**Sudden arrhythmic death: from basic science to clinical practice** Gareth D. Matthews, 2014-10-02 With upwards of 4 5 million deaths worldwide each year and more than one tenth of these occurring in those with no previously documented heart disease sudden arrhythmic death SAD is both a major public health burden and a highly emotive issue for society at large Recent years have witnessed a marked expansion in our knowledge of the physiology underlying SAD both in the context of hereditary and acquired cardiac disorders Thanks largely to work in genetically modified animals the growth in our understanding of mechanisms underlying arrhythmia in the hereditary channelopathies has been particularly marked Our growing knowledge of the fundamental mechanisms underlying SAD has so far failed to spur substantial developments in clinical practice Despite a large body of work in both humans and animals it remains impossible to confidently identify those at high risk of SAD making pre emptive therapy a challenge What is more with the thankful exception of the implantable cardioverter defibrillators and pharmacological agents in very specific situations there has been depressingly little progress in finding new and effective therapies This Research Topic aims to go some way towards bridging the gap between advances in basic science and the development and delivery of new therapies It brings together original research contributions and review articles from key opinion leaders in the field focusing on the direct clinical implications of the basic science research now and in the future *Push Button Agriculture* K. R.

Krishna, 2017-03-16 This book covers three main types of agricultural systems the use of robotics drones unmanned aerial vehicles and satellite guided precision farming methods Some of these are well refined and are currently in use while others are in need of refinement and are yet to become popular The book provides a valuable source of information on this developing field for those involved with agriculture and farming and agricultural engineering The book is also applicable as a textbook for students and a reference for faculty [COMPLETE COURSE for employment on Offshore Drilling Platforms](#)

where you may apply for a job      *Editing for the Digital Age* Thom Lieb, 2015-01-14 A practical hands on guide providing editors and journalists with the tools necessary to ensure that published material is accurate readable and complete

Caves and Karst Across Time Yongli Gao, E. Calvin Alexander Jr., 2016-01-28 Knowledge and understanding of cave and karst systems have evolved dramatically since the creation of the Geological Society of America in 1888 This book which came out of a session during GSA's 2013 Annual Meeting highlights the changes in the study and application of cave and karst systems since GSA's origin while looking ahead to future advancements      *The Action Plan for Australian Mammals 2012* Andrew Burbidge, John Woinarski, Peter Harrison, 2014-06-02 The Action Plan for Australian Mammals 2012 is the first review to assess the conservation status of all Australian mammals It complements The Action Plan for Australian Birds 2010 Garnett et al 2011 CSIRO Publishing and although the number of Australian mammal taxa is marginally fewer than for birds the proportion of endemic extinct and threatened mammal taxa is far greater These authoritative reviews represent an important foundation for understanding the current status fate and future of the nature of Australia This book considers all species and subspecies of Australian mammals including those of external territories and territorial seas For all the mammal taxa about 300 species and subspecies considered Extinct Threatened Near Threatened or Data Deficient the size and trend of their population is presented along with information on geographic range and trend and relevant biological and ecological data The book also presents the current conservation status of each taxon under Australian legislation what additional information is needed for managers and the required management actions Recovery plans where they exist are evaluated The voluntary participation of more than 200 mammal experts has ensured that the conservation status and information are as accurate as possible and allowed considerable unpublished data to be included All accounts include maps based on the latest data from Australian state and territory agencies from published scientific literature and other sources The Action Plan concludes that 29 Australian mammal species have become extinct and 63 species are threatened and require urgent conservation action However it also shows that where guided by sound knowledge management capability and resourcing and longer term commitment there have been some notable conservation success stories and the conservation status of some species has greatly improved over the past few decades The Action Plan for Australian Mammals 2012 makes a major contribution to the conservation of a wonderful legacy that is a significant part of Australia's heritage For such a legacy to endure our society must be more aware of and empathetic with our distinctively Australian environment and particularly its marvellous mammal fauna relevant information must be readily accessible environmental policy and law must be based on sound evidence those with responsibility for environmental management must be aware of what priority actions they should take the urgency for action and consequences of inaction must be clear and the opportunity for hope and success must be recognised It is in this spirit that this account is offered      **The Local Configuration of New Research Fields** Martina Merz, Philippe Sormani, 2015-10-27 This new Yearbook addresses the question of how policy place and organization are made

to matter for a new research field to emerge Bringing together leading historians sociologists and organizational researchers on science and technology the volume answers this question by offering in depth case studies and comparative perspectives on multiple research fields in their nascent stage including molecular biology and materials science nanotechnology and synthetic biology The Yearbook brings to bear the lessons of constructivist ethnography and the practice turn in Science and Technology Studies STS more broadly on the qualitative comparative and critical inquiry of new research fields In doing so it offers unprecedented insights into the complex interplay of national research policies regional clusters particular research institutions and novel research practices in and for any emerging field of techno science It systematically investigates national and regional differences including the variable mobilization of such differences and probes them for organizational topicality and policy relevance

*Liberal Solidarity* Hodgson, Geoffrey M.,2021-08-27 The twenty first century has seen major challenges to freedom and democracy Authoritarianism is on the rise and democracy is in retreat Some promote individualism and markets as the solution to almost every problem On the other side there are those who champion collectivism and full public ownership Neither side is convincing Unrestrained capitalism has exacerbated inequality Socialism in practice has ended democracy Effective defenders of liberty and human flourishing must find a different course This book argues for a pragmatic social democratic liberalism that avoids unrealistic extremes and tackles major problems such as inequality and climate change

**The Voice of Public Theology** Ted Peters,2022-11-07 Public theologians are already thundering like prophets at climate change and racial injustice But the gale force winds of natural science blow through society as well The public theologian should be on storm watch

**Botrytis - the Fungus, the Pathogen and its Management in Agricultural Systems** Sabine Fillinger,Yigal Elad,2015-12-16 The fungal genus Botrytis is the focus of intensive scientific research worldwide The complex interactions between this pathogen and the plants it infects and the economic importance of the diseases caused by Botrytis principally grey mould on more than 1400 species of cultivated plants pre and post harvest render this pathogen of particular interest to farmers advisers students and researchers in many fields worldwide This 20 chapter book is a comprehensive treatise covering the rapidly developing science of Botrytis and reflecting the major developments in studies of this fungus It will serve as a source of general information for specialists in agriculture and horticulture and also for students and scientists interested in the biology of this fascinating multifaceted phytopathogenic fungal species
