All too often Africa is associated with famine but in *Stirring the Pot* James C. McCann describes how the ingredients, the practices and the varied tastes of African cuisine comprise a body of historically gendered knowledge practiced and perfected in households across diverse human and ecological landscape. McCann reveals how tastes and culinary practices are integral to the understanding of history and more generally to the new literature on food as social history. *Stirring the Pot* offers a chronology of African cuisine beginning in the sixteenth century and continuing from Africa's original edible endowments to its globalization. McCann traces cooks' use of new crops, spices and tastes including New World imports like maize, hot peppers, cassava, potatoes, tomatoes and peanuts as well as plantain, sugarcane, spices, Asian rice and other ingredients from the Indian Ocean world. He analyzes recipes not as fixed, ahistorical documents but as lively and living records of historical change in women's knowledge and farmers' experiments. A final chapter describes in sensuous detail the direct connections of African cooking to New Orleans jambalaya, Cuban rice and beans and the cooking of African Americans' soul food. *Stirring the Pot* breaks new ground and makes clear the relationship between food and the culture, history and national identity of Africans.

No Holiday Martin Cohen, 2006-06-01 In this first Disinformation Travel Guide Martin Cohen visits exotic locations 80 of them but with a different aim than the usual travel book: to seek out the suffering and injustices, not to skirt them. We will see the dark red waters of Murdering Creek in Australia, silent testament to the ongoing genocide of the world's oldest people; we will visit the olive groves of Palestine where the helicopter gunships of the Israeli Army patter by like so many gigantic marauding insects; and we will queue up to see not museums and art galleries but the more sinister monuments of politics like the academy of terror funded by the CIA at Fort Benning in Georgia or the poisoned shores of the Aral Sea revealing an abandoned biological warfare center. We will visit not the great sights but the great sores: the forever cursed cities of Hiroshima and Nagasaki where so many died as Churchill might have said for so little. We'll enter the no man's lands of the demilitarized zones of past conflicts between North and South Korea, between Syria and Israel, even between Catholic and Protestants in Northern Ireland.

Vita e cultura degli ultimi villaggi tribali d'Etiopia Carlo Pancera, 2021-02-22 00:00:00+01:00 Nella valle del fiume Omo ai confini dell'Etiopia vivono sedici minoranze etniche che hanno avuto ben scarsi cambiamenti nel corso della loro storia. L'autore ha cercato di non dare solamente un carnet di viaggio e nemmeno una mera descrizione come negli assetti rapporti etnografici ma di prestare attenzione alle dinamiche sociali in una prospettiva diacronica e storica accennando alle correnti interne a quelle culture e alle incipienti critiche e trasformazioni in atto e dunque rendendo la dimensione della complessità delle modifiche di mentalità.

Understanding Ethiopia's Tigray War Martin Plaut, Sarah Vaughan, 2023-02-16 The war in Ethiopia's northern region of Tigray began in November 2020. It inflicted more casualties than any other contemporary conflict in the world. It has also been among the least understood. The fighting and accompanying blockade led to an estimated 600,000 deaths, more than the number who

died in the 1984-5 famine. International journalists were banned as the region was sealed off from the outside world by Ethiopian and Eritrean governments prosecuting a strategy designed to crush Tigray at almost any cost. Hatred of Tigrayans was stoked by senior advisers to Ethiopia's Prime Minister Abiy Ahmed; they have called Tigrayans weeds who must be uprooted, their place in history extinguished. Their language was reminiscent of that which preceded the genocide in Rwanda. The war was also orchestrated by Eritrea's President Isaias Afwerki, who came to wield increasing influence over Ethiopian affairs. It drew in Somali troops as well as Eritrean forces. Peace agreements signed in November 2022 ended the worst of the violence but without resolving the war's underlying drivers, which continue to feed a tense and uncertain situation. This book provides the first clear explanation of the factors that led to the conflict, unravelling their roots in Ethiopia's long and complex history. It describes the battles that were fought at such terrible cost and the immense suffering, particularly of women who were brutally abused.

Ethiopia Philip Briggs, Brian Blatt, 2009. While the world taps its feet, Ethiopia breakdances with its shoulders. This is an uplifting, inspirational country which confounds expectations. It's no featureless desert but a land of majestic landscapes surrounding a vast fertile plateau. The rock-hewn churches in its medieval capital, Lalibela, are regarded by many as the eighth wonder of the world. Its people are welcoming, proud and besotted by their own culture and history. Bradt's Ethiopia is the most thorough guide available to this country, rich in culture, history and dramatic scenery, and has been highly praised by both travel press and readers. Thorough and reassuring, it provides all the practical and background information to make readers leap from their armchairs and visit this vast magical country. The Daily Telegraph, UK.
