Sulfur-Centered Reactive Intermediates in

Chemistry and Biology C. Chatgililoglu,Klaus-Dieter Asmus,2013-03-08 A wonderfully successful NATO Advanced Study Institute on Sulfur Centered Reactive Intermediates in Chemistry and Biology was held 18 30 June 1989 at the Hotel Villa del Mare in Maratea Italy Despite the beautiful setting with mountains behind us and over looking the clear blue Mediterranean Sea under a cloudless sky and with a private beach available the lectures were extremely well attended While some credit can go to the seriousness of the students more must go to the calibre of speakers and the high quality of C Chatgililoglu and Co Director Professor K D their presentations The Director Dr Asmus are to be congratulated for putting together such an outstanding scientific program Dr Chatgililoglu is also to be commended for arranging an equally stimulating social program which included bus train and boat trips to many local sites of interest It was particularly fitting that a meeting on the chemistry and biochemistry of sulfur should be held in Italy since Italian chemists have made major contributions to our understanding of the organic chemistry of sulfur including the chemistry of its reactive intermediates The early Italian interest in sulfur chemistry arose from the fact that Italy or more specifically Sicily was a major world producer of sulfur prior to the development and exploitation of the Frasch process in Texas and Louisiana
