NS Simulator for Beginners Eitan Altman, Tania Jiménez, 2012 NS 2 is an open source discrete event network simulator which is widely used by both the research community as well as by the people involved in the standardization protocols of IETF The goal of this book is twofold on one hand to learn how to use the NS 2 simulator and on the other hand to become acquainted with and to understand the operation of some of the simulated objects using NS 2 simulations The book is intended to help students engineers or researchers who need not have much background in programming or who want to learn through simple examples how to analyse some simulated objects using NS 2 Simulations may differ from each other in many aspects the applications topologies parameters of network objects links nodes and protocols used etc The first chapter 1 is a general introduction to the book where the importance of NS 2 as a tool for a good comprehension of networks and protocols is stated In the next chapters 4 5 6 7 8 and 9 we present special topics as TCP RED etc using NS 2 as a tool for better understanding the protocols We provide in the appendices a review of Random Variables A and Confidence Intervals B as well as a first sketch for using the new NS 3 simulator C , **Exploring the Role of Foreign Investors in Russia's**

Local Currency Government Bond (OFZ) Market Yinqiu Lu, Dmitry Yakovlev, 2017-02-10 Local currency government bonds OFZ bonds are an important fixed income instrument in Russia's financial markets In this paper based on granular data we explore the development of the OFZ bond market with a focus on foreign investors As this fixed income market has experienced a liberalization of the domestic trading and settlement infrastructure and weathered several episodes of market stresses since the 2008 09 global financial crisis the role of foreign investors can be observed along with these events What we have found is that foreign investors had influenced the market before they became an important player and since then they have contributed to the development of the market while not necessarily destabilizing it in episodes of shocks

Case-Based Reasoning Research and Development Michael T. Cox, Peter Funk, Shahina Begum, 2018-10-08 This book constitutes the refereed proceedings of the 26th International Conference on Case Based Reasoning Research and Development ICCBR 2018 held in Stockholm Sweden in July 2018 The 39 full papers presented in this book were carefully reviewed and selected from 77 submissions The theme of ICCBR 2017 The Future of CBR was highlighted by several

activities These papers which are included in the proceedings address many themes related to the theory and application of case based reasoning and its future direction Topics included multiple papers on textual CBR and a number of cognitive and human oriented papers as well as hybrid research between CBR and machine learning *OECD Economic Surveys: Slovak Republic 2014* OECD,2014-11-05 OECD s 2014 Economic Survey of the Slovak Republic examines recent economic developments policies and prospects Special chapters cover reforming the public sector and spurring growth in lagging regions Inside the Foreign Exchange Universe Tholoor M. Thomas,CFA,2013-12 The foreign exchange FX market is the largest financial market and has a daily turnover close to five trillion US dollars The evolution of the foreign exchange market since the abrogation of the Bretton Woods agreement in 1971 has been remarkable The FX market which was once accessible only to large banks and institutions is now within reach of average people This significant change stems from market liberalisation globalisation and advancements in technology Most people carry out some sort of foreign exchange transaction very frequently this transaction occurs directly or indirectly Plus the fluctuations in exchange rates affect the financial lives of people on a regular basis Yet the subject of foreign exchange is widely misunderstood because of its intricacies It is essential to establish a basic understanding of FX because it has an important influence on our earnings expenditures savings and investments Though a lot has been written on the subject much of the literature lacks precision This book fills that gap by providing readers with a condensed and precise explanation of foreign exchange and its market dynamics Tholoor M Thomas draws on his forty one years of experience in the foreign exchange market to introduce the forex basics factors affecting exchange rates exchange rate arithmetic exchange rate regimes options and futures used to hedge currency risks evolution of the market through history major market participants numerous world currencies and the key jargons used in the industry This book provides a wealth of information for students of finance those looking to begin a career in foreign exchange investment analysts portfolio managers and anyone interested in attaining a deeper knowledge of the foreign exchange universe **Achieving the Demographic Dividend in the Arab Republic of Egypt** Sameh El-Saharty,Heba Nassar,Sherine Shawky,Amr Elshalakani,Yi Zhang,Nahla Zeltoun,2022-09-23 The Arab Republic of Egypt was well on the path to achieving its demographic dividend at the turn of this century but has gone off track due to a reversal in its earlier fertility decline But what is the demographic dividend It reflects the economic benefits when a country undergoes a rapid decline in mortality then fertility and the consequent demographic transition Due to lower fertility and fewer children per household a growing working age population increases productivity and per capita income leading to accumulated savings investments and economic growth underscoring the strong link between demographics and economic growth Fortunately Egypt has the political will resources and capacity to achieve its demographic dividend in the next decade as this report by a team of Egyptian and World Bank experts shows It reviews the trends in determinants of the rising total fertility rate the likely factors that contributed to Egypt s fertility decline reversal the government s initial response and

the sectoral and social drivers that may have influenced this fertility decline reversal It also assesses the economic impact of the demographic changes including estimates of forgone savings due to the increased fertility and of potential future gains if the country were to regain and then accelerate its fertility decline Drawing on global evidence the report proposes six policy and strategic priorities complemented by four policy imperatives These priorities aim to increase the contraceptive prevalence rate the most important of the six reduce school dropouts increase female labor force participation delay early marriage leverage social protection programs and improve governance of the country's population program The four imperatives aim to assure broad based socioeconomic development and they include creating productive jobs investing in and leveraging human capital enhancing financial inclusion and entrepreneurship especially for women and sustaining macroeconomic stability The president's Decent Life Initiative and the National Project for the Development of the Egyptian Family can be used as the platform to implement many of the proposed policies and strategies In such a manner Egypt will be back on track to achieve its demographic dividend

