally there were the events of January 6 2021 when many of Trumpism s most outr visual and cultural preoccupations exploded from the shadows onto television screens across the country Taken as a whole the essays in this book examine Trumpist visuality from the seemingly trivial to the starkly horrifying as well as offering a measured sense of the various resistances and responses that have characterized artistic responses to Trump from the beginning of his prominence The book will be of interest to scholars working in art history visual culture American studies and cultural and media studies
