**Pitch It!** Dev Prasad, 2013-10-15 Pitch It is an innovative and delightful book consisting of enthralling anecdotes linking top cricketers and corporate moguls that will act as a catalyst for professionals to soar to top echelons in their respective fields. Peppered with fascinating case studies from an eclectic spectrum of industries ranging from IT Consumer Goods Automotive Aerospace Banking Petrochemicals and Food Beverages Pitch It provides the essential blueprint for creating and sustaining winning organizations. Pitch It is a great compilation of winning strategies. Greatly enjoyed following winning habits through the lenses of two different arenas. I love K Srinivas President Consumer Business Bharti Airtel Limited. A great assembly of vignettes of the game and its relevance in business. Loved each chapter. Makes you want to go back to it each time. Unputdownable. S V Nathan Director Deloitte. Pitch It has a foreword by Kiran Mazumdar Shaw and epilogue by former Indian cricketer coach Venkatesh Prasad. Dev Prasad's debut book KRISHNA A Journey Through the Lands Legends of Krishna was longlisted for 2010 Vodafone Crossword Award.

**Ultra-Large Aircraft, 1940-1970** William Patrick Dean, 2018-04-24 In 1962 a unique transport aircraft was built from the parts of 27 Boeing B 377 airliners to provide NASA a means of transporting rocket boosters. With an interior the size of a gymnasium The Pregnant Guppy was the first of six enormous cargo planes built by Aero Spacelines and two built by Union de Transport Aeriens. More than half a century later the last Super Guppy is still in active service with NASA and the design concept has been applied to next generation transports. This comprehensive history of expanded fuselage aircraft begins in the 1940s with the military's need for a long range transport. The author examines the development of competing designs by Boeing Convair and Douglas and the many challenges and catastrophic failures. Behind the scenes maneuvers of financiers corporate raiders mobsters and other nefarious characters provide an inside look at aviation development from the drawing board to the scrap yard.

**The Last of NASA's Original Pilot Astronauts** David J. Shayler, Colin Burgess, 2017-06-19 Resulting from the authors deep research into these two pre Shuttle astronaut groups many intriguing and untold stories behind the selection process are revealed in the book. The often extraordinary backgrounds and personal ambitions of these skilled pilots chosen to continue NASA's exploration and knowledge of the space frontier are also examined. In April 1966 NASA selected 19 pilot astronauts whose training was specifically targeted to the Apollo lunar landing missions and the Earth orbiting Skylab space station. Three years later following the sudden cancellation of the USAF's highly classified Manned Orbiting Laboratory MOL project seven military astronauts were also co-opted into NASA's space program. This book represents the final chapter by the authors in the story of American astronaut selections prior to the era of the Space Shuttle. Through personal interviews and original NASA documentation readers will also gain a true insight into a remarkable age of space travel as it unfolded in the late 1960s and the men who flew those historic missions.

**Shattered Dreams** Colin Burgess, 2019-05-01 Shattered Dreams delves into

the personal stories and recollections of several men and women who were in line to fly a specific or future space mission but lost that opportunity due to personal reasons mission cancellations or even tragedies While some of the subjects are familiar names in spaceflight history the accounts of others are told here for the first time Colin Burgess features spaceflight candidates from the United States Russia Indonesia Australia and Great Britain Shattered Dreams brings to new life such episodes and upheavals in spaceflight history as the saga of the three Apollo missions that were cancelled due to budgetary constraints and never flew NASA astronaut Patricia Hilliard Robertson who died of burn injuries after her airplane crashed before she had a chance to fly into space and a female cosmonaut who might have become the first journalist to fly in space Another NASA astronaut was preparing to fly an Apollo mission before he was diagnosed with a disqualifying illness There is also the amazing story of the pilot who could have bailed out of his damaged aircraft but held off while heroically avoiding a populated area and later applied to NASA to fulfill his cherished dream of becoming an astronaut despite having lost both legs in the accident These are the incredibly human stories of competitive realists fired with an unquenchable passion Their accounts reveal in their own words and those of others close to them how their shared ambition would go awry through personal accidents illness the Challenger disaster death or other circumstances

