

SOME SLEDS TURN HEADS, SOME TURN CORNERS, ONE DOES BOTH.

Some make only you and the Cat know how to handle. And the Cat you need to handle those tracks in Cougar. A 30" wide skid plate gives the snowmobile the kind of corner handling that makes our every short cut in the path.

Up front, Cougar's good looks are more good news. The sleek head has integrated air ducts for superior cooling, built-in head lights and a special grille that helps deliver snow out of your line of vision. But best of all, the design gives Cougar the kind of low front appearance that few others will forget when it goes ripping past.

They say looks count everything, and in Cougar's case, they're right. Because underneath that bullet-shaped hood and a plenty of muscle. A full 300 cc of four-valve glory are needed results.

All of that power is riding on one of the best suspension systems in snowmobiling. Outriggers of the big AFT Sport suspension now have a standard swing-bar Working in unison with the long travel rear suspension, it smooths out the bumps and potholes. With a ride like that, Cougar can even take up on the tracks that haven't been groomed.
