E. Braun, 2017-12-06 Molecular chaperones or heat shock proteins HSPs play essential roles in safeguarding structural stability and preventing misfolding and aggregation of proteins and maintaining the proteome functionality in the cell. For over two decades until the present time new functions have been discovered and several molecular mechanisms have been elucidated for many chaperones while the field is being continuously challenged by new open questions. Probably as a consequence of the increasing research on the molecular bases of neurodegenerative diseases and the realisation that many such disorders are linked to protein misfolding processes, unleashing the roles and mechanisms of chaperones in the context of neurodegeneration has become a prime scientific goal. This e-book contains a diversity of reviews, perspective and original research articles highlighting the importance and potential of this emerging subject. Though much more compact the Concise Edition nevertheless provides substantial choice offering both a strong selection of canonical authors and a sampling of lesser known works. With an unparalleled selection of illustrations and of contextual materials, accessible and engaging introductions and full explanatory annotations, these volumes provide concise yet extraordinarily wide ranging coverage for British Literature survey courses. New to this volume are Samuel Beckett's *Endgame* and Robert Louis Stevenson's *Strange Case of Dr Jekyll and Mr Hyde*; new authors include Dorothy Wordsworth, John Clare, Tomson Highway, Derek Walcott and Chimamanda Ngozi Adichie. The third edition now also offers substantially expanded representation of Irish, Scottish and Welsh literatures as well as contextual materials on Gothic literature, Modernism and World War II. Material that no longer appears in the bound book may in most cases be found on the companion website; many larger works are also available in separate volumes that may at the instructor's request be bundled together with the anthology at no extra cost to the student. **Features New to the Third Edition** New longer texts including Dickens's performance reading of *David Copperfield*, Gaskell's *The Manchester Marriage*, Stevenson's *Strange Case of Dr Jekyll and Mr Hyde* and Beckett's *Endgame*. New short selections from longer works including Eliot's *Middlemarch*, Shelley's *Frankenstein*, Barrett Browning's *Aurora Leigh* and Tennyson's *In Memoriam A. H.
