Khrushchev Kharkiv is analyzed as a political space and a place of state violence aimed at combating Ukrainian nationalism and Zionism two major targets in the 1960s 1970s Despite their various cultural and social backgrounds the Kharkiv literati might be identified as a distinct bohemian group possessing shared aesthetic and political values that emerged as the result of de Stalinization under Khrushchev Archival documents diaries and memoirs suggest that the 1960s 1970s was a period of intense KGB operations active measures designed to disrupt a community of intellectuals and to fragment friendships bonds and support among Ukrainians Russians and Jews along ethnic lines domestically and abroad *United and Divided*
