Randall Bollinger, Alfred E. Chang, Stephen F. Lowry, 2012-12-06 had a dream My dream was to assemble the current and future leaders in surgery and ask them to develop an evidence based surgical textbook that would provide the reader with the most up to date and relevant information on which to base decisions in modern surgical practice In other words the dream was to create the best most comprehensive

textbook of surgery Fortunately I met Laura Gillan of Springer Verlag New York who had a similar dream As our editor she has provided the foundation and structure for this dream She has made this dream a reality Because surgery is a highly specialized and diverse discipline with significant complexity I also needed a commitment from outstanding surgeons to serve as coeditors I was fortunate to have a diverse group of exceptional young energetic cutting edge surgical investigators share in this project and I wish to thank them for their invaluable contribution to this undertaking The Editorial Board including Randy Bollinger Fred Chang Steve Lowry Sean Mulvihill Harvey Pass and Robert Thompson met for the first time at the American College of Surgeons meeting in Chicago in October 1997 Fig 1 There this book was conceived Each of us developed the plan and content for his specific surgical discipline The common thread is that all decisions and recommendations are based on the best available evidence and that the reader can clearly see the evidence in our Evidence based tables specifically marked for the reader's reference

Good Tuberculosis Men Carol R. Byerly, 2013 In 1917 as the United States prepared for war in Europe Army Surgeon General William C Gorgas recognized the threat of Mycobacterium tuberculosis to American troops What the Army needed was some good tuberculosis men Despite the efforts of the nations best tuberculosis men the disease would become a leading cause of World War I disability discharges and veterans benefits The fact that tuberculosis patients often experienced cycles in which they recovered their health and then fell ill again challenged government officials to judge the degree to which a person was disabled and required government care and support This book tracks the impact of tuberculosis on the US Army from the late 1890s when it was a ubiquitous presence in society to the 1960s when it became a curable and controllable disease **American Publishers' Circular and Literary Gazette** ,1861 *Revolutionary Surgeons* Per-Olof

Hasselgren, 2021-10-12 *Revolutionary Surgeons* offers an integrated picture of surgeons as political and military leaders of the American Revolution Prominent surgeons participated in political activities that ultimately resulted in the breakaway of the colonies from Britain Surgeons were members of the Sons of Liberty and other groups opposing Acts imposed on the colonies by Parliament Similar to other groups in society surgeons were split in their view of the growing opposition against the English rule of the American colonies and the wish to create an independent nation Even with different opinions of the revolution Loyalists and Patriots were often able to get along and live peacefully in the same communities Surgery underwent dramatic developments during the 1700s Although anesthesia was still a century in the future surgeons performed extensive procedures including laparotomies opening of the abdomen for tumors mastectomies for cancerous growths amputations of the leg above or below the knee and cutting for the stone removal of bladder stones An increased understanding of human anatomy was one reason why surgeons kept moving the boundaries of what was considered possible With no anesthesia patients screams from pain and horror were unimaginable Many patients died from shock on the operating table or from postoperative bleedings and infections Stories about surgeons as leaders of the American Revolution and about their heroic surgical procedures provide for an exciting read Healthcare Valuation: The four pillars of healthcare value Robert James

Cimasi, 2014 In light of the dynamic nature of the healthcare industry sector the analysis supporting business valuation engagements for healthcare enterprises assets and services must address the expected economic conditions and events resulting from the four pillars of the healthcare industry reimbursement regulation competition and technology This title presents specific attributes of each of these enterprises assets and services and how research needs and valuation processes differentiate depending on the subject of the appraisal the environment the property interest exists and the nature of the practices
