Antichrist Osiris: the History of the Luciferian Conspiracy Chris Relitz,2012-06-01 The Legends of many cultures claim that the world was once destroyed in a cataclysmic flood Many cultures also claim that someday the world will again be destroyed in a similar fashion In the Bible we are told that the disciples once asked Jesus if there would be a warning sign prior to this destructive event He said that there would indeed a sign Jesus said that whatever was happening in the Days of Noah will happen again before the end of this age The Bible has only a few verses about Noah s Flood So we are forced to turn to the ancient flood legends of over 350 other cultures to learn more about this prophecy But Noah s days did not end with the flood he lived for many years afterward He saw the creation of a tower in Babylon This is interesting because the Freemasons claim that their Order originated here Here is the most thorough examination of Freemasonry ever undertaken using their own texts to solve the Days of Noah prophecy

New World War Mark M. Rich, A silent war is taking place in cities all over the planet It is covered up by the media mental health system NGOs and our elected officials Now that the financial elite are finished using the US military and allied forces to conquer nations in their quest for global domination they re neutralizing individuals and groups of resisters who live among the people To do this they have recruited a major portion of the civilian population which is used as a surrogate force to persecute those who have been identified as enemies As part of the same agenda the security forces are conducting psychological operations on civilians and torturing them with directed energy weapons The entire operation is in service to some very wealthy psychopaths who rule our society as part of a global revolution intended to result in a planetary dictatorship known as the New World Order

The New Heretics Andy Thomas, 2021-12-14 This is the most balanced and well reasoned investigation available into why people believe today s highly divisive conspiracy theories from COVID and QAnon to 5G scares fake news and more Through their part in some huge controversies conspiracy theorists are being branded the Number One Enemies of our times the new heretics They are seen to threaten the very fabric of modern society spreading doubts and fears that result in Washington Capitol invasions transmission mast burnings or the spread of anti vaxx material Yet the theorists prefer to call themselves truth seekers and see the mainstream establishment as the real disruptor treating its increasingly harsh censorship as direct validation of their views In truth the new heretics whose numbers are swelling are symptoms of a wider polarization splitting apart much of the world in ideological divisions Many have lost trust in politicians and the media while nuanced debate is crushed and information overload and manipulation breeds uncertainty civil unrest and mental health issues How does the age old strategy of divide and rule play out in such an environment Using his extensive experience of negotiating disputes between cynics and truth seekers Andy Thomas explores the proliferation of conspiracy thinking peeling back unhelpful layers of biased thinking on all sides to find more insightful ways to bridge the polarised divides and create a better way forward

Conspiracies Andy Thomas, 2019-12-10 At any time in our history you will find significant and seemingly indisputable events occurring the kind that can change the course of our lives the assassination of President John F Kennedy the terrorist attacks of 9 11 Yet for every one of them somebody somewhere will loudly dispute the official account doubting that the truth has been told In today s environment with trust in authorities at an all time low conspiracy theories have found a new currency and websites and social networking ensure they receive a wider and more rapid spread than ever before But how do we separate truth from imagination Was Princess Diana murdered as many people think despite all the official denials Did NASA really go to the Moon when anomalies in the photographic record suggest otherwise Could 9 11 really have been set up by agencies within the USA itself The Kindle edition includes an update on all the conspiracy theories that have emerged in the wake of the Coronavirus pandemic The author opens the conspiracy casebook by examining the mindset of those who believe in conspiracies and considers whether the dismissive attitude towards them has been fair Part Two looks into history to establish that conspiracies do occur credibility should therefore be given to belief in some of the alleged plots

and cover ups of today This leads into a well argued examination of some of the most popular conspiracies of our times including theories over assassinations UFO cover ups and widely voiced concerns over 9 11 and the New World Order Part Three draws the conclusion that while not all conspiracy theories can be proven they do at least draw attention to paths not to take and can be valuable in helping to create a better world where new trust and hope can be forged Are we living in a world of control of oppression of habitual deception Is this really how things are or simply human nature massively distorted through a dark lens The truth probably lies somewhere in the middle
