

BUILT TO DO JUST ONE THING. WIN.

In motocross, only one thing counts. Results. And Suzuki leads the way with more World Championships than any one else.

RM80 The new, 1986 RM80 is a full-blown, high-tech racer with advanced big-bike features in a smaller package.

Start with a hot, liquid-cooled, Power Reed engine, flat-top piston, a big carburetor and a tough, six-speed transmission. Together, they produce the high torque and sizzling horsepower that can turn you into a first-place contender.

Laying down this power is a new Full Floater rear suspension with eccentric-cam action for better control. And the air-adjustable front suspension matches the rear with a whopping 12.4 inches of travel. Add in the powerful front disc brake and you've got a combination that knows the fast line to the winner's circle.

RM125 Suzuki has claimed ten straight 125 World Motocross Championships. Look at the new 1986 RM125 and see why.

The RM125's unmatched handling starts with a new, incredibly rigid oval-section frame. Now add in Suzuki's proven Full Floater rear suspension with new eccentric-cam action and an incredible 12.4 inches of wheel travel. There's also a new air-adjustable fork with 8 compression damping adjustments and 11.8 inches of travel.

Fire up the engine and discover more torque, acceleration and top end power than ever. The liquid-cooled Power Reed engine features an automatic exhaust control system to broaden the powerband. Couple this with the RM's flat-top piston design, responsive flat-slide carburetor and six-speed transmission and you've got a combination that'll launch you right to the front of the pack.

RM250 Designed as the ultimate competition machine from Novice to Pro, the exciting new 1986 Suzuki RM250 is guaranteed to make the competition take notice.

Take notice of its power, for example. Power that comes from a new, liquid-cooled, reed-valve engine with flat-top piston design and an automatic exhaust control valve for better power all around.

To handle all this power, there's a brand-new frame with rigid, oval-section tubing. In back, we gave our famed Full Floater suspension 12.4 inches of travel and new, eccentric-cam action for a better ride and even more control. And the 11.8 inch-travel air-adjustable forks

feature 8 compression damping adjustments and a smooth, powerful front disc brake.

From the lightning quick RM80 to the world dominating RM125 to the hard charging RM250, Suzuki builds the fastest, best-handling, most technologically-advanced motocrossers in the world. And we build them to do just one thing. To WIN!

The new RM80 is the best performing mini motocrosser with the big bike features and feel.