Kenya Population Situation Analysis, 2013

Russia's Turn to the East Helge Blakkisrud, Elana Wilson Rowe, 2017-12-29 This book is open access under a CC BY license This book explores if and how Russian policies towards the Far East region of the country and East Asia more broadly have changed since the onset of the Ukraine crisis and Russia's annexation of Crimea Following the 2014 annexation and the subsequent enactment of a sanctions regime against the country the Kremlin has emphasized the eastern vector in its external relations But to what

extent has Russia's pivot to the East intensified or changed in nature domestically and internationally since the onset of the current crisis in relations with the West. Rather than taking the declared pivot as a fact and exploring the consequences of it, the contributors to this volume explore whether a pivot has indeed happened or if what we see today is the continuation of longer duration trends, concerns and ambitions. Hospitality and Tourism in Transition in Central and Eastern Europe Maria Vodenska, 2019-01-22. This book is the result of the joint efforts of hospitality and tourism academicians of eleven countries in Central and Eastern Europe, all of them members of La Fondation pour la Formation Hospitalière based in Switzerland, which for more than twenty years has supported the development and the evolution of hospitality and tourism education in thirty-nine educational institutions across Central and Eastern Europe. The book analyses hospitality and tourism development in various countries in the period of transition 1990-2015. Its main advantage is that the research is conducted by native hospitality and tourism researchers and specialists from each country. The volume will appeal to a large audience of lecturers, researchers and students in hospitality and tourism both across Europe and worldwide as well as to all people interested in Central and Eastern European countries' general development and its specifics during the transition period.

Grid-locked African Economic Sovereignty Warikandwa, Tapiwa Victor, Nhemachena, Artwell, 2019-02-06. The emergent so-called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans. This book dismisses this flawed reasoning, surfacing how investors are actually looting and plundering Africa, how the industrial internet of things, the gig economies, digital economies and cryptocurrencies breach African political and economic sovereignty. The book pioneers what can be called anticipatory economics, which anticipate the future of economies. It is argued that the future of Africans does not necessarily require degrowth, postgrowth, postdevelopment, postcapitalism or sharing solidarity economies; it requires attention to age-old questions about African ownership and control of their resources. Investors have to invest in ensuring that Africans own and control their resources. Further, it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure, which is no less lethal for Africans. Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo-imperial plunder, theft, robbery, looting and dispossession of Africans, this book goes beyond the simplistic arguments that Euro-America developed due to the industrial revolutions. Cardiovascular Remodeling Yan Yang, Yi Zhang, Ming Lei, Gui-Rong Li, 2023-08-25. Although the treatment has greatly progressed, the mortality of cardiovascular diseases remains the leading cause of death worldwide. Serious cardiovascular diseases, e.g. myocardial infarction, heart failure, cardiac dysrhythmias and stroke, are resulted from cardiovascular remodeling secondary to the cardiovascular risk factors including hypertension, atherosclerosis, cigarette smoking, diabetes mellitus, hyperlipidemia, aging, etc. Cardiac remodeling involves a series of molecular, cellular and interstitial alterations which manifest clinically as changes in size, mass, geometry and function of the heart. In addition, vascular remodeling is an active process of structural

alteration involving vascular wall thickening and lumen stenosis due to endothelial injury vascular smooth muscle cell proliferation and matrix deposition This results in atherosclerosis and or stenosis followed by myocardial infarction stroke etc Thus studies on the mechanism of cardiovascular remodeling and new therapeutic approaches are important scientifically and clinically Cardiovascular remodeling is a response of specific cardiovascular cells including cardiomyocytes endothelial smooth muscle cells and interstitial cells to noxious hemodynamic metabolic and inflammatory stimuli The remodeling may initially be functional compensatory and adaptive but it progresses to structural alterations that become pathogenic when the damaging stimuli are sustained The mechanism of cardiovascular remodeling is complex and recent studies focus on improving and or reversing the remodeling by clarifying molecular mechanisms and identifying novel therapies Pharmacological anti remodeling RNA based long non coding RNA and microRNA treatment cell based iPS cardiac repair and cell free exosome approaches have been shown to improve cardiovascular remodeling alongside proangiogenic pro survival proliferative and immunogenic factors stimulating endogenous proliferative potential of cardiomyocytes However though advanced studies have progressed the prognosis of the affected patients remains poor Therefore understanding novel mechanisms identifying remodeling biomarkers and developing new therapeutic drugs and approaches can lead to new therapeutic options for treating patients with cardiovascular diseases
