Technology Transfer for the Ozone Layer Stephen O. Andersen, Kristen N. Taddonio, K. Madhava Sarma, 2012 Imagine the pride of earning the Nobel Prize for warning that CFCs were destroying the ozone layer Then imagine that citizens policymakers and business executives heeded the warning and transformed markets to protect the earth This book is the story of why we can all be optimistic about the future if we are willing to be brave and dedicated world citizens MARIO MOLINA Nobel Laureate in Chemistry and Professor University of California This book tells how the Montreal Protocol the most successful global environmental agreement so far stimulated the development and worldwide transfer of technologies to protect the ozone layer Technology transfer is the crux of the 230 international environmental treaties and is essential to fighting climate change While debate rages about obstacles to technology transfer until now there has been no comprehensive assessment of what actually works to remove the obstacles The authors leaders in the field assess over 1000 technology transfer projects funded under the Montreal Protocol's Multilateral Fund and the Global Environment Facility and identify lessons that can be applied to technology transfer for climate change

Organising Knowledge in a Global Society

Philip Hider, Ross Harvey, 2008-06-01 Organising Knowledge in a Global Society updates the successful first edition which has been widely used as an introduction to the field of information organisation both in Australia and overseas The work reflects current practice and trends paying particular attention to how libraries and other information services provide intellectual access to digital information resources through metadata In this revision the various information organisation components of

the Web 2.0 phenomenon are discussed including social tagging and folksonomies. The new edition also covers the latest developments in metadata standards such as Resource Description and Access and information retrieval systems such as the increasing support for faceted navigation. Examples and case studies have been updated throughout. **Report of the ... Session of the Joint Scientific Committee** Joint Scientific Committee for the World Climate Research Programme, and the Global Atmospheric Research Programme. Session, 2004. *Invitations from Afar* Linda A.W. King, 2012-06-11 After fulfilling every objective of a top secret mission to Jupiter's Ganymede and now only days from home four NASA astronauts learn from their computer systems analyst in Houston through an unauthorized channel that a bomb may be on a rendezvous course with their ship the Copernicus Mission Specialist Jana Novacek the youngest astronaut ever who has been chosen for mysterious reasons suggests breaking security announcing their existence to everyone over the net and asking for help. Someone might be willing to help who unknowingly is involved in the plot against them. Cocommander Fawzshen Prince of Rhatania further recommends revealing their amazing discovery. Commander Jackson Medwin thinks that Jana's journal is ideal for that purpose. Jana is distressed and feels her personal journal is not suitable. Commander Medwin will do anything to save his crew this mission and their discovery but he decides neither to take evasive actions nor break security until they have proof that something is on a collision course with their ship. He considers a deactivated meteoroid detection program uploaded to them from Houston as insufficient proof. *The Caravan* Delhi Press Magazines, 2018-09-12 The country's first and only publication devoted to narrative journalism.
