US National Security Sam Charles Sarkesian, John Allen Williams, Stephen J. Cimbala, 2008 Abstract

Building Militaries in Fragile States Mara E. Karlin, 2017-12-08 Combining rigorous academic scholarship with the experience of a senior Pentagon policymaker Mara E Karlin explores the key national security issue of our time how to effectively build partner militaries Given the complex and complicated global security environment declining U S defense budgets and an increasingly connected and often unstable world the United States has an ever deepening interest in strengthening fragile states Particularly since World War II it has often chosen to do so by strengthening partner militaries It will continue to do so Karlin predicts given U S sensitivity to casualties a constrained fiscal environment the nature of modern nationalism increasing transnational security threats the proliferation of fragile states and limits on U S public support for military interventions However its record of success is thin While most analyses of these programs focus on training and equipment *Building Militaries in Fragile States* argues that this approach is misguided Instead given the

nature of a fragile state Karlin homes in on the outsized roles played by two key actors the U S military and unhelpful external actors With a rich comparative case study approach that spans Europe Asia and the Middle East Karlin unearths provocative findings that suggest the traditional way of working with foreign militaries needs to be rethought Benefiting from the practical eye of an experienced national security official her results based exploration suggests new and meaningful findings for building partner militaries in fragile states **America, the Vietnam War, and the World** Andreas W.

Daum,Lloyd C. Gardner,Wilfried Mausbach,2003-07-14 Publisher s description This book presents new perspectives on the Vietnam War its global repercussions and the role of this war in modern history The volume reveals America s War as an international event that reverberated all over the world in domestic settings of numerous nation states combatants and non combatants alike as well as in transnational relations and alliance systems The volume thereby covers a wide geographical range from Berkeley and Berlin to Cambodia and Canberra The essays address political military and diplomatic issues no less than cultural and intellectual consequences of Vietnam The authors also set the Vietnam War in comparison to other major conflicts in world history they cover over three centuries and develop general insights into the tragedies and trajectories of military conflicts as phenomena of modern societies in general For the first time America s War is thus depicted as a truly global event whose origins and characteristics deserve an interdisciplinary treatment *Parameters* ,1990

Reconsidering Sputnik Roger D. Lanius,John M. Logsdon,Robert W. Smith,2013-05-13 This book explores Russia s stunning success of ushering in the space age by launching Sputnik and beating the United States into space It also examines the formation of NASA the race for human exploration of the moon the reality of global satellite communications and a new generation of scientific spacecraft that began exploring the universe An introductory essay by Pulitzer Prize winner Walter A McDougall sets the context for Sputnik and its significance at the end of the twentieth century **The Department of**

power has been subjected to extensive analysis since September 11 2001 While there is no consensus on the state of US hegemony or even on the precise meaning of the term it is clear that under George W Bush the US has not only remained the

lone superpower but has increased its global military supremacy At the same time the US has become more dependent on its economic financial and geopolitical relationships with the rest of the world than at any other time in its history markedly since the events of 9 11 The distinguished scholars in this volume critically interpret US hegemony from a range of theoretical and topical perspectives They discuss the idea of empire in the age of globalization critique the Bush doctrine analyze the ideologies underpinning a new American imperialism and examine the influence of neo conservatism on US foreign and domestic policy

Embracing Communist China James Fanell,Bradley Thayer,2024-03-12 For decades the United States has underestimated the threat from the People s Republic of China PRC In doing so it has left our country vulnerable to their devious plans a profound strategic miscalculation As a result of this carelessness the United States is at risk of losing its dominant position in global politics But how did this happen How was it possible that the US could lose its dominant position after its Cold War victory and allow the rise of a peer enemy over a short period of time about thirty years In *Embracing Communist China* authors James E Fanell and Bradley A Thayer get to the bottom of this heinous miscalculation Broken down into three central arguments Fanell and Thayer lay out not only the reason for China s rise in power but how the United States could have prevented it Due to failures on the parts of the national security commission strategists military personnel and the intelligence community a historical case of threat deflation caused our country to refute all supplied information of China s growing power By not taking this seriously the PRC has risen with the goal of usurping the US as a global superpower US business interests and financiers trumped strategy Seeing China as a source of cheap labor for manufacturing investment and intellectual labor including for research and development the mighty dollar s influence reigned supreme overlooking the big picture With their advancements China used its political warfare strategy to promote threat deflation under Deng Xiaoping As such the PRC learning key lessons from the Soviet Union s mistakes in the Cold War focused on elites from all aspects of US and other Western societies enriching them and shaping their perception of China and of Chinese Communist Party CCP while using the enticement of a growing market to influence their behavior As Americans we can no longer think of China as a secondary power but one that is looking to remove the US as the most powerful country in the world By understanding the profound strategic failures made by the US are we able to correct them and so defeat the PRC as we did the Soviet Union