Parliamentary Debates New Zealand. Parliament, 1969 Trout Country Bob Saile, 1999 After more than 25 years as Outdoor Editor of the Denver Post Bob Saile has countless opinions and stories to share on the allure and adventure of trout streams and fly fishing He serves up a compelling collection with most of the essays set in the West This is trout country the fish the flies the people and the places In his essay Heavy Hitters Saile recalls as a boy reading an article by Joe Brooks about catching a brown trout on southwestern Montana's Big Hole River For Saile it was as if he was there He experienced landing the trout as well as feeling a kinship with the writer You will get the same feeling reading this lively collection which takes the reader from the South Platte to the Gunnison to the Pacific Northwest and the wilds of Alaska The fight carries out into the main current and the

brown jumps in that wild absolutely reckless way that browns have early in the fight and I see it is a rather modest size fish maybe 13 inches It looks good though Really good Moments later I have its black and red spotted side flashing back at me in the glint of water reflected sunlight and I extract the fly from the top jaw and slide the fish out of my hand into the flow The first surface take trout of the summer is in the books and this pleases me The rest will be in the gravy category now And I know there will be more to come because the river and the day have that look that feel The essays range from describing a bracing morning of ice fishing in Colorado to the thrill of stalking an Alaskan salmon to thoughts on fish management and its attendant bureaucracy In Saile's conversations with other anglers some well known some not but all of whom teach the author something about fishing and himself If you care about rivers trout salmon steelhead and fishing in general this veteran writer and angler makes for a fascinating companion For Saile the core difference between those who don't fish and those of us who do is as simple as this We who do fish are especially blessed

criação vs. Evolução, o que era antes do que conhecemos? Frederick Guttman, Amante da paleontologia há quase duas décadas comecei a encontrar muitas falhas na teoria da evolução As coisas que estudei e descobri não correspondiam às alegações dos evolucionistas e havia cada vez mais inconsistências inconsistências e até mesmo mentiras descaradas que encontrei A que se deveu isso Por que haveria interesse em manipular o registro paleontológico Quem ganha algo com isso Paleontologia é a ciência que estuda os registros fósseis ou seja a vida pré-histórica E embora esse tenha sido meu início na pesquisa para este livro também encontrei uma teia de enganos na arqueologia Que sentido faria mentir para nós também com a evidência dos processos históricos dos povos do passado Minha mente se iluminou quando soube que a Maonária e as instituições Rockefeller estavam por trás disso Naquela época eu sabia pouco sobre a Maonária e sobre esses tipos de famílias oligárquicas Descobri que a Maonária lutava há cerca de 250 anos para tirar o poder da Igreja Católica e pretendia reescrever a história da origem do homem Foi precisamente Erasmus Darwin o tio de Charles Darwin quem como peso pesado da loja Canongate Kilwinning em Edimburgo fundada em 1677 pressionou pelo financiamento do evolucionismo Agora por outro lado a versão ocidental conhecida da religião afirma que o mundo surgiu em 6 dias e homem e mulher saíram da lama que um deus os criou Ironicamente essa versão dos acontecimentos também não correspondia aos registros pois denotava mais uma metáfora representativa do que um fato literal Então me deparei com duas inconsistências e a única coisa que parecia real era a teoria da Panspermia Dirigida amplamente defendida pelo astrônomo real Sir Fred Hoyle mas proposta pela primeira vez pelo ganhador do Prêmio Nobel de Química Svante Arrhenius criação vs A evolução experimental e a grande falácia da teoria da evolução do prisma da matemática paleontologia as leis da física o princípio do determinismo genético química biologia e arqueologia Ele cita grandes figuras da ciência e cita o próprio Charles Darwin que refuta o processo esporádico em que uma criatura se tornaria superior por acaso ou influências ambientais Prova que os defensores do darwinismo e da evolução manipularam os estratos os ossos e os registros para esconder a verdade e mentir
