Bullying Great Britain: Parliament: House of Commons: Education and Skills Committee,2007-03-27 There has been an increasing awareness over the past few decades of bullying and the effect it has on the educational and social achievements of children and young people The Committee s report examines the progress that has been made to address this problem since the introduction of the Don t Suffer in Silence pack in 1994 the barriers that prevent schools from tackling bullying effectively issues of prejudice driven bullying including SEN related homophobic and faith based bullying and cyber bullying The report finds that defining what bullying is and identifying instances of bullying is the first potential barrier to successfully tackling the problem Teachers and staff pupils and parents should all be aware of

their school's definition of bullying and how this affects their own behaviour with the attitude and engagement of head teachers vital to tackling bullying The focus of anti bullying guidance should be tackling bullying behaviour and making it clear that such behaviour is not acceptable rather than attempting to change the behaviour of the victim The DfES should issue new guidance to local authorities and schools on when the use of exclusion is appropriate The lack of accurate reliable data on bullying is another barrier to more effective anti bullying work and the Government should commission a long term study of a number of schools looking at both general trends in bullying and also the effectiveness of different approaches in different circumstances The report also recommends that the Government needs to foster a culture where schools are encouraged to be open about incidents of bullying have effective ways of dealing with bullying when it occurs and provide support the victims of bullying rather than fearing reporting incidents of bullying will damage their reputation

Disaffection From School (RLE Edu M) David Hargreaves, Stephen Hester, Frank Mellor, 2012-05-04 A large number of pupils are or are liable to become disaffected with their schooling In this comprehensive account of the problem Ken Reid suggests that school can and should do much more to prevent and overcome disaffected behaviour as manifested by such factors as absenteeism disruption and underachievement The book covers disruptive behaviour in its broader context and examines the search for an explanation within schools themselves Formal and multidisciplinary approaches to the problem are also fully treated The author has drawn on his considerable school and research experience and the book is well

illustrated with examples and case histories Ken Reid argues that questions about attitudes and approaches in teaching and in pastoral care provoke a continued challenge and stresses that if such questions are not faced squarely the long term prognosis for secondary education in Britain may be bleak Teachers in training and all those involved in the education and welfare of difficult or disadvantaged children especially teachers heads and social workers will find *Disaffection from School* both challenging in its analysis and helpful in its suggestions
