1-4 Degree Head Pitch/180° Radius Fingerboard
These performance specifications, which have been standard on all Axis 180 guitars since 1986, provide a more precise and consistent playing experience. The 180° radius fingerboard provides a smooth, even playing surface that makes the most of the guitar's natural resonance, and is known for its "flat" or "neutral" feel. The 180° radius fingerboard is also a key component of the guitar's overall design, which is known for its precision and consistency.
