Mittelman, 2020-08-04 Why the paradigm of the world class university is an implausible dream for most institutions of higher education Universities have become major actors on the global stage Yet as they strive to be world class institutions of higher education are shifting away from their core missions of cultivating democratic citizenship fostering critical thinking and safeguarding academic freedom In the contest to raise their national and global profiles universities are embracing a new form of utilitarianism one that favors market power over academic values In this book James Mittelman explains why the world class university is an implausible dream for most institutions and proposes viable alternatives that can help universities thrive in today's competitive global environment Mittelman traces how the scale reach and impact of higher education institutions expanded exponentially in the post World War II era and how the market led educational model became widespread Drawing on his own groundbreaking fieldwork he offers three case studies

the United States which exemplifies market oriented educational globalization Finland representative of the strong public sphere and Uganda a postcolonial country with a historically public but now increasingly private university system Mittelman shows that the world class paradigm is untenable for all but a small group of wealthy research intensive universities primarily in the global North Nevertheless institutions without substantial material resources and in far different contexts continue to aspire to world class stature An urgent wake up call Implausible Dream argues that universities are repurposing at the peril of their high principles and recommends structural reforms that are more practical than the unrealistic worldwide measures of excellence prevalent today

Becoming an African University Carol Sicherman, 2005 For four decades Makerere University known as the Oxford of Africa was the sole university level institution in all of East Africa A fabled Mecca for aspiring youth it trained many of the region's first generation of intellectual and political leaders including the present presidents of Kenya and Tanzania It remains one of Africa's most important universities today As one of the first comprehensive look at an African university this book tells the story of Makerere's colonial beginnings its efflorescence during the 1950s and 1960s its calamitous decline during nearly two decades of tyranny and civil war and its resurgence following the restoration of peace and relative stability
