*Being a Black Springbok* Sibusiso Mjikeliso,2018-07-01 Thando Manana was the third black African player to don a Springbok jersey after unification in 1992 when he made his debut in 2000 in a tour game against Argentina A His route to the top of the game was unpredictable and unusual From his humble beginnings in the township of New Brighton Port Elizabeth Thando grew to become one of the grittiest loose forwards of South African rugby despite only starting the game at the age of 16 His rise through rugby ranks while earning a reputation as a tough tackling lock and later open side flanker was astonishingly rapid especially for a player of colour at the time Within two years of picking up a rugby ball he represented Eastern Province at Craven Week and by 2000 he was a Springbok But it isn't solely Thando's rugby journey that makes *Being a Black Springbok* a remarkable sports biography It's learning how he has negotiated life's perils and pitfalls which threatened to derail both his sporting ambitions and the course of his life He had to negotiate an unlikely but fateful kinship with a known Port Elizabeth drug lord who took Thando under his wing when he was a young gullible up and comer at Spring Rose Rejected by his father early in his life Thando had to deal with a sense of abandonment and a missing protective figure and find along the way people to lean on Thando tells his story with the refreshing candour he has become synonymous with as a rugby commentator pundit and member of the infamous Room Dividers team on Metro FM He has arguably become rugby's strongest advocate for the advancement of black people's interests in the sport and his personal journey reveals why

*The Politics of Housing in (Post-)Colonial Africa* Kirsten Rüther, Martina Barker-Ciganikova, Daniela Waldburger, Carl-Philipp Bodenstein, 2020-06-08 Housing matters no matter when or where This volume of collected essays on housing in colonial and postcolonial Africa seeks to elaborate the how and the why Housing is much more than a living everyday practice It unfolds in its disparate dimensions of time space and agency Context dependent it acquires diverse often ambivalent meanings

Housing can be a promise an unfulfilled dream a tool of self and class assertion a negotiation process or a means to achieve other ends Our focus lies in analyzing housing in its multifacetedness be it a lens to offer insights into complex processes that shape societies be it a tool of empire to exercise control over private relations of inhabitants or be it a means to create good obedient and productive citizens Contributions to this volume range from the field of history to architecture and urban planning African Studies linguistics and literature The individual case studies home in on specific aspects and dimensions of housing and seek to bring them into dialogue with each other By doing so the volume aims to add to the vibrant academic debate on studying urban practices and their significance for current social change

*Changing the Course of AIDS* David Dickinson, 2011-03-15 *Changing the Course of AIDS* is an in depth evaluation of a new and exciting way to create the kind of much needed behavioral change that could affect the course of the global health crisis of HIV AIDS This case study from the South African HIV AIDS epidemic demonstrates that regular workers serving as peer educators can be as or even more effective agents of behavioral change than experts who lecture about the facts and so called appropriate health care behavior After spending six years researching the response of large South African companies to the epidemic that is decimating their workforce as well as South African communities David Dickinson describes the promise of this grassroots intervention workers educating one another in the workplace and community and the limitations of traditional top down strategies Dickinson's book takes us right into the South African workplace to show how effective and yet enormously complex peer education really is We see what it means when workers directly tackle the kinds of sexual gender religious ethnic and broader social and political taboos that make behavior change so difficult particularly when that behavior involves sex and sexuality Dickinson's findings show that people who are not officially health care experts or even health care workers can be skilled and effective educators In this book we see why peer education has so much to offer societies grappling with the HIV AIDS epidemic and why those interested in changing behaviors to ameliorate other health problems like obesity alcoholism and substance abuse have so much to learn from the South African example
